

**DUBLIN SAN RAMON SERVICES DISTRICT
Board of Directors**

NOTICE OF REGULAR MEETING

TIME: 6:00 p.m.
PLACE: Regular Meeting Place
7051 Dublin Boulevard, Dublin, CA

DATE: Tuesday, November 5, 2013

AGENDA

(NEXT RESOLUTION NO. 49-13)

(NEXT ORDINANCE NO. 331)

Our mission is to provide reliable water and wastewater services to the communities we serve in a safe, efficient and environmentally responsible manner.

BUSINESS:

*Note: Agendas for regular meetings of District Committees are posted not less than 72 hours prior to each Committee meeting at the District Administrative Offices, 7051 Dublin Boulevard, Dublin, California

All materials made available or distributed in open session at Board or Board Committee meetings are public information and are available for inspection at the front desk of the District Office at 7051 Dublin Blvd., Dublin, during business hours, or by calling the District Secretary at (925) 828-0515. A fee may be charged for copies. District facilities and meetings comply with the Americans with Disabilities Act. If special accommodations are needed, please contact the District Secretary as soon as possible, but at least two days prior to the meeting.

DUBLIN SAN RAMON SERVICES DISTRICT
MINUTES OF A REGULAR MEETING OF THE BOARD OF DIRECTORS

October 15, 2013

A regular meeting of the Board of Directors was called to order at 6:00 p.m. by President Dawn L. Benson. Boardmembers present: President Dawn L. Benson, Vice President Georgean M. Vonheeder-Leopold, Director Edward R. Duarte, Director D.L. (Pat) Howard, and Director Richard M. Halket. District staff present: Bert Michalczyk, General Manager; David Requa, District Engineer/Assistant General Manager; John Archer, Interim Financial Services Manager Supervisor; Dan Gallagher, Operations Manager; Michelle Gallardo, Interim Organizational Services Manager; Carl P.A. Nelson, General Counsel; and Nicole Genzale, Administrative Analyst I

1. **CALL TO ORDER**
2. **PLEDGE TO THE FLAG**
3. **ROLL CALL** - Members: Benson, Duarte, Halket, Howard, Vonheeder-Leopold
4. **SPECIAL ANNOUNCEMENTS/ACTIVITIES** - None
5. **PUBLIC COMMENT (MEETING OPEN TO THE PUBLIC)** – 6:01 p.m.
6. **REPORTS**
 - A. **Reports by General Manager and Staff**
 - Event Calendar – General Manager Michalczyk reported on the following:
 - o On Monday October 21, 2013 at 5:30 p.m. the annual Neighborhood Update Meeting will be held at the Wastewater Treatment Plant. This meeting was not previously included as a formal meeting on the Board's calendar but will be appropriately noticed as a Wastewater Committee meeting, per the Brown Act, as V.P. Vonheeder-Leopold and Director Duarte, who comprise the Wastewater Committee, will be in attendance.
 - o Item 8.A on the Consent Calendar, WWTP Fencing and Security – Phase I (CIP 12-P004): Approve License Agreement with Zone 7, is identified for the Board's consideration for approval by motion; however, staff is requesting that the Board approve the agreement by resolution. A resolution better provides the permanent administrative record of the Board's action. The resolution related to this agreement's approval has been provided for the Board's review at the dais. It is requested that whoever makes the motion to approve the Consent Calendar also include the resolution associated with this item.
 - o He requested that the Board hold a special Board meeting next week on Tuesday, October 22 at 6:00 p.m. to consider the various recycled water agreements between the District, Pleasanton and DERWA. He noted that the managers and legal counsels of all parties have reached agreement. In order to keep this effort on schedule, a meeting next week would be beneficial. He also noted that because Mr. Requa will be retiring on October 27, it would be appropriate for him to present these agreements to the Board for consideration. He noted that Mr.

DRAFT

Requa's efforts have been instrumental in bringing the parties together so he would like to afford Mr. Requa an opportunity to recommend formal approval of the agreements. The Board confirmed that a special Board meeting will be held on October 22 at 6:00 p.m. as requested.

- Correspondence to and from the Board – None.

B. Committee Reports

Personnel

October 7, 2013

President Benson invited comments on recent committee activities. Directors felt the available staff reports adequately covered the many matters considered at committee meetings and made a few comments about some of the committee activities.

C. Agenda Management (consider order of items)

General Manager Michalczyk recommended that Closed Session Items 11.A, 11.B, 11.C, & 11.D be moved directly after the Consent Calendar in an effort to have the smoothest flowing meeting possible. In addition, if the Board approves Item 8.C on the Consent Calendar, Closed Session Item 11.B will not be required.

7. APPROVAL OF MINUTES – Regular Meeting of *October 1, 2013*

Director Duarte MOVED for the approval of the October 1, 2013 minutes. V.P. Vonheeder-Leopold SECONDED the MOTION, which CARRIED with FIVE AYES.

8. CONSENT CALENDAR

Director Howard MOVED for approval of the items on the Consent Calendar, including the use of the proposed Resolution to approve Item 8.A. V.P. Vonheeder-Leopold SECONDED the MOTION, which CARRIED with FIVE AYES.

- A. WWTP Fencing and Security – Phase I (CIP 12-P004): Approve License Agreement with Zone 7 – Approved – Resolution No. 42-13
- B. WWTP Fencing and Security – Phase I (CIP 12-P004): Approve Capital Improvement Program Budget Adjustment – Approved – Resolution No. 43-13
- C. Approve Personal Services Agreement between the District and John J. Archer as Interim Financial Services Manager – Approved – Resolution No. 44-13
- D. Adopt Pay Schedule in Accordance with California Code of Regulations, Title 2, Section 570.5, Requirement for a Publicly Available Pay Schedule and Rescind Resolution No. 39-13 – Approved – Resolution No. 45-13
- E. Appoint Mr. John Archer as Treasurer – Approved
- F. Upcoming Board Calendar – Approved

11. CLOSED SESSION

At 6:04 p.m. the Board went into Closed Session.

- A. Conference with Legal Counsel – Anticipated Litigation. Significant exposure to litigation pursuant to paragraph (2) for (3) of subdivision (d) of Government Code Section 54956.9: One case.
- B. NOT HELD - Conference with Labor Negotiators – Pursuant to Government Code Section 54957.6
Agency Designated Representative: General Manager
Unrepresented Employee: Interim Financial Services Manager
- C. Conference with Labor Negotiators – Pursuant to Government Code Section 54957.6
Agency Designated Representative: General Manager
Unrepresented Employee: Interim Engineering Services Manager
- D. Public Employee Performance Evaluation – Pursuant to Government Code Section 54957
Title: General Manager

12. REPORT FROM CLOSED SESSION

At 6:15 p.m. the Board came out of Closed Session. President Benson announced that there was no reportable action.

9. BOARD BUSINESS

- A. WWTP Fencing and Security – Phase I (CIP 12-P004): Award Construction Agreement to McGuire and Hester

District Engineer Requa introduced the item and provided some background information for the Board. He stated that there are two separate parts to the action that staff has recommended the Board take. The first action is to reject the lowest bid based on the fact that the lowest bidder did not meet the project's specifications requiring a Workers' Compensation Experience Modification Rate of 1.0 or less. As a result, the second action is to award the project to the second lowest bidder, McGuire and Hester. Mr. Requa added that the bid is substantially more than the Engineer's estimate based on the fact that the estimate was prepared by the landscaping architect rather than by an expert in heavy grading and slope repair.

Mr. Requa then gave an overview of the proposed fencing and landscaping work to be done, mentioning that the road along the south side of the property will be widened to allow service access for PG&E. In addition, he stated that the southeast corner of the property is essentially sliding downhill into the canal and starting to stress the utilities in that area. To remedy this, and prevent the new fencing and landscaping from sliding as well, the project was expanded to include slope grading

and construction of a retaining wall. This explains the difference in the original project cost, but is the least expensive solution. This is important work for the WWTP in providing improved access for Operations staff and limiting damage to underground utilities due to the backslide.

Mr. Requa commented, in reference to Consent Calendar Item 8.A WWTP Fencing and Security - Phase I (CIP 12-P004): Approve License Agreement with Zone 7, that Zone 7 has been very cooperative and has allowed District staff access to their property to tend to the weed overgrowth and tie that area into the proposed landscaping.

Speaker: Ms. Debra Wall, Val Vista Resident and Pleasanton Park and Recreation Commissioner - Ms. Wall stated that she was excited to have the opportunity to state her support to the Board for the awarding of the fencing and landscaping project at the WWTP while serving in her new dual role.

Director Halket inquired if this project would bring this issue to a close, noting the District's costly investment over the course of several years. He stated that the Wastewater Treatment Plant is an industrial facility that predates the surrounding park and neighborhood by many years and feels that the District has been more than accommodating in addressing this issue.

Mr. Requa responded that this is the end of this project for now (as approved in the current CIP budget) but acknowledged that there may be requests to make improvements for other areas of the facility in the future.

Director Duarte inquired as to why the project estimate was not upgraded when the slope control was added into the project scope.

Mr. Requa responded that the extent of the slope repair was unknown, and, therefore, underestimated, until the soil evaluation and report was completed. It was then determined that the initially planned slope work would be insufficient for the long-term.

Director Howard asked if the initial estimate for this project was basically for fencing and landscaping.

Mr. Requa confirmed this was correct and added that some funding was initially included for slope and roadway repair but the slope repair is more extensive than originally anticipated.

V.P. Vonheeder-Leopold added that she was pleased that the District will finally live up to the commitment made to residents regarding landscaping and odor improvements, noting that this effort began in 1997.

Director Halket commented that he was also pleased to see this coming to completion and noted that there are and have been several differing Boardmember perspectives regarding this situation.

Director Howard MOVED to adopt Resolution No. 46-13, approving and authorizing execution of agreement to McGuire and Hester for Construction of WWTP Fencing and Security – Phase I (CIP 12-P004) and Directing Return of Security Deposits. V.P. Vonheeder-Leopold SECONDED the MOTION, which CARRIED with FIVE AYES.

B. Reconsideration of the Board's Prior Decision Related to the Safety Officer Position

General Manager Michalczyk provided the Board with the background and timeline of events that led to the discussion before the Board tonight. The Operating Budget was approved on June 4, which included the authorization to hire four positions, including a Safety Officer to fill that vacant position. He stated that in August, Director Duarte requested that the Safety Officer position be reconsidered and, in accordance with the Board's Guidelines for Conducting District Business policy, that reconsideration request was placed on the October 1 Board meeting agenda. The Board affirmatively voted to reconsider the matter and then directed it to the Personnel Committee for further evaluation. Mr. Michalczyk reported that the Personnel Committee's recommendation to the Board tonight is to reaffirm the prior Board decision to approve and fund the position. He then deferred to President Benson and Director Howard, the Personnel Committee members, to discuss the Committee's reasoning for such recommendation.

President Benson stated that she has reviewed several safety related job descriptions from East Bay Municipal Utility District including Manager of Workplace Health and Safety, Manager of Regulatory Compliance, and Manager of Security and Emergency Preparedness. In doing so, she came to the conclusion that the District's Safety Officer position title was perhaps incorrect in accurately reflecting the full scope of the components of this multi-purpose position. The District's job description reflects a manager level position that spans several different facets of the District's relationships with regulatory agencies, such as OSHA and Cal/OSHA, and oversees regulatory compliance, security, and emergency preparedness, in addition to running the District's safety programs.

Director Howard stated his agreement with President Benson and noted that during the budget consideration process there were a certain number of positions approved. He views those positions as a type of capital for staff to use as they manage the District. He noted that staff at all levels of the District overwhelmingly expressed that a Safety Officer position was at the top of the list of priorities. He finds it difficult to argue with how staff best determines to use the resources the Board provides.

President Benson added that the last time the position title was updated was 1991, noting that things have changed over the course of time. Employing a Safety Officer is a safety precaution, and the District has sat idle without hiring an employee to fill that job. She stated that she believes the position should have already been filled.

Director Duarte observed that the Safety Officer position appears to be a “done deal” based on reading the Personnel Committee’s report. He understands that the matter was given its due process, but stated that he does not agree with the recommendation or the compensation package that accompanies the position. He commented that staff wanting something does not necessarily make the decision right. He stated that the budget approval process still bothers him, as the budget was presented as a full package containing this specific position. He added that operating a wastewater treatment plant is not that dissimilar to operating a heavy civil construction engineering company, and stated that employing a full-time Safety Officer is out of alignment with the private sector. He will abide with the Personnel Committee’s recommendation, but still disagrees with the compensation set and questions whether the job warrants a full-time position.

President Benson thanked Director Duarte for initiating the process to take another look at this matter and stated that it is important for District Duarte’s voice to be heard.

Director Duarte stated that he would never accuse the Board of putting a “rubber stamp” on the matter and that he did not run for the Board to become a “rubber stamp,” but expressed that he felt he was put in the position to have to vote for the Operating Budget which contained this position, leaving him with no choice in the matter.

V.P. Vonheeder-Leopold stated that she agreed with the comment Director Halket made at the October 1, 2013 Board meeting cautioning Boardmembers about re-opening decided Board policy. She believes it is a bad precedent to set for the Board; however, she recognized that Director Duarte is the newest Boardmember, and in this instance she thought it necessary.

V.P. Vonheeder-Leopold also commented that if the District is evolving into a maintenance organization it might be wise to consider contracting some positions in the future. She thanked Director Duarte for the work he put into this effort and stated that she will look at things differently in the future as a result.

Director Halket welcomed Director Duarte to the process of governance and thanked him for the useful exercise. He advised that it is useful to take the long view as it can take time before changes can be realized.

Director Halket MOVED to adopt Resolution No. 47-13, reaffirming its prior approval and funding for the District Safety Officer Position. Director Howard SECONDED the MOTION, which CARRIED with FOUR AYES and ONE NO (Duarte).

10. BOARDMEMBER ITEMS

Director Howard reported that on his recent travels from Tahoe, he has seen beautiful California fall foliage and scenery along State Route 88, which is also known as the Carson

Pass Highway. He mentioned that the lakes seen from along this route are fairly full at this time of year.

V.P. Vonheeder-Leopold reported that she read the ACWA newsletter and a commemorative Gold Edition of the California's Water series done by Huell Howser will be available for purchase. The full series of 25 segments are available for \$30. She would like the District to purchase these for the local school districts and the library to further ecological and environmental education.

General Manager Michalczyk stated that he would look into this as he believes the Public Information staff may have already purchased and distributed these to the local school district and libraries.

President Benson welcomed and congratulated Interim Financial Services Manager Archer.

President Benson acknowledged Mr. Requa and his upcoming retirement and thanked him for his years of invaluable contributions, insight, and honesty. She acknowledged that he has been bringing people together for the good of the agency, state, and nation as an industry expert. He always contributes a synergy that is appreciated and the District will miss him.

13. ADJOURNMENT

President Benson adjourned the meeting at 6:43 p.m.

District Secretary

**DUBLIN SAN RAMON SERVICES DISTRICT
MINUTES OF A SPECIAL MEETING OF THE BOARD OF DIRECTORS**

October 22, 2013

A special meeting of the Board of Directors was called to order at 6:00 p.m. by President Dawn L. Benson. Boardmembers present: President Dawn L. Benson, Vice President Georgean M. Vonheeder-Leopold, Director Edward R. Duarte, Director D.L. (Pat) Howard, and Director Richard M. Halket. District staff present: Bert Michalczyk, General Manager; David Requa, District Engineer/Assistant General Manager; John Archer, Interim Financial Services Manager/Treasurer; Dan Gallagher, Operations Manager; Carl P.A. Nelson, General Counsel; and Nancy Gamble Hatfield, District Secretary.

1. **CALL TO ORDER**
2. **PLEDGE TO THE FLAG**
3. **ROLL CALL** - Members: Benson, Duarte, Halket, Howard, Vonheeder-Leopold
4. **PUBLIC COMMENT (MEETING OPEN TO THE PUBLIC)** – 6:02 p.m.
5. **BOARD BUSINESS**
 - A. Approve Fifth Supplemental Agreement to Agreement for Wastewater Disposal Services between City of Pleasanton and Dublin San Ramon Services District and Provide Direction to DERWA Representatives regarding DERWA – Pleasanton Agreement

District Engineer Requa reported that he was presenting and recommending Board approval of the Fifth Supplemental Agreement for Wastewater Disposal Services between the City of Pleasanton and the District. The DERWA Board will also consider, and staff is recommending approval of, an agreement on October 28, 2013 to provide recycled water treatment and delivery services by and between DERWA and the City of Pleasanton. The Pleasanton City Council will consider approval of both agreements at their meeting on November 5, 2013.

Mr. Requa explained that these agreements are important to the District and the City of Pleasanton and represent the least-cost alternatives for the City to get recycled water to Pleasanton. The District and DERWA will benefit from spreading out fixed costs. Mr. Requa stated that the Board needed to be aware that even after these agreements are considered and approved by the Pleasanton City Council on November 5, 2013, Pleasanton must still complete their environmental process and select their desired project.

Mr. Requa reviewed highlights of the Fifth Supplemental Agreement including some of the associated costs. The Fifth Supplemental Agreement will not become effective unless and until DERWA has approved the DERWA-Pleasanton Agreement, Pleasanton has approved both agreements (with DSRSD and DERWA), and

DRAFT

Pleasanton has completed California Environmental Quality Act (CEQA) for their project. Overall, with these agreements in place, there will be an improvement in potable water reliability in the Tri-Valley and this effort will also work toward meeting the required reduction of potable water in the state by 2020. Mr. Requa recommended approval of the Fifth Supplemental Agreement with Pleasanton.

Director Duarte asked if there were any concerns with the upcoming Pleasanton environmental review process.

Mr. Requa responded that there was not a lot of concern with regard to the environmental review. He stated that a possible concern that has been an issue in the past is the impact of recycled water use over the main basin for salt and other contaminant issues.

President Benson invited Mr. Daniel Smith from the City of Pleasanton to address the Board.

Speaker: Mr. Daniel Smith, Director of Operations Services, City of Pleasanton – Mr. Smith thanked Messrs. Michalczyk and Requa for their patience and diligence in working on these multiple agreements. Mr. Smith stated that the City of Pleasanton is looking forward to moving along with their recycled water project. He noted that early on, the City started working with Zone 7 as a partner on their feasibility study and, as a result, any issues that potentially could arise have likely been worked through. He expressed excitement about the regional aspect of Pleasanton's project and their Council is hopeful that the District Board will approve the agreement. Mr. Smith stated that he will really miss Mr. Requa upon his impending retirement.

President Benson expressed her thanks for the efforts and asked Mr. Smith to extend the District Board's best to the City Council.

General Manager Michalczyk commented that former District Director Jeff Hansen asked him to share the following email with the Board on this topic: "The Pleasanton deal was truly a long time in the making-but definitely worth it. I want to compliment everyone who has been involved for so long (DERWA, EBMUD, Pleasanton and the District) for implementing what is so obviously a win-win governance and environmental success. And, I especially want to compliment you (Mr. Michalczyk) and Dave Requa, for staying with it all these years. If you get the chance, please pass along my heartfelt congratulations to all involved, beginning with the Board. As you have heard me say before: 'This is an idea whose time has come.'"

Mr. Michalczyk thanked everyone for their vision and patience with each other, noting that water deals are never easy and never quick. He extended his thanks especially to Daniel Smith, and stated that he appreciates the approach used to get this work done, given the history between the agencies.

Director Halket MOVED to adopt Resolution No. 48-13, approving Fifth Supplemental Agreement to Agreement for Wastewater Disposal Services between

City of Pleasanton and Dublin San Ramon Services District. V.P. Vonheeder-Leopold SECONDED the MOTION, which CARRIED with FIVE AYES.

6. CLOSED SESSION

The Board did not hold any of the Closed Sessions.

A. NOT HELD - Conference with Real Property Negotiator – Pursuant to Government Code Section 54956.8

Property: Water Supply
Agency Negotiator: Bert Michalczyk, General Manager
David Requa, Assistant General Manager/District Engineer
John Archer, Interim Financial Services Manager
Dan Gallagher, Operations Manager
Carl P.A. Nelson, General Counsel
Negotiating Parties: City of Pleasanton
Under Negotiation: Terms and Conditions

B. NOT HELD - Conference Involving a Joint Powers Agency Pursuant to Government Code Section 54956.96 (DSRSD-EBMUD Recycled Water Authority (DERWA))
Discussion Will Concern: Conference with Real Property Negotiator – Pursuant to Government Code Section 54956.8

Property: Water Supply Contract
Negotiating Parties: City of Pleasanton & DERWA
Under Negotiation: Price & Terms
Local Agency Representatives of Joint Powers Agency Board:
Director Halket
Director Vonheeder-Leopold
Other Attendees: Bert Michalczyk, General Manager
David Requa, Assistant General Manager/District Engineer
John Archer, Interim Financial Services Manager
Dan Gallagher, Operations Manager
Carl P.A. Nelson, General Counsel

B. NOT HELD - Conference with Legal Counsel – Anticipated Litigation. Significant exposure to litigation pursuant to paragraph (2) for (3) of subdivision (d) of Government Code Section 54956.9: One case.

7. REPORT FROM CLOSED SESSION – None.

8. ADJOURNMENT

Before the close of the meeting, President Benson invited District Engineer Dave Requa to address the Directors for a last time before his retirement from the District.

Mr. Requa walked up to the lectern and offered several heartfelt thoughts with the Board of Directors about his 18-year career at the District. He noted the many times his career had intersected the District long before he became an employee of the agency. Mr. Requa

lightheartedly shared several anecdotes about individuals with whom he worked and with whom the Board was familiar, noting some interesting facts along the way. He thanked General Manager Michalczyk for the authority and autonomy afforded to him and for always listening to his opinion, and for allowing him to have a fun, exciting and challenging time.

Mr. Requa complimented the current and previous District Boards for the way they have conducted themselves. He stated he believes the public cannot fully appreciate all the challenges the Board faces regarding the many requirements of PERS, the law, District MOUs, while also retaining good, qualified staff. He thanked the Board for rising above difficult situations and challenges. Mr. Requa directed the Board's attention to a photo of the former pine tree in the front of the District Office building that died and fell down some years ago. With the wood from that tree, retired District employee, John Mauck, handcrafted a gavel and base, which Mr. Requa presented to the Board of Directors for their use. Mr. Requa concluded his remarks with a hearty thank you to General Manager Michalczyk and the Board of Directors!

The Board happily accepted the treasure.

Director Howard likened Mr. Requa to some words from country music singer Willy Nelson and thanked him for all that he had done while at the District and for his ability to work the "middle of the road." He expressed how much he enjoyed working with him and said that he was a very special person.

V.P. Vonheeder-Leopold commented that she will really miss Mr. Requa and that she could always call upon him to get the truth. She always thought of Mr. Requa as a peace maker, particularly when it came to working with Pleasanton.

Director Halket commented that he will really miss Mr. Requa.

President Benson also told Mr. Requa that she will really miss him as he is cherished and valued for his opinions and he will be treasured in the hearts of those who know and who worked with him.

Having only known Mr. Requa for over a year or so, Director Duarte stated that whenever he had a question about the operations and construction related matters, Mr. Requa always understood him and he greatly appreciated him. Director Duarte said he, too, will miss Mr. Requa.

President Benson adjourned the meeting at 6:27 p.m. in support and in honor of District Engineer/Assistant General Manager Dave Requa.

**Dublin San Ramon Services District
Summary & Recommendation**

Reference Financial Services Manager	Type of Action Approve Amendment	Board Meeting of November 5, 2013			
Subject Approve First Amendment to Agreement for Treasurer Services by and between Livermore-Amador Valley Water Management Agency (LAVWMA) and Dublin San Ramon Services District					
<input type="checkbox"/> Motion	<input type="checkbox"/> Minute Order	<input checked="" type="checkbox"/> Resolution			
REPORT:	<input type="checkbox"/> Verbal	<input type="checkbox"/> Presentation	<input checked="" type="checkbox"/> Staff	J. Archer	<input type="checkbox"/> Board Member

Recommendation:

The Financial Services Manager recommends that the Board of Directors approve, by Resolution, the First Amendment to the Agreement with LAVWMA for Treasurer and Accounting Services designating John Archer as the LAVWMA Treasurer-Auditor and authorize the General Manager to execute the amendment.

Summary:

On June 23, 2011 the District entered into an Agreement with LAVWMA to provide the Treasurer-Auditor function for LAVWMA. The Agreement named Lori Rose as the LAVWMA Treasurer. Ms. Rose has recently retired from the District and John Archer is the District's Interim Financial Services Manager. In accordance with Section 2.B of the Agreement, the District has requested that John Archer replace Lori Rose as the Treasurer-Auditor. On October 16, 2013 the LAVWMA Board of Directors designated John Archer as the Treasurer of LAVWMA and approved the First Amendment of the Agreement for Treasurer Services.

The remaining terms of the Agreement remain unchanged.

The Treasurer function will include keeping the LAVWMA accounting records up to date, providing accounting reports as needed and generally acting on behalf of LAVWMA for any financial matters.

The District will bill accounting staff time at standard billing rates. The Agreement has a "not to exceed" amount of \$30,000 per year (payable by LAVWMA to DSRSD).

RESOLUTION NO. _____

RESOLUTION OF THE BOARD OF DIRECTORS OF DUBLIN SAN RAMON SERVICES DISTRICT APPROVING AND AUTHORIZING EXECUTION OF THE FIRST AMENDMENT TO THE AGREEMENT FOR TREASURER SERVICES BY AND BETWEEN THE LIVERMORE-AMADOR VALLEY WATER MANAGEMENT AGENCY (LAVWMA) AND DUBLIN SAN RAMON SERVICES DISTRICT

WHEREAS, Livermore-Amador Valley Water Management Agency (LAVWMA) is a joint powers agency comprised of the Cities of Livermore and Pleasanton and the Dublin San Ramon Services District (DSRSD) (Member Agencies); and

WHEREAS, the Member Agencies are parties to that certain Amended and Restated Joint Exercise of Powers Agreement for the Livermore-Amador Valley Water Management Agency dated July 21, 1997 (JPA); and

WHEREAS, Paragraph 10.4 of the JPA provides that the LAVWMA Board shall designate a treasurer and auditor; and

WHEREAS, LAVWMA previously designated Lori Rose as LAVWMA's treasurer pursuant to the authority in Paragraph 10.1 of the JPA; and

WHEREAS, the terms of Lori Rose's service as LAVWMA's treasurer were specified in that Agreement for Treasurer Services between LAVWMA and DSRSD dated June 23, 2011; and

WHEREAS, Lori Rose has announced her retirement and the parties wish to designate John Archer an employee of DSRSD who possesses the requisite expertise as Lori Rose's replacement; and

WHEREAS, the LAVWMA and DSRSD now desire to enter into the First Amendment of the Agreement for Treasurer Services and to refer to John Archer as Treasurer.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF DUBLIN SAN RAMON SERVICES DISTRICT, a public agency located in the Counties of Alameda and Contra Costa, California, as follows:

That certain First Amendment to the Agreement for Treasurer Services by and between LAVWMA and DSRSD, which is attached as "Exhibit A" and incorporated by this reference, is hereby approved, and

Be it further resolved that the General Manager is hereby authorized and directed to execute said amendment for and on behalf of Dublin San Ramon Services District.

Res. No. _____

ADOPTED by the Board of Directors of Dublin San Ramon Services District, a public agency in the State of California, Counties of Alameda and Contra Costa, at its regular meeting held on the 5th day of November 2013, and passed by the following vote:

**FIRST AMENDMENT TO THE
AGREEMENT FOR TREASURER SERVICES**

THIS FIRST AMENDMENT TO THE AGREEMENT FOR TREASURER SERVICES ("First Amendment") is entered into and effective as of the _____ day of _____, 2013 by and between the LIVERMORE-AMADOR VALLEY WATER MANAGEMENT AGENCY ("LAVWMA") and DUBLIN SAN RAMON SERVICES DISTRICT ("DSRSD").

RECITALS

WHEREAS, LAVWMA is a joint powers agency comprised of the Cities of Livermore and Pleasanton and the Dublin San Ramon Services District ("Member Agencies");

WHEREAS, the Member Agencies are parties to that certain Amended and Restated Joint Exercise of Powers Agreement for the Livermore-Amador Valley Water Management Agency dated July 21, 1997 ("JPA");

WHEREAS, Paragraph 10.1 of the JPA provides that (a) any consultant or employee of LAVWMA may also be a consultant or employee of any of the Member Agencies, (b) if any officer, agent, or employee of a Member Agency performs services for LAVWMA, the manner of reimbursing the Member Agency for such services shall be governed by contract, and (c) the appointment by LAVWMA of an employee of a Member Agency to perform services for LAVWMA shall be sufficient evidence that the two positions are compatible;

WHEREAS, Paragraph 10.4 of the JPA provides that the LAVWMA Board shall designate a treasurer;

WHEREAS, LAVWMA and DSRSD entered into an Agreement for Treasurer Services dated June 23, 2011 ("Original Agreement") to retain Lori Rose, an employee of DSRSD, to serve as its Treasurer; and

WHEREAS, Lori Rose has announced her retirement and, as a result, the Parties wish to amend the Agreement for Treasurer Services to designate a John Archer, an employee of DSRSD, as Lori Rose's replacement ("Treasurer");

WHEREAS, DSRSD, warrants to LAVWMA that Treasurer is skilled and able to provide the services described in Section 3 of the Original Agreement.

AGREEMENT

NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH HEREIN, THE PARTIES HERETO AGREE AS FOLLOWS:

1. Incorporation of Recitals. The recitals set forth above, and all defined terms set forth in such recitals and in the introductory paragraph preceding the recitals, are hereby incorporated into this Agreement as if set forth herein in full.

2. Amendment to Original Agreement. Section 2(B) of the Original Agreement is amended to read as follows:

"B. DSRSD shall assign John Archer to act as Treasurer to LAVWMA. DSRSD shall not change its assigned representative without the prior written consent of LAVWMA, and such consent shall not unreasonably be withheld. Notwithstanding the foregoing, LAVWMA hereby consents to having portions of the Services provided by DSRSD employees who perform similar services in connection with financial services being performed for DSRSD, subject to such limitations and reporting requirements as apply to their respective duties at DSRSD."

3. Agreement in Effect. Except as expressly set forth in this First Amendment, the Agreement is otherwise unmodified and shall remain in full force and effect and is incorporated and restated herein as if set forth at length. Each reference in the Agreement to itself shall be deemed to also refer to this First Amendment.

4. Counterpart Signatures. This First Amendment may be signed in multiple counterparts which, when signed by all parties, shall constitute a binding agreement.

IN WITNESS WHEREOF, LAVWMA and DSRSD have executed this Agreement as of the date first above written.

Summary & Recommendation**

Reference Principal Engineer - Supervisory	Type of Action Approve Budget Adjustment	Board Meeting of November 5, 2013			
Subject DAFT Rehabilitation (CIP 06-3103): Approve Capital Improvement Program Budget Adjustment					
<input type="checkbox"/> Motion	<input type="checkbox"/> Minute Order	<input checked="" type="checkbox"/> Resolution			
REPORT:	<input type="checkbox"/> Verbal	<input type="checkbox"/> Presentation	<input checked="" type="checkbox"/> Staff	R. Biagtan	<input type="checkbox"/> Board Member

Recommendation:

The Principal Engineer - Supervisory recommends the Board of Directors approve, by Resolution, a budget adjustment to the Capital Improvement Program Two-Year Budget for Fiscal Years Ending 2014 and 2015 to increase DAFT Rehabilitation (CIP 06-3103) by \$57,500 from \$1,617,084 to \$1,674,584.

Summary:

As in many retrofit projects, many unforeseen issues arise during construction. The DAFT Rehabilitation Project is no exception. Some of the unforeseen issues in the Project included center column modifications, effluent outfall box rehabilitation, and specialty inspections for welding, concrete, and coating repairs.

The center column was the only piece of the DAFT mechanism that was reused. During construction, it was noticed that the gussets at the top of the column were corroding and needed to be repaired to withstand the load of the new bigger heavier drive mechanism. Also, pitting in the metal was discovered at the bottom of the column. Six stiffeners were welded onto the bottom section of the center column to again strengthen the column. In addition, the concrete on the effluent outfall box was failing. Patches of deteriorated concrete were falling off from the sidewalls of the effluent outfall box exposing the rebar underneath. The effluent outfall box was repaired and recoated. These modifications and repairs required additional specialty inspections for welding, concrete repair, and re-coating, which altogether went above original budget.

The entire DAFT is covered to control odors. Equipment and process viewing is provided through access hatches. The construction contract included five hatches, matching the original design; however, staff requested additional hatches be added to improve observation of the mechanism.

Lastly, per National Fire Protection Association (NFPA) 820 requirements, the entire space inside the DAFT building requires explosion proof equipment. The new equipment meets the requirements but the existing lighting and conduits are not classified as explosion proof, and must be replaced to be in compliance. This budget adjustment includes the cost of the replacement equipment. To keep costs down, the equipment will be installed by staff.

Staff recommends approval of a budget adjustment for the DAFT Rehabilitation Project (CIP 06-3103) by \$57,500 from \$1,617,084 to \$1,674,584. The project is funded 100% by Regional Sewer Replacement (Fund 310) funds and there is adequate funding available for this project. At this time, a fund limit adjustment is not requested; however, depending on timing of other projects, a fund limit adjustment may be requested at a later date.

RESOLUTION NO. _____

RESOLUTION OF THE BOARD OF DIRECTORS OF DUBLIN SAN RAMON SERVICES DISTRICT APPROVING A BUDGET ADJUSTMENT TO THE CAPITAL IMPROVEMENT PROGRAM TWO-YEAR BUDGET FOR FISCAL YEARS ENDING 2014 AND 2015

WHEREAS, the Board of Directors accepted the District's Capital Improvement Program (CIP) 10-Year Plan for Fiscal Years Ending 2014 through 2023 (CIP 10-Year Plan) on February 19, 2013 to serve as a budgetary planning document providing direction and guidance, in accordance with District policies, for the replacement and improvement of existing District facilities and the construction of new facilities; and

WHEREAS, the Board of Directors adopted the current CIP Two-Year Budget for Fiscal Years Ending 2014 and 2015 (CIP 2-Year Budget) on June 4, 2013 authorizing Capital Projects for FYE 2014 and 2015 to meet the District's capital infrastructure needs; and

WHEREAS, the District desires to make adjustments for the DAFT Rehabilitation (CIP 06-3103) project budget necessary to complete the project.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF DUBLIN SAN RAMON SERVICES DISTRICT, a public agency located in the counties of Alameda and Contra Costa as follows:

1. Increase of budget for the DAFT Rehabilitation Project (CIP 06-3103) by \$57,500 from \$1,617,084 to \$1,674,584 (Exhibit "A") is approved and incorporated into the CIP Two-Year Budget for Fiscal Years Ending 2014 and 2015.

Res. No. _____

ADOPTED by the Board of Directors of Dublin San Ramon Services District, a public agency in the State of California, counties of Alameda and Contra Costa, at its regular meeting held on the 5th day of November 2013, and passed by the following vote:

AYES:

<i>CIP Budget FYEs 14 and 15</i>	<i>DAFT Rehabilitation</i>		
<i>Closing in FYE 2014</i>	<i>CIP #: 06-3103</i>		
Project Manager: Rudy Portugal		Project Sponsor: Dan Lopez	

PURPOSE AND DESCRIPTION

Dissolved air flotation thickener (DAFT) improvements were intended to be done during the Stage 4 Improvements project but were deleted from the scope of that project. The unit is over 30 years old and is beyond its useful life. Some temporary improvements have been made to the DAFT system, which need to be made permanent. Eight of the 16 DAFT skimmer arm assemblies have broken and been temporarily welded. This project will replace the DAFT skimmer arm assemblies and replace the Thickened Sludge (THS) pump piping to improve the removal of settled solids. The project is currently under construction and all major work should be complete by Spring 2013.

IMPACT ANALYSIS

Operating Impact: Provides operational reliability.
 Environmental: Negative Declaration approved 8/17/95.
 Public Info.: Include in report to Neighborhood Improvement Committee.
 Scheduling: Substantially complete by Spring 2013; keep open in FYE 2014 for warranty period
 Permits: None.
 Reference: Stage 4 Improvements project (CIP 98CH140).
 Strategic Plan Element Goal 3.2.3.1 Reduce odor at WWTP; Goal 2.3 Implement key capital improvement projects.

Recommendation:

The General Manager recommends that the Board of Directors accept, by Motion, the attached upcoming Board calendar.

Summary:

The attached Board calendar presents items anticipated by staff to be presented to the Board at the next two Board meetings. This report represents the most current information available to staff as of the preparation of this agenda. Items that are listed may be deferred or eliminated for various reasons including but not limited to staff work not being fully complete, the need for further management, Committee and/or legal review, needed material or information not being received by the District in a timely fashion, etc. Furthermore, matters not listed may be placed on the Board agenda.

This report should be used only as a general guide of what business the District Board will be considering in the near future. The District Secretary should be contacted to confirm the contents of specific agendas. Agendas will be finalized in accordance with the requirements of the Brown Act (generally 72 hours for regular meetings and 24 hours for special meetings).

Recommendation:

The General Manager recommends the Board of Directors waive, by Motion, the first reading of an Ordinance incorporating provisions for eliminating expiration of and vesting of water and wastewater capacity rights into the District Code and making water and wastewater capacity reserve fees generally due and payable at time of building permit issuance where applicable.

Summary:

This is the first of two readings for the proposed revisions to select sections of Title 3 of the District Code and the second step to address issues pertaining to expiring capacity rights. To mitigate adverse impact to the economic recovery in our service area and ensure that the District collects the appropriate fee associated with capacity rights, the Board of Directors adopted Resolution No. 41-13 on October 1, 2013. As part of that resolution, staff was directed to develop and propose revisions to the District Code to make water and wastewater capacity reserve fees generally due and payable at time of building permit issuance where applicable.

Current District Code Section 3.60.020.A states that the certificate of capacity rights and associated capacity rights expire three years after their issuance unless a connection has been made or a building permit is obtained. District Code Section 3.70.050 states that capacity reserve fees paid for the capacity rights are forfeited in their entirety upon expiration of the certificate of capacity rights. The intent of these sections was to avoid the ability of any one group of builders to hoard capacity rights, thereby limiting others' ability to build, particularly in cases when capacities are limited. It also allowed the District to collect the appropriate fee associated with the capacity rights at or near the time of connection to District facilities. Based on existing language in the District Code, once the capacity rights expire, the fees are forfeited. Should the builder wish to move forward with their projects, staff would need to collect full capacity reserve fees at fees in effect at time of connection. At today's fees, the total fees to be collected would exceed \$10 million.

Included as Attachment 1 is the original language of pertinent sections of the District Code with markups of the proposed revisions shown. The proposed revisions eliminate the expiration of capacity rights and the payment of water and wastewater capacity reserve fees at the time a District construction permit is issued. Instead, the fee will be payable at the time of building permit issuance or meter set if a building permit is not required. However, if the capacity is not utilized within three years of purchase (i.e. if the building permit lapses), a capacity reserve fee payment in the amount of the difference in capacity reserve fees at the original time of payment and at the time of connection or building permit issuance will be due. This approach will make for smaller but more frequent fee payments. Overall, while cash flow will be spread out, total revenue will be increased.

The proposed revisions also allow the Board to set priorities for allocating capacity rights and vesting of capacity rights, which is particularly important when capacity rights are limited. If the Board does not set criteria, capacity rights would be vested on a first-come/first-serve basis, allowing builders who are ready to proceed with their projects to move forward.

Active development project applicants have been notified of these proposed revisions to the District Code.

ORDINANCE NO. ____

**ORDINANCE OF DUBLIN SAN RAMON SERVICES DISTRICT MODIFYING
SECTIONS 3.10.010, 3.20.030, 3.50.020, 3.60.010, 3.60.020, 3.60.030, 3.60.090,
3.70.010, 3.70.050 and 3.70.080 OF ITS DISTRICT ORDINANCE CODE TO
ELIMINATE EXPIRATION, AND TO PROVIDE FOR VESTING, OF WATER
AND WASTEWATER CAPACITY RIGHTS**

WHEREAS, the District Ordinance Code was recodified on November 2, 2010 in its entirety; and

WHEREAS, Section 3.20.030 of the District Ordinance Code provides that water and wastewater capacity are available prior to connection and priority for capacity allocation shall be made at the discretion of the Board; and

WHEREAS, Chapters 3.60 and 3.70 of the District Ordinance Code, respectively, include provisions for allocating water and wastewater service capacity and payment of capacity reserve fees for such capacity; and

WHEREAS, Section 3.60.020 of the District Ordinance Code currently provides that the water and wastewater capacity right shall expire, and Section 3.70.050 of the Code provides the fees paid therefore shall be forfeited, if no connection is made or building permit issued within three years of purchase; and

WHEREAS, one of the primary purposes of Sections 3.60.020 and 3.70.050 of the District Ordinance Code is to protect the District from the speculative purchase and/or hoarding of unused water and wastewater capacities by purchasers in times when available capacity is limited; and

WHEREAS, on October 1, 2013 the Board adopted Resolution No. 41-13 to implement a revised Economic Stimulus Water Capacity Rights Extension Program for capacity rights purchased prior to January 1, 2014, and extending the duration of capacity rights currently in existence; and

WHEREAS, Resolution No. 41-13 directs the General Manager to develop and propose revisions to the District Code to make Water and Wastewater Capacity Reserve Fees generally due and payable at time of building permit issuance where applicable; and

WHEREAS, the Board wishes to eliminate the automatic expiration of capacity rights, but maintain the primary purpose of Section 3.60.020 through other means, and to provide for the collection of capacity fees closer to the actual time of connection; and

WHEREAS, pursuant to Sections 25128 and 61060 of the Government Code, three (3) copies of the proposed revised Sections 3.10.010, 3.20.030, 3.50.020, 3.60.010, 3.60.020, 3.60.030, 3.60.090, 3.70.010, 3.70.050 and 3.70.080 of the District Ordinance Code have been on file in the office of the District Secretary since October 28, 2013 and available for use and examination by the public during regular business hours.

NOW, THEREFORE, BE IT ORDAINED by the Board of Directors of Dublin San Ramon Services District as follows:

SECTION 1. Section 3.10.010 of the District Ordinance Code, titled “Definitions,” is hereby repealed and replaced by the new Section 3.10.010, titled “Definitions,” in the form in which each appears in Exhibit 1. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.10.010 is substantially the same as the previous version of Section 3.10.010, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 2. Section 3.20.030 of the District Ordinance Code, titled “Requirement of capacity—Priorities for capacity allocation,” is hereby repealed and replaced by the new Section 3.20.030, titled “Requirement of capacity—Priorities for capacity allocation,” in the form in which each appears in Exhibit 2. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.20.030 is substantially the same as the previous version of Section 3.20.030, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 3. Section 3.50.020 of the District Ordinance Code, titled “Issuance of construction permit,” is hereby repealed and replaced by the new Section 3.50.020, titled “Issuance of construction permit,” in the form in which each appears in Exhibit 3. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.50.020 is substantially the same as the previous version of Section 3.50.020, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 4. Section 3.60.010 of the District Ordinance Code, titled “Capacity rights allocation – Issuance of certificate of capacity rights,” is hereby repealed and replaced by the new Section 3.60.010, titled “Capacity rights allocation – Issuance of certificate of capacity rights,” in the form in which each appears in Exhibit 4. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.60.010 is substantially the same as the previous version of Section 3.60.010, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 5. Section 3.60.020 of the District Ordinance Code, titled “Expiration of certificate of capacity rights,” is hereby repealed and replaced by the new Section 3.60.020, titled “Vesting of certificate of capacity rights,” in the form in which each appears in Exhibit 5. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.60.020 is substantially the same as the previous version of Section 3.60.020, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 6. Section 3.60.030 of the District Ordinance Code, titled “Reserved,” is hereby repealed and replaced by the new Section 3.60.030, titled “Limitations on vesting of certificate of capacity rights,” in the form in which it appears in Exhibit 6.

SECTION 7. Section 3.60.090 of the District Ordinance Code, titled “Priority for certain governmental connections,” is hereby repealed and replaced by the new Section 3.60.090, titled “Priority for certain governmental connections,” in the form in which each appears in Exhibit 7. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.60.090 is substantially the same as the previous version of Section

Ord. No. ____

3.60.090, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 8. Section 3.70.010 of the District Ordinance Code, titled “Capacity reserve fee,” is hereby repealed and replaced by the new Section 3.70.010, titled “Capacity reserve fee,” in the form in which each appears in Exhibit 8. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.70.010 is substantially the same as the previous version of Section 3.70.010, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 9. Section 3.70.050 of the District Ordinance Code, titled “Partial refund of capacity reserve fees,” is hereby repealed and replaced by the new Section 3.70.050, titled “Partial refund of capacity reserve fees,” in the form in which each appears in Exhibit 9. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.70.050 is substantially the same as the previous version of Section 3.70.050, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 10. Section 3.70.080 of the District Ordinance Code, titled “Time of Payment,” is hereby repealed and replaced by the new Section 3.70.080, titled “Time of Payment,” in the form in which each appears in Exhibit 10. Notwithstanding the preceding sentence, wherever a provision of the new Section 3.70.080 is substantially the same as the previous version of Section 3.70.080, the provision shall be deemed to be a continuation of the previous version of the provision and not a new enactment.

SECTION 11. The General Manager, or the person or persons to whom such task may from time to time be delegated, is authorized and directed to make further non-substantive administrative changes, as approved by District General Counsel, to the revised Sections 3.10.010, 3.20.030, 3.50.020, 3.60.010, 3.60.020, 3.60.030, 3.60.090, 3.70.010, 3.70.050 and 3.70.080 of District Ordinance Code as set forth in Exhibits 1 through 10 (including revisions in formatting as may be suggested by the publisher) for consistency and ease of reference from the date of adoption until February 28, 2014.

SECTION 12. In the event that any section, sub-section, sentence, clause or phrase of this Ordinance, or the amendments to the District Ordinance Code enacted hereby, shall be adjudged or declared unconstitutional, illegal, and/or invalid by a court of competent jurisdiction, all other sections, sub-sections, sentences, clauses, or phrases hereof not so adjudged or declared shall remain in full force and effect.

SECTION 13. This Ordinance will be effective January 1, 2014.

Ord. No. ____

ADOPTED by the Board of Directors of Dublin San Ramon Services District at its regular meeting held on the 19th day of November 2013, by the following vote:

AYES:

NOES:

ABSENT:

Dawn L. Benson, President

ATTEST:

Nancy G. Hatfield, District Secretary

H:\Board\11-05-13\Code Revision-Capacity Rights 1st Reading\Ordinance-Revisions to Title 3 R.docx

EXHIBIT 1. PROPOSED SECTION 3.10.010

3.10.010 Definitions.

In the construction of this title, the general definitions set forth in DSRSDC 1.20.080, Definitions, shall apply except where contrary definitions are set forth in this title or as otherwise stated in DSRSDC 1.20.080, Definitions. The following definitions shall apply to this title, unless such definitions would be inconsistent with the manifest intent of the Board or the context clearly requires otherwise.

“Approved plans” means plans approved by the District Engineer.

“Building permit” means a permit or other official document, or certificate or permit issued by the City or County having jurisdiction which authorizes the construction of a building or other structure that will receive water or wastewater service from the District. “Building permit” also means a permit or other official document, or certificate or permit issued by the City or County having jurisdiction which authorizes modifications to or within an existing building or structure to facilitate an intensification of use that will require additional water or wastewater service capacity rights from the District in accordance with Section 3.60.050. Any other permit, regardless of what it is called by the City or County issuing it, including a permit issued for the installation of Plumbing, Mechanical, Electrical, Retaining Walls or Site Work is not a Building Permit for purposes of this Title.

“Final improvement plan” means plans prepared by a California-registered civil engineer, which consist of (1) a final plan showing the boundaries of the area for which service is requested, (2) a plot plan showing the location and sizes of all potable water, recycled water, and sewer lines to be constructed and the number, size and location of dwelling units or commercial, institutional, or industrial structures to be served by the District in sufficient detail to allow the District Engineer to determine the size and number of water meters and/or the maximum amount of wastewater capacity required by the intended use of the parcel, (3) construction drawings in accordance with the standard procedures, specifications and drawings of the District, and (4) such other information which may be required by the District Engineer.

“High Strength Dischargers/Users” means any of the following wastewater categories encompassing high strength institutional, intermediate industrial and commercial uses:

1. Bakery. Primarily engaged in baking of products which may include breads, cakes, pastries, cookies, doughnuts, bagels, biscuits, rolls or other related confections.
2. Car Wash with Steam Cleaning. Primarily engaged in mechanical and hydraulic washing, rinsing, cleaning and drying of mobile equipment including steam cleaning. May be performed by on-site personnel or coin-operated public devices.

3. Fast Food Restaurant. Primarily engaged in cooking and serving of food utilizing disposable serving products (i.e., styrofoam, plastic or paper). May perform limited baking activities relative to foods which are served with the meal and are generally not sold separately.
4. Full Service Restaurant, Cafeteria and Banquet Facilities. Primarily engaged in cooking and serving of meals utilizing flatware, silverware, glasses, dishwashing and limited baking activities for on-site use.
5. Market. Primarily engaged in selling of goods and food products that are not dry goods, where food products are prepared on site.
6. Mortuary. Primarily engaged in handling and storing of the dead until burial.
7. Other uses as determined by the District Engineer.

"Recycled water use license" means a license issued by the District to the customer, which outlines monitoring, self-inspection, reporting, and site-specific requirements. This license is required by the California Regional Water Quality Control Board. This license allows the customer to use recycled water in accordance with District standards, codes, ordinances, policies, and guidelines and all applicable regulatory agency requirements.

"Recycled Water Use Guidelines" means the Recycled Water Use Guidelines and Requirements prepared, maintained and updated from time to time by the District Engineer to implement the rules and regulations in this code, and other regulatory agencies, including the California Department of Public Health, the San Francisco Bay Regional Water Quality Control Board, and County Environmental Management Department. The Recycled Water Use Guidelines establish requirements and standards for the planning, design, construction, operation, maintenance, and use of public recycled water systems and customer-owned recycled water systems.

"Regular strength, nonresidential user" means a user primarily engaged in activities including, but not limited to, gas stations, hotels, private office complexes, schools, retail and wholesale stores, bars, etc. (all excluding dining facilities), and who introduces wastewater that is determined by the District Engineer to consist primarily of sewage into the District's wastewater facilities. Classification includes all users not defined in another classification.

"Residential user" means a resident of a single- or multiple-family dwelling receiving District services at his or her place of residence. "Residential unit" means one unit in any of the classes of residences that are generally defined in subsections (1) through (4) of this definition, and the District Engineer shall have discretion to determine which class is applicable to a particular residential user or unit where that user or unit shares some characteristics of more than one class. In the absence of a determination to the contrary, each residential user shall be deemed to be residing in a single-family dwelling unit (or residence).

1. **“Multifamily residence”** (or **“multiple-family residence”**) means a residential unit (other than a second dwelling unit) attached to one or more other residential units, with one or more adjacent common areas irrigated through a separate irrigation water meter. This includes apartments, condominiums, and townhomes as further described in subsections (1)(a) through (1)(c) of this definition. Neither a single-family dwelling nor a second dwelling unit is a multifamily residence.
 - a. **“Apartment”** means a multifamily residence that is owned in common with one or more other apartments, along with the underlying land and one or more adjacent common areas. Apartments are intended to be rented to a tenant or other occupant.
 - b. **“Condominium”** means a multifamily residence that is individually owned, where the underlying land and one or more adjacent common areas are under common ownership.
 - c. **“Townhome”** means a multifamily residence that is individually owned along with the underlying land, but adjacent to common areas under separate or common ownership.
2. **“Second dwelling unit”** means a residential unit, no larger than the maximum size authorized for such use by the local agency with land use authority, with a separate entrance, kitchen, sleeping, and bathroom facilities, which receives water service through the same water meter as, and which is located on the same individual parcel of land with the same numerical street address as the single-family dwelling unit, but which is smaller than (or otherwise subservient to) the single-family dwelling unit, that serves as the principal residence on the parcel of land.
3. **“Single-family dwelling unit (or residence)”** means a residential unit located on its own individual parcel of land (with or without a second dwelling unit) and designed to house one family and which is not attached to another dwelling (other than a second dwelling unit).
 - a. Single-family dwelling unit (or residence) includes each mobile home located on its own individual parcel of land and not in a mobile home park.
 - b. Single-family dwelling unit (or residence) also includes each residential dwelling unit attached to one or more other residential units where each unit is located on its own individual parcel of land, but without an adjacent common area irrigated through a separate irrigation water meter.
4. Notwithstanding the foregoing, each mobile home located in a mobile home park is also defined as a multifamily residence, subject to the District Engineer’s discretion to determine that another class is more appropriate.

“**Significant industrial user**” means a significant industrial user defined in 40 CFR Section 403.3(v) as:

1. Any categorical industrial user; or

2. Any other industrial user that:

- a. Discharges 25,000 gallons or more per day of process wastewater to the District's treatment works (excluding sanitary, noncontact cooling and boiler blow-down water);
- b. Contributes a process waste stream which comprises five percent or more of the average dry weather hydraulic or organic capacity of the District's treatment plant; or
- c. Is designated as such by the District based on a finding that the industrial user's activities or operations have a reasonable potential for adversely affecting the operation of the District's treatment works or for violating any categorical pretreatment standard, national pretreatment standard or pretreatment standard or requirement (in accordance with 40 CFR Section 403.8(f)(6)).

"Standard Specifications" means the Standard Procedures, Specifications and Drawings for Design and Installation of Potable Water, Recycled Water, and Wastewater Facilities prepared, maintained and updated from time to time by the District Engineer to implement the rules and regulations in this code, and to establish requirements and standards for the planning, design, construction, operation, and maintenance of public potable and recycled water systems and wastewater systems, and customer-owned recycled water systems.

"Subscribing agency" means a public agency that contributes wastewater from its wastewater collection system to a wastewater system operated by the District. [Ord. 327, 2010; Ord. ___, 2013.]

EXHIBIT 2. PROPOSED SECTION 3.20.020

3.20.030 Requirement of capacity – Priorities for capacity allocation.

Notwithstanding any provision of this code to the contrary, no connection for any service provided by the District shall be made at any time the Board has determined that capacity is available in its water system, its wastewater system, or both, or that such capacity will not be available at the time of vesting of capacity rights in accordance with Section 3.60.020. Priorities for allocation of available capacity rights shall be made from time to time based on the public health, welfare, safety, necessity and convenience at the discretion of the Board. [Ord. 157, 1980; Ord. 216, 1988; Ord. 273, 1997; Ord. 327, 2010; Ord. ___, 2013.]

EXHIBIT 3. PROPOSED SECTION 3.50.020

3.50.020 Issuance of construction permit.

A construction permit may be issued only after all of the following actions have been completed:

- A. The applicant has filed a complete application for service in compliance with Chapter [3.40](#) DSRSDC, Application for Services;
- B. The applicant is in possession of a final improvement plan approved in writing by the District Engineer;
- C. All fees and charges required by or pursuant to Chapter [3.70](#) DSRSDC, Fees and Charges, have been paid, except that capacity reserve fees pursuant to Sections 3.70.010 through 3.70.030, shall be paid later in accordance with Section 3.70.080. Fees paid shall be in the amount of the fees in effect at time of payment, as the time of payment is described in DSRSDC [3.70.080](#), Time of payment;
- D. A copy of the approved final map, parcel map or master map has been filed with the District;
- E. Submission of proof of liability insurance in an amount set by the District on a form satisfactory to the District Engineer, naming the District as an additional insured by policy endorsement. Proof of liability insurance shall be accompanied by a statement of endorsement from the insuring firm;
- F. Submission of bonds and securities in compliance with DSRSDC [3.50.030](#), Bonds and other security;
- G. Where off-site easements are required for facilities to be dedicated to the District, submission of irrevocable offers of dedication in recordable form (with notary acknowledgments), duly executed by the record owner of fee title, and current preliminary title reports, all in a form approved by the District, for each of the properties on which the off-site facilities are located;
- H. Where on-site easements are required for facilities to be dedicated to the District and easements are not dedicated on final map or parcel map, submission of irrevocable offers of dedication in recordable form (with notary acknowledgments), duly executed by the record owner of fee title, and current preliminary title reports, all in a form approved by the District, for each of the properties on which the on-site facilities are located;
- I. In lieu of an offer of dedication as described in either of subsections (H) and (I) of this section, an applicant may submit, and the District may accept, deeds or grants of easement in recordable form (with notary acknowledgments), duly executed by the record owner of fee title, and current preliminary title reports, all in a form approved by the District, for each of the properties on which the facilities are located; and
- J. Submission of such other relevant information that may be required by the District Engineer.

K. Notwithstanding anything to the contrary, issuance of a construction permit after December 2, 2010 shall not be deemed to be a certificate of capacity rights of any kind, nor shall it be deemed to imply or otherwise give rise to an entitlement of any kind to a capacity rights allocation, or any reasonable expectation thereof, for the recipient of such construction permit. [Ord. 69, 1969; Ord. 90, 1971; Ord. 118, 1975; Ord. 212, 1987; Ord. 273, 1997; Ord. 327, 2010.]

EXHIBIT 4. PROPOSED SECTION 3.60.010

3.60.010 Capacity rights allocation – Issuance of certificate of capacity rights.

Prior to connection to District facilities, applicants shall obtain from the District sufficient water and/or wastewater capacity rights, as determined by the District Engineer, for the property upon which they have proposed a development. Capacity rights provide the property the conditional right to obtain service from and use of the District's water and wastewater systems. Allocation of capacity for water and/or wastewater service to a property shall be issued through a certificate of capacity rights, which shall remain conditional until such time, if ever, it vests in accordance with DSRSDC 3.60.020, Vesting of certificate of capacity rights. No certificate of capacity rights shall be issued until the applicant has paid capacity reserve fees (formerly known as connection fees) and the District Engineer has approved the application therefor in accordance with Chapter [3.40](#) DSRSDC, Application for Services. Unless the Board has determined that sufficient capacity is not available to allow additional connections to its water system, its wastewater system, or both, a certificate of capacity rights shall issue as of the date of payment of the capacity reserve fees.

A certificate of capacity rights, if required for a development, shall be obtained by the applicant within thirty (30) calendar days prior to issuance of a building permit, if a building permit is required by the City or County having jurisdiction, or within 30 calendar days prior to installation of a water meter, if a building permit is not required by the City or County having jurisdiction. , or, if neither a building permit nor a water meter is required, within 30 calendar days prior to an application for service submitted pursuant to Section 3.40.030. For an application for service submitted pursuant to Section 3.40.040, the certificate of capacity rights shall be obtained within 30 calendar days prior to the first use of the additional capacity required as a result of the expansion of any building or structure, or of the intensification of use, or of the initiating of service to a new building or structure not subject to the provisions of Section 3.40.030.

The quantity of capacity right allocation required for a development or property shall be determined by the District Engineer. If the Board has determined that sufficient capacity is not available to allow additional connections to its water system, its wastewater system or both, the District may deny such connections notwithstanding the issuance of certificates of capacity rights.

A sewer permit issued to an applicant prior to December 2, 2010, shall be deemed to be a certificate of capacity rights for sewer capacity, and shall be subject to all of the provisions of this chapter. However, issuance of a construction permit after December 2, 2010 shall not be deemed to be a certificate of capacity rights of any kind, nor shall it be deemed to imply or otherwise give rise to an entitlement of any kind to a capacity rights allocation, or any reasonable expectation thereof, for the recipient of such construction permit.

The District reserves the right to make additional changes to capacity rights allocation and charge associated fees for existing water and wastewater service connections to the District's systems, for which certificates of capacity rights have been previously issued, if significant changes in service demands,

within the area served by the District or within a specified portion thereof in which the connection is located, makes the additional changes necessary.

A. Water. Unless otherwise determined by the District Engineer, capacity rights to service from and use of the District's potable water and recycled water distribution systems shall be a multiple representing the approximate ratio between the maximum rate of continuous flow through the water meter(s) required on a property and the maximum rate of continuous flow through a 5/8-inch water meter, which shall be the unit of measurement.

B. Wastewater. Capacity rights to service from and use of the District's regional wastewater treatment plant shall be determined by the District Engineer based on the average daily flow, BOD, and SS of the proposed or actual discharge into the wastewater system within the area served by the District, or a specified portion thereof, as estimated by the District Engineer. Capacity rights to service from and use of the District's local wastewater collection system shall be determined by the District Engineer based on the average daily flow of the property's discharge into the wastewater system within the area served by the District, or a specified portion thereof, as estimated by the District Engineer.

1. Nonresidential Users. For nonresidential users, if, in the discretion of the District Engineer, no wastewater flow information can be provided by the applicant, the initial determination of the capacity rights shall be based on the average daily flow, BOD, and SS discharged into the wastewater system by all uses of the same category or use classification as the proposed use, as estimated by the District Engineer in accordance with DSRSDC [3.30.010\(C\)](#), Wastewater Capacity Demand Estimates. The appropriate category or use classification for this determination shall be selected by the District Engineer in his or her sole discretion.

The District Engineer may, using appropriate means within the sole and absolute discretion of the District, review capacity rights for nonresidential users upon request submitted either pursuant to DSRSDC [3.60.060](#), Adjustment to allocated capacity – Modification of certificate of capacity rights, or at any time after an appropriate period as determined by the District Engineer to represent normalized wastewater usage based upon any additional information that becomes available about average daily flow, BOD, and SS actually being discharged into the wastewater system.

2. Residential Users. For residential users, a standard regional wastewater capacity allocation shall be used for each single-family dwelling unit equivalent based upon the average daily flow, BOD and SS discharged by all single-family dwelling units within the area served by the District or a specified portion thereof, as determined from time to time by the District Engineer. A standard local wastewater capacity allocation shall be used for each single-family dwelling unit based upon the average daily flow discharged by all single-family dwelling units within the area served by the District or a specified portion thereof, as determined from time to time by the District Engineer.

Unless otherwise determined by the District Engineer, capacity rights for second dwelling units and each class of multiple-family dwelling units to service from and use of the District's regional wastewater

treatment plant shall be a multiple representing the approximate ratio between the average daily flow, BOD and SS from said class of dwelling units within the area served by the District or a specified portion thereof, as estimated by the District Engineer, and a single-family dwelling unit equivalent. Unless otherwise determined by the District Engineer, capacity rights for second dwelling units and each class of multiple-family dwelling units to service from and use of the District's local wastewater collection system shall be a multiple representing the approximate ratio between the average daily flow from said class of dwelling units within the area served by the District or a specified portion thereof as estimated by the District Engineer, and a single-family dwelling unit equivalent. [Ord. 69, 1969; Ord. 90, 1971; Ord. 118, 1975; Ord. 147, 1979; Ord. 157, 1980; Ord. 159, 1980; Ord. 190, 1984; Ord. 216, 1988; Ord. 273, 1997; Ord. 327, 2010; Ord. ___, 2013.]

EXHIBIT 5. PROPOSED SECTION 3.60.020

3.60.020 Vesting of certificate of capacity rights.

A. The certificate of capacity rights and rights associated therewith are conditional and shall vest only after the applicant has paid all capacity reserve fees (formerly known as connection fees) in effect at the date of vesting either (1) an authorized connection has been made to District facilities, if a building permit is not required by the city or county having jurisdiction; or (2) the building permits are obtained and building structures, for which all or a substantial portion (as determined by the District Engineer) of the certificate of capacity rights is issued, are constructed and connected to District facilities,

Where a building permit is required by the city or county having jurisdiction, the certificate of capacity rights and rights associated therewith shall lapse and not be vested, if either the building permits expire before the building structures for which all or a substantial portion (as determined by the District Engineer) of the certificate of capacity rights is issued are constructed and connected to District facilities, or no building permits are obtained within 30 days after payment of the capacity reserve fees pursuant to Section 3.70.080. However, upon either the actual issuance of the building permit, or the issuance of a new building permit to replace the expired building permit, whichever is applicable, , and after the building structures for which all or a substantial portion (as determined by the District Engineer) of the certificate of capacity rights is issued are constructed and connected to District facilities, and additional capacity reserve fees are paid in accordance with Section 3.70.010.D, the certificate of capacity rights and rights associated therewith shall vest.

Notwithstanding the preceding two paragraphs, if changes have been made to the development upon which the District based its determination of capacity rights under DSRSDC [3.60.010](#), Capacity rights allocation – Issuance of certificate of capacity rights, or if changes have been made to affect the amount of capacity needed for the property upon which the development was proposed, as determined by the District Engineer, certificate of capacity rights shall be modified in accordance with DSRSDC [3.60.050](#), Additional capacity – Intensification or modification of use, or 3.60.060, Adjustment to allocated capacity – Modification of certificate of capacity rights, and appropriate fees shall be paid (or refunded, but only to the extent a refund is required under DSRSDC [3.70.050](#), Partial refund of capacity reserve fees).

Notwithstanding the foregoing, the District may, from time to time, adopt a policy by resolution establishing criteria for expiration of capacity rights based on its determination that sufficient capacity is not available in its water system, its wastewater system, or both, to meet anticipated demands, or that such capacity will not be available at the time of vesting of capacity rights in accordance with Section 3.60.020, and/or an unprecedented severe reduction in economic development.

B. Nothing in the provisions of subsection (A) of this section shall be deemed to prevent the District from exercising its discretion, or to permit the vesting of any certificate of capacity rights in a manner contrary to, or in a manner that would in any way constrain the District's discretion under, DSRSDC

3.20.030, Requirement of capacity – Priorities for capacity allocation, DSRSDC 3.20.120, Priority for affordable or low income housing developments, or DSRSDC 3.20.120, 3.60.090, Priority for certain governmental connections [Ord. 69, 1969; Ord. 118, 1975; Ord. 157, 1980; Ord. 159, 1980; Ord. 190, 1984; Ord. 216, 1988; Ord. 273, 1997; Ord. 327, 2010; Ord. ___, 2013.]

EXHIBIT 6. PROPOSED SECTION 3.60.030

3.60.030 Limitations on vesting of certificate of capacity rights.

If the Board has determined, consistent with DSRSDC 3.20.030, Requirement of capacity – Priorities for capacity allocation, DSRSDC 3.20.120, Priority for affordable or low income housing developments, or DSRSDC 3.20.120, 3.60.090, Priority for certain governmental connections, that capacity is not available for the use sought by a holder of a certificate of capacity right, the certificate of capacity rights and rights associated therewith will vest, if at all, only in accordance with subsections (A) and (B) of this Section.

A. If the Board has determined that sufficient capacity is not available in its water system, its wastewater system, or both, to meet anticipated demands, or that such capacity will not be available at the time of vesting of capacity rights in accordance with Section 3.60.020, it may specify such criteria that, in its discretion, best serve the public health, welfare, safety, necessity and convenience, for determining the sequence in which connections will be allowed. If no criteria are specified, the certificates shall vest, if at all, only upon connection to District facilities as specified in DSRSDC 3.60.020, Vesting of certificate of capacity rights.

B. Notwithstanding the foregoing, the District may decline to issue a certificate of water capacity rights and may deny a connection to its water system based on its determination that it lacks available capacity in its wastewater system. [Ord. 327, 2010; Ord. ___, 2013.]

EXHIBIT 7. PROPOSED SECTION 3.60.090

3.60.090 Priority for certain governmental connections.

Upon finding that: (A) the public health, welfare, safety, necessity and convenience require the allocation of water or wastewater connections and the related capacity rights to a governmental or quasi-governmental agency or other public institution in order to perform necessary governmental functions or services under its jurisdiction; (B) the functions or services do not include the granting of entitlements for the development or use of privately or publicly owned property for private use; (C) the agency or institution requires not less than 0.025 MGD flow capacity rights; and (D) sufficient treatment capacity exists in the District's treatment works for allocation to the agency or institution in the amount specified by the Board without impairing the rights of others under certificate of capacity rights or agreements previously issued or entered; the Board may enter into an agreement with the governing body of the agency or institution allocating certificate of capacity rights and the related capacity rights, having priority over all other pending applications and future demand in the amount as the Board, in its discretion, determines. Such an agreement shall be the exclusive method by which certificate of capacity rights and corresponding capacity rights may be allocated under this section. It shall include, but not be limited to: provisions for payment of all applicable fees and charges specified in this chapter for connection to and use of the District's wastewater facilities; that the certificates shall vest as specified in DSRSDC 3.60.020, Vesting of certificate of capacity rights, and, if DSRSDC 3.60.030, Limitations on vesting of certificate of capacity rights, is applicable, the certificates shall vest as specified therein unless otherwise specified in the agreement; the governmental use to be served by the connection(s) to the District's water and/or wastewater facilities permitted thereunder; and other terms and conditions as the District deems necessary or appropriate. Except as provided to the contrary in the agreement, all provisions of this code governing connection to and use of the District's water and wastewater facilities shall govern permits and certificates issued under the agreement. [Ord. 201, 1985; Ord. 273, 1997; Ord. 327, 2010; Ord. ___, 2013.]

EXHIBIT 8. PROPOSED SECTION 3.70.010

3.70.010 Capacity reserve fee.

A capacity reserve fee shall be assessed for each new system user, or for an existing system user who is expanding use of services, for the right to connect to and receive new or expanded service from the District's water and wastewater facilities. Said fee shall consist of the amounts determined by the District to be necessary to recover the estimated reasonable cost of providing the services taking into account an equitable portion of the costs of improvements, replacements, and expansions of the District facilities used to provide the service(s). Upon payment of capacity reserve fees, the applicant/user may obtain a certificate of capacity rights in accordance with Chapter [3.60](#) DSRSDC, Service Capacity Allocation. Modifications to capacity rights obtained herein shall be in accordance with DSRSDC [3.60.050](#), Additional capacity – Intensification or modification of use, and 3.60.060, Adjustment to allocated capacity – Modification of certificate of capacity rights.

A. Potable Water. The capacity reserve fee for connection of property to the District's potable water supply facilities shall be as established by separate ordinance or resolution duly adopted from time to time by the Board, based on the size and capacity of the water meter and the pressure zone and the county in which the water meter is to be installed; provided, that said fee for a residential unit, including but not limited to a single-family dwelling, requiring a one-inch water meter or smaller water meter, at the discretion of the District Engineer, for fire sprinkler systems shall be that established for a 5/8-inch water meter, as determined by the Board from time to time.

1. The District's capacity reserve fee shall be a multiple representing the approximate ratio between the maximum rate of continuous flow operation of the water meter being installed and the maximum rate of continuous flow through a 5/8-inch water meter.
2. In addition to the fee described in subsection (A)(1) of this section, for the District's water service area, the capacity reserve fee for potable water shall also include an amount established by Zone 7 for water supply connections pursuant to Zone 7 Resolution No. 00-2206, or any future amendment or restatement thereof, as may from time to time be adopted by Zone 7.
3. In addition to the fees described in subsections (A)(1) and (A)(2) of this section, an additional one percent of the Zone 7 fees shall be assessed on new connections within Contra Costa County to collect the costs incurred by the District to administer the collection of fees for Zone 7.
4. The District, at the discretion of the District Engineer, may add an additional amount or amounts when the incremental costs of providing water service to the property for which application for connection is made exceed the revenues that would be derived from the minimum capacity reserve fee. Such additional amount or amounts shall be determined by the District Engineer, using standard marginal cost-pricing techniques.

B. Recycled Water. The capacity reserve fee for connection of property to the District's recycled water supply facilities shall be as established by separate ordinance or resolution duly adopted from time to time by the Board, based on the size and capacity of the water meter. This capacity reserve fee shall be a multiple representing the approximate ratio between the maximum rate of continuous flow operation of the water meter being installed and the maximum rate of continuous flow through a 5/8-inch water meter. The capacity reserve fee for a recycled water connection shall not include the Zone 7 fees or the one percent surcharge thereon, as described in subsections (A)(2) and (A)(3) of this section.

C. Wastewater. The capacity reserve fees for connection of property to the District's wastewater facilities shall be as established by separate ordinance or resolution duly adopted from time to time by the Board. The applicant/user shall pay both the regional and local wastewater reserve fees as follows:

1. Regional wastewater capacity reserve fees for service from and use of the District's regional wastewater treatment plant, as determined by the District Engineer, based on the average daily flow, BOD and SS proposed to be discharged to the wastewater system within the area served by the District or a specified portion thereof as estimated by the District Engineer.

a. Residential Users. A standard regional wastewater capacity reserve fee shall be charged for each single-family dwelling unit equivalent based upon the average daily flow, BOD and SS discharged to the wastewater system by all single-family dwelling units within the area served by the District or a specified portion thereof, as determined from time to time by the District Engineer.

Regional wastewater capacity reserve fees for second dwelling units and each class of residences (other than single-family dwellings) shall be a fraction representing the approximate ratio between the average daily flow, BOD and SS from said class of residences within the area served by the District or a specified portion thereof, as estimated by the District Engineer, and a single-family dwelling unit equivalent within the area served by the District or a specified portion thereof.

b. Nonresidential Users. Except as the District Engineer may otherwise determine, the regional wastewater capacity reserve fee for nonresidential users shall be calculated based on the average daily flow, BOD and SS discharged into the wastewater system by all uses of the same category or use classification as the proposed use, each of which shall be estimated by the District Engineer.

2. Local wastewater capacity reserve fees for service from and use of the District's wastewater collection system, based on average daily flow proposed to be discharged to the wastewater system, within the area served by the District or a specified portion thereof, as estimated by the District Engineer.

a. Residential. A local wastewater capacity reserve fee shall be charged for each single-family dwelling unit equivalent based upon the average daily flow discharged by all single-

family residential units within the area served by the District or a specified portion thereof, as determined from time to time by the District Engineer.

Local wastewater capacity reserve fees for second dwelling units and each class of residences (other than single-family dwellings) shall be based on a fraction representing the approximate ratio between the average daily flow from said class of residences within the area served by the District or a specified portion thereof to the flow from one standard single-family dwelling unit within the area served by the District or a specified portion thereof, as estimated by the District Engineer.

b. Nonresidential Users. A local wastewater capacity reserve fee shall be charged to all nonresidential users based on average daily flow proposed to be discharged to the wastewater system, which shall be estimated by the District Engineer.

D. Connections After Failure to Obtain Building Permit or Expiration of Initial Building Permits. If building permits for the building structure(s) associated with a certificate of capacity rights are not obtained within 30 calendar days after payment of the capacity reserve fees pursuant to Section 3.70.080, or the building permits for the building structure(s) associated with a certificate of capacity rights expire before conditions for vesting of the certificate of capacity rights and rights associated therewith as described in DSRSDC 3.60.020.A are met, additional capacity reserve fees comprised of the difference between the capacity reserve fees paid at issuance of the lapsed certificate of capacity rights and the capacity reserve fees in effect within 30 calendar days prior to either the actual issuance of the building permit, or the issuance of the new building permits to replace the expired building permit, whichever is applicable, shall be paid in full to perfect the certificate of capacity rights and as a condition precedent to connecting to District facilities.

E. Special Arrangements. In addition to the applicable fee specified in this section:

1. A special capacity reserve fee shall be paid for improvements, as defined in DSRSDC [2.50.040](#), Definitions, subject to a reimbursement agreement entered into under Chapter [2.50](#) DSRSDC, Reimbursement Agreements. The amount of the special capacity reserve fee shall be determined in accordance with the terms and conditions of the reimbursement agreement.
2. Notwithstanding any provision of this code to the contrary, the District may, by special contract, ordinance, or resolution, require an additional payment to reimburse the District for an equitable portion of the costs of existing capital facilities and equipment that will be used to provide water and/or wastewater services to the new system user, or existing system user who is expanding its use of services, which costs will not, due to unusual or extraordinary circumstances as determined by the District Engineer, be fully reimbursed through the applicable capacity reserve fees. [Ord. 69, 1969; Ord. 118, 1975; Ord. 133, 1978; Ord. 136, 1978; Ord. 137, 1978; Ord. 142, 1978; Ord. 146, 1979; Ord. 147, 1979; Ord. 153, 1980; Ord. 159, 1980; Ord. 165, 1981; Ord. 171, 1982; Ord. 172,

1982; Ord. 174, 1982; Ord. 175, 1982; Ord. 182, 1983; Ord. 184, 1983; Ord. 185, 1983; Ord. 188, 1984; Ord. 190, 1984; Ord. 191, 1984; Ord. 192, 1984; Ord. 197, 1985; Ord. 200, 1985; Ord. 203, 1986; Ord. 216, 1988; Ord. 218, 1988; Ord. 223, 1989; Ord. 226, 1989; Ord. 232, 1990; Ord. 233, 1990; Ord. 234, 1990; Ord. 240, 1991; Ord. 241, 1991; Ord. 250, 1992; Ord. 270, 1996; Ord. 273, 1997; Ord. 274, 1997; Ord. 278, 1997; Ord. 291, 2003; Ord. 301, 2004; Ord. 327, 2010; Ord. ___, 2013.]

EXHIBIT 9. PROPOSED SECTION 3.70.050

3.70.050 Partial refund of capacity reserve fees.

Except as noted to the contrary in this section, capacity reserve fees paid under this chapter are nonrefundable. A partial refund may be issued upon reduction in capacity rights only if, following the process set forth in accordance with DSRSDC [3.60.060](#), Adjustment to allocated capacity – Modification of certificate of capacity rights, the District determines that the capacity used is less than the capacity granted in the certificate of capacity rights. [Ord. 69, 1969; Ord. 118, 1975; Ord. 159, 1980; Ord. 190, 1984; Ord. 273, 1997; Ord. 327, 2010; Ord. ___, 2013.]

EXHIBIT 10. PROPOSED SECTION 3.70.080

3.70.080 Time of payment.

Construction permits shall not be issued until all District fees have been paid, except for capacity reserve fees pursuant to Sections 3.70.010 through 3.70.030, to be paid later in accordance with Section 3.70.080. Certificates of capacity rights shall not be issued until all District fees associated therewith have been paid in full except for payment of the portion of the regional wastewater capacity reserve fee eligible for installment payments pursuant to an agreement duly executed by the applicant and the District as provided in DSRSDC [3.70.040](#), Installment payment of regional wastewater capacity reserve fees. Zone 7 wholesale fees shall be collected at the time the water meter is set pursuant to the agreement between Zone 7 and the District.

A. Capacity Reserve Fee. No connection to the facilities of the District shall be made, certificate of capacity rights issued, building permit issued, nor water meter installed until the capacity reserve fees are paid except as otherwise provided in DSRSDC [3.70.040](#), Installment payment of regional wastewater capacity reserve fees. The capacity reserve fees shall be paid within thirty (30) calendar days prior to water meter installation, if no building permit is required by the City or County of jurisdiction, or within 30 calendar days prior to issuance of building permit if a building permit is required by the City or County of jurisdiction, or if neither a building permit nor a water meter is required, within 30 calendar days prior to an application for service submitted pursuant to Section 3.40.030.

B. Project Planning and Review Fees. Project planning and review fees pursuant to DSRSDC [3.70.070](#), Inspection and project review fees – Miscellaneous fees, shall be due and payable upon the initial submittal of plans for review. Project planning and review fees assume review of two iterations of improvement plans for which the fees are charged; review of additional iterations is beyond typical services and will require additional payments. Payment for additional plan review services shall be made prior to approval of plans if no construction permit is required, and prior to issuance of a construction permit if a construction permit is required.

C. Inspection Fees. Inspection fees pursuant to DSRSDC [3.70.070](#), Inspection and project review fees – Miscellaneous fees, shall be due and payable prior to issuance of a construction permit. In the event that the construction permit expires per DSRSDC [3.50.040](#), Expiration of construction permit, and an extension is not granted per DSRSDC [3.50.050](#), Extension of construction permit, inspection fees paid in advance under this section may be refunded, prorata, based upon services rendered by the District.

D. Miscellaneous Fees and Charges. Other fees and charges established by the Board from time to time shall be due and payable as specified in the ordinance or resolution establishing such fees or charges.

E. Failure to Timely Pay Fees and Charges. Failure to pay for fees or charges incurred during construction and prior to project acceptance may result in halt in construction inspection, or provision of services that the District provides until such fees or charges are paid in full. [Ord. 69, 1969; Ord. 107, 1974; Ord. 118, 1975; Ord. 133, 1978; Ord. 142, 1978; Ord. 146, 1979; Ord. 170, 1981; Ord. 190, 1984; Ord. 216, 1988; Ord. 247, 1992; Ord. 249, 1992; Ord. 270, 1996; Ord. 273, 1997; Ord. 327, 2010.]

ATTACHMENT 1 to S&R
ORIGINAL DSRSD CODE LANGUAGE WITH PROPOSED REVISIONS
FOR SELECT SECTIONS IN TITLE 3

CHAPTER 3.10 DEFINITIONS, SCOPE AND PURPOSE

3.10.010 Definitions.

In the construction of this title, the general definitions set forth in DSRSDC 1.20.080, Definitions, shall apply except where contrary definitions are set forth in this title or as otherwise stated in DSRSDC 1.20.080, Definitions. The following definitions shall apply to this title, unless such definitions would be inconsistent with the manifest intent of the Board or the context clearly requires otherwise.

“Approved plans” means plans approved by the District Engineer.

“Building permit” means a permit or other official document, or certificate or permit issued by the City or County having jurisdiction which authorizes the construction of a building or other structure that will receive water or wastewater service from the District. “Building permit” also means a permit or other official document, or certificate or permit issued by the City or County having jurisdiction which authorizes modifications to or within an existing building or structure to facilitate an intensification of use that will require additional water or wastewater service capacity rights from the District in accordance with Section 3.60.050. Any other permit, regardless of what it is called by the City or County issuing it, including a permit issued for the installation of Plumbing, Mechanical, Electrical, Retaining Walls or Site Work is not a Building Permit for purposes of this Title.

“Final improvement plan” means plans prepared by a California-registered civil engineer, which consist of (1) a final plan showing the boundaries of the area for which service is requested, (2) a plot plan showing the location and sizes of all potable water, recycled water, and sewer lines to be constructed and the number, size and location of dwelling units or commercial, institutional, or industrial structures to be served by the District in sufficient detail to allow the District Engineer to determine the size and number of water meters and/or the maximum amount of wastewater capacity required by the intended use of the parcel, (3) construction drawings in accordance with the standard procedures, specifications and drawings of the District, and (4) such other information which may be required by the District Engineer.

“High Strength Dischargers/Users” means any of the following wastewater categories encompassing high strength institutional, intermediate industrial and commercial uses:

1. Bakery. Primarily engaged in baking of products which may include breads, cakes, pastries, cookies, doughnuts, bagels, biscuits, rolls or other related confections.

2. Car Wash with Steam Cleaning. Primarily engaged in mechanical and hydraulic washing, rinsing, cleaning and drying of mobile equipment including steam cleaning. May be performed by on-site personnel or coin-operated public devices.
3. Fast Food Restaurant. Primarily engaged in cooking and serving of food utilizing disposable serving products (i.e., styrofoam, plastic or paper). May perform limited baking activities relative to foods which are served with the meal and are generally not sold separately.
4. Full Service Restaurant, Cafeteria and Banquet Facilities. Primarily engaged in cooking and serving of meals utilizing flatware, silverware, glasses, dishwashing and limited baking activities for on-site use.
5. Market. Primarily engaged in selling of goods and food products that are not dry goods, where food products are prepared on site.
6. Mortuary. Primarily engaged in handling and storing of the dead until burial.
7. Other uses as determined by the District Engineer.

"Recycled water use license" means a license issued by the District to the customer, which outlines monitoring, self-inspection, reporting, and site-specific requirements. This license is required by the California Regional Water Quality Control Board. This license allows the customer to use recycled water in accordance with District standards, codes, ordinances, policies, and guidelines and all applicable regulatory agency requirements.

"Recycled Water Use Guidelines" means the Recycled Water Use Guidelines and Requirements prepared, maintained and updated from time to time by the District Engineer to implement the rules and regulations in this code, and other regulatory agencies, including the California Department of Public Health, the San Francisco Bay Regional Water Quality Control Board, and County Environmental Management Department. The Recycled Water Use Guidelines establish requirements and standards for the planning, design, construction, operation, maintenance, and use of public recycled water systems and customer-owned recycled water systems.

"Regular strength, nonresidential user" means a user primarily engaged in activities including, but not limited to, gas stations, hotels, private office complexes, schools, retail and wholesale stores, bars, etc. (all excluding dining facilities), and who introduces wastewater that is determined by the District Engineer to consist primarily of sewage into the District's wastewater facilities. Classification includes all users not defined in another classification.

"Residential user" means a resident of a single- or multiple-family dwelling receiving District services at his or her place of residence. "Residential unit" means one unit in any of the classes of residences that are generally defined in subsections (1) through (4) of this definition, and the District Engineer shall have discretion to determine which class is applicable to a particular residential user or unit where that user or

unit shares some characteristics of more than one class. In the absence of a determination to the contrary, each residential user shall be deemed to be residing in a single-family dwelling unit (or residence).

1. **“Multifamily residence”** (or **“multiple-family residence”**) means a residential unit (other than a second dwelling unit) attached to one or more other residential units, with one or more adjacent common areas irrigated through a separate irrigation water meter. This includes apartments, condominiums, and townhomes as further described in subsections (1)(a) through (1)(c) of this definition. Neither a single-family dwelling nor a second dwelling unit is a multifamily residence.
 - a. **“Apartment”** means a multifamily residence that is owned in common with one or more other apartments, along with the underlying land and one or more adjacent common areas. Apartments are intended to be rented to a tenant or other occupant.
 - b. **“Condominium”** means a multifamily residence that is individually owned, where the underlying land and one or more adjacent common areas are under common ownership.
 - c. **“Townhome”** means a multifamily residence that is individually owned along with the underlying land, but adjacent to common areas under separate or common ownership.
2. **“Second dwelling unit”** means a residential unit, no larger than the maximum size authorized for such use by the local agency with land use authority, with a separate entrance, kitchen, sleeping, and bathroom facilities, which receives water service through the same water meter as, and which is located on the same individual parcel of land with the same numerical street address as the single-family dwelling unit, but which is smaller than (or otherwise subservient to) the single-family dwelling unit, that serves as the principal residence on the parcel of land.
3. **“Single-family dwelling unit (or residence)”** means a residential unit located on its own individual parcel of land (with or without a second dwelling unit) and designed to house one family and which is not attached to another dwelling (other than a second dwelling unit).
 - a. Single-family dwelling unit (or residence) includes each mobile home located on its own individual parcel of land and not in a mobile home park.
 - b. Single-family dwelling unit (or residence) also includes each residential dwelling unit attached to one or more other residential units where each unit is located on its own individual parcel of land, but without an adjacent common area irrigated through a separate irrigation water meter.
4. Notwithstanding the foregoing, each mobile home located in a mobile home park is also defined as a multifamily residence, subject to the District Engineer’s discretion to determine that another class is more appropriate.

“Significant industrial user” means a significant industrial user defined in 40 CFR Section 403.3(v) as:

1. Any categorical industrial user; or
2. Any other industrial user that:
 - a. Discharges 25,000 gallons or more per day of process wastewater to the District’s treatment works (excluding sanitary, noncontact cooling and boiler blow-down water);
 - b. Contributes a process waste stream which comprises five percent or more of the average dry weather hydraulic or organic capacity of the District’s treatment plant; or
 - c. Is designated as such by the District based on a finding that the industrial user’s activities or operations have a reasonable potential for adversely affecting the operation of the District’s treatment works or for violating any categorical pretreatment standard, national pretreatment standard or pretreatment standard or requirement (in accordance with 40 CFR Section 403.8(f)(6)).

“Standard Specifications” means the Standard Procedures, Specifications and Drawings for Design and Installation of Potable Water, Recycled Water, and Wastewater Facilities prepared, maintained and updated from time to time by the District Engineer to implement the rules and regulations in this code, and to establish requirements and standards for the planning, design, construction, operation, and maintenance of public potable and recycled water systems and wastewater systems, and customer-owned recycled water systems.

“Subscribing agency” means a public agency that contributes wastewater from its wastewater collection system to a wastewater system operated by the District. [Ord. 327, 2010; Ord. ___, 2013.]

CHAPTER 3.20 BASIS OF SERVICE

3.20.030 Requirement of capacity – Priorities for capacity allocation.

Notwithstanding any provision of this code to the contrary, no connection for any service provided by the District shall be made at any time unless, in the opinion of the Board has determined that, capacity is available in its water system, its wastewater system, or both, or that such capacity will not be available at the time of vesting of capacity rights in accordance with Section 3.60.020available. Priorities for allocation of available capacity rights shall be made from time to time based on the public health, welfare, safety, necessity and convenience at the discretion of the Board. [Ord. 157, 1980; Ord. 216, 1988; Ord. 273, 1997; Ord. 327, 2010; Ord. ___, 2013.]

CHAPTER 3.50 CONSTRUCTION PERMIT

3.50.020 Issuance of construction permit.-

A construction permit may be issued only after all of the following actions have been completed:

- A. The applicant has filed a complete application for service in compliance with Chapter [3.40](#) DSRSDC, Application for Services;
- B. ~~The applicant is in possession of a certificate of capacity rights issued in compliance with Chapter [3.60](#) DSRSDC, Service Capacity Allocation, if the applicant's project requires capacity rights for water or wastewater service;~~
- C. The applicant is in possession of a final improvement plan approved in writing by the District Engineer;
- ~~DC.~~ All fees and charges required by or pursuant to Chapter [3.70](#) DSRSDC, Fees and Charges, have been paid, except that capacity reserve fees pursuant to Sections 3.70.010 through 3.70.030, shall be paid later in accordance with Section 3.70.080. Fees paid shall be in the amount of the fees in effect at time of payment, as the time of payment is described in DSRSDC 3.70.080, Time of payment;
- ~~ED.~~ A copy of the approved final map, parcel map or master map has been filed with the District;
- ~~FE.~~ Submission of proof of liability insurance in an amount set by the District on a form satisfactory to the District Engineer, naming the District as an additional insured by policy endorsement. Proof of liability insurance shall be accompanied by a statement of endorsement from the insuring firm;
- ~~GF.~~ Submission of bonds and securities in compliance with DSRSDC [3.50.030](#), Bonds and other security;
- ~~HG.~~ Where off-site easements are required for facilities to be dedicated to the District, submission of irrevocable offers of dedication in recordable form (with notary acknowledgments), duly executed by the record owner of fee title, and current preliminary title reports, all in a form approved by the District, for each of the properties on which the off-site facilities are located;
- ~~HI.~~ Where on-site easements are required for facilities to be dedicated to the District and easements are not dedicated on final map or parcel map, submission of irrevocable offers of dedication in recordable form (with notary acknowledgments), duly executed by the record owner of fee title, and current preliminary title reports, all in a form approved by the District, for each of the properties on which the on-site facilities are located;
- ~~JL.~~ In lieu of an offer of dedication as described in either of subsections (H) and (I) of this section, an applicant may submit, and the District may accept, deeds or grants of easement in recordable form (with notary acknowledgments), duly executed by the record owner of fee title, and current preliminary title reports, all in a form approved by the District, for each of the properties on which the facilities are located; and

KJ. Submission of such other relevant information that may be required by the District Engineer.

K. Notwithstanding anything to the contrary, issuance of a construction permit after December 2, 2010 shall not be deemed to be a certificate of capacity rights of any kind, nor shall it be deemed to imply or otherwise give rise to an entitlement of any kind to a capacity rights allocation, or any reasonable expectation thereof, for the recipient of such construction permit. [Ord. 69, 1969; Ord. 90, 1971; Ord. 118, 1975; Ord. 212, 1987; Ord. 273, 1997; Ord. 327, 2010.]

Chapter 3.60 Service Capacity Allocation

3.60.010 Capacity rights allocation – Issuance of certificate of capacity rights.

Prior to connection to District facilities, applicants shall obtain from the District sufficient water and/or wastewater capacity rights, as determined by the District Engineer, for the property upon which they have proposed a development. Capacity rights provide the property the conditional right to obtain service from and use of the District's water and wastewater systems. Allocation of capacity for water and/or wastewater service to a property shall be issued through a certificate of capacity rights, which shall remain conditional until such time, if ever, it vests in accordance with DSRSDC 3.60.020, Vesting of certificate of capacity rights. No certificate of capacity rights shall be issued until the applicant has paid capacity reserve fees (formerly known as connection fees) and the District Engineer has approved the application therefor in accordance with Chapter 3.40 DSRSDC, Application for Services. Unless the Board has determined that sufficient capacity is not available to allow additional connections to its water system, its wastewater system, or both, a certificate of capacity rights shall issue as of the date of payment of the capacity reserve fees.

A certificate of capacity rights, if required for a development, shall be obtained by the applicant within thirty (30) calendar days prior to approval of plans, if no construction issuance of a building permit, if a building permit is required by the City or County having jurisdiction, or within 30 calendar days prior to installation of a water meter, if a building issuance of a construction permit if a construction permit is not required by the City or County having jurisdiction, or, if neither a building permit nor a water meter is required, within 30 calendar days prior to an application for service submitted pursuant to Section 3.40.030. For an application for service submitted pursuant to Section 3.40.040, the certificate of capacity rights shall be obtained within 30 calendar days prior to the first use of the additional capacity required as a result of the expansion of any building or structure, or of the intensification of use, or of the initiating of service to a new building or structure not subject to the provisions of Section 3.40.030.

The quantity of capacity right allocation required for a development or property shall be determined by the District Engineer. If the Board has determined that sufficient capacity is not available to allow additional connections to its water system, its wastewater system or both, the District may deny such connections notwithstanding the issuance of certificates of capacity rights.

A sewer permit issued to an applicant prior to December 2, 2010, shall be deemed to be a certificate of capacity rights for sewer capacity, and shall be subject to all of the provisions of this chapter. However, issuance of a construction permit after December 2, 2010 shall not be deemed to be a certificate of capacity rights of any kind, nor shall it be deemed to imply or otherwise give rise to an entitlement of any kind to a capacity rights allocation, or any reasonable expectation thereof, for the recipient of such construction permit.

The District reserves the right to make additional changes to capacity rights allocation and charge associated fees for existing water and wastewater service connections to the District's systems, for which certificates of capacity rights have been previously issued, if significant changes in service demands, within the area served by the District or within a specified portion thereof in which the connection is located, makes the additional changes necessary.

A. Water. Unless otherwise determined by the District Engineer, capacity rights to service from and use of the District's potable water and recycled water distribution systems shall be a multiple representing the approximate ratio between the maximum rate of continuous flow through the water meter(s) required on a property and the maximum rate of continuous flow through a 5/8-inch water meter, which shall be the unit of measurement.

B. Wastewater. Capacity rights to service from and use of the District's regional wastewater treatment plant shall be determined by the District Engineer based on the average daily flow, BOD, and SS of the proposed or actual discharge into the wastewater system within the area served by the District, or a specified portion thereof, as estimated by the District Engineer. Capacity rights to service from and use of the District's local wastewater collection system shall be determined by the District Engineer based on the average daily flow of the property's discharge into the wastewater system within the area served by the District, or a specified portion thereof, as estimated by the District Engineer.

1. Nonresidential Users. For nonresidential users, if, in the discretion of the District Engineer, no wastewater flow information can be provided by the applicant, the initial determination of the capacity rights shall be based on the average daily flow, BOD, and SS discharged into the wastewater system by all uses of the same category or use classification as the proposed use, as estimated by the District Engineer in accordance with DSRSDC [3.30.010\(C\)](#), Wastewater Capacity Demand Estimates. The appropriate category or use classification for this determination shall be selected by the District Engineer in his or her sole discretion.

The District Engineer may, using appropriate means within the sole and absolute discretion of the District, review capacity rights for nonresidential users upon request submitted either pursuant to DSRSDC [3.60.060](#), Adjustment to allocated capacity – Modification of certificate of capacity rights, or at any time after an appropriate period as determined by the District Engineer to represent

normalized wastewater usage based upon any additional information that becomes available about average daily flow, BOD, and SS actually being discharged into the wastewater system.

2. Residential Users. For residential users, a standard regional wastewater capacity allocation shall be used for each single-family dwelling unit equivalent based upon the average daily flow, BOD and SS discharged by all single-family dwelling units within the area served by the District or a specified portion thereof, as determined from time to time by the District Engineer. A standard local wastewater capacity allocation shall be used for each single-family dwelling unit based upon the average daily flow discharged by all single-family dwelling units within the area served by the District or a specified portion thereof, as determined from time to time by the District Engineer.

Unless otherwise determined by the District Engineer, capacity rights for second dwelling units and each class of multiple-family dwelling units to service from and use of the District's regional wastewater treatment plant shall be a multiple representing the approximate ratio between the average daily flow, BOD and SS from said class of dwelling units within the area served by the District or a specified portion thereof, as estimated by the District Engineer, and a single-family dwelling unit equivalent. Unless otherwise determined by the District Engineer, capacity rights for second dwelling units and each class of multiple-family dwelling units to service from and use of the District's local wastewater collection system shall be a multiple representing the approximate ratio between the average daily flow from said class of dwelling units within the area served by the District or a specified portion thereof as estimated by the District Engineer, and a single-family dwelling unit equivalent. [Ord. 69, 1969; Ord. 90, 1971; Ord. 118, 1975; Ord. 147, 1979; Ord. 157, 1980; Ord. 159, 1980; Ord. 190, 1984; Ord. 216, 1988; Ord. 273, 1997; Ord. 327, 2010; Ord. _____, 2013.]

3.60.020 Expiration Vesting of certificate of capacity rights.

A. The certificate of capacity rights and rights associated therewith are conditional and shall vest only after the applicant has paid all capacity reserve fees (formerly known as connection fees) in effect at the date of vesting shall expire three years after the date of issuance unless a District facilities construction permit has been issued, and either (1) an authorized connection has been made to District facilities within said period, if a building permit is not required by the city or county having jurisdiction; or (2) the building permits are obtained and building structures, for which all or a substantial portion (as determined by the District Engineer) of the certificate of capacity rights is issued, are constructed and connected to District facilities,

Where a building permit is required by the city or county having jurisdiction, the certificate of capacity rights and rights associated therewith shall lapse and not be vested , if either the building permits expire before the building structures for which all or a substantial portion (as determined by the District Engineer) of the certificate of capacity rights is issued are constructed and connected to District facilities, or no building permits are obtained within 30 days after payment of the capacity reserve fees pursuant to Section 3.70.080. However, upon either the actual issuance of the building permit, or the issuance of a new building permit to replace the expired building permit, whichever is applicable, , and after the building structures for which all or a substantial portion (as determined by the District Engineer) of the certificate of

capacity rights is issued are constructed and connected to District facilities, and additional capacity reserve fees are paid in accordance with Section 3.70.010.D, the certificate of capacity rights and rights associated therewith shall vest.

are constructed and connected to District facilities within said period.

Notwithstanding the preceding two paragraphs, if changes have been made to the development upon which the District based its determination of capacity rights under DSRSDC 3.60.010, Capacity rights allocation – Issuance of certificate of capacity rights, or if changes have been made to affect the amount of capacity needed for the property upon which the development was proposed, as determined by the District Engineer, certificate of capacity rights shall be modified in accordance with DSRSDC 3.60.050, Additional capacity – Intensification or modification of use, or 3.60.060, Adjustment to allocated capacity – Modification of certificate of capacity rights, and appropriate fees shall be paid (or refunded, but only to the extent a refund is required under DSRSDC 3.70.050, Partial refund of capacity reserve fees).

Notwithstanding the foregoing, the District may, from time to time, adopt a policy by resolution establishing different criteria for expiration of capacity rights based on its determination that sufficient capacity is not available in its water system, its wastewater system, or both, to meet anticipated demands, or that such capacity will not be available at the time of vesting of capacity rights in accordance with Section 3.60.020, capacity limitations and/or an unprecedented severe reduction in economic development. Such policy shall have a duration no longer than the exigency that it is intended to address.

B. Nothing in the provisions of subsection (A) of this section shall be deemed to prevent the District from exercising its discretion, or to permit the vesting of any certificate of capacity rights in a manner contrary to, or in a manner that would in any way constrain the District's discretion under, DSRSDC 3.20.030, Requirement of capacity – Priorities for capacity allocation, DSRSDC 3.20.120, Priority for affordable or low income housing developments, or DSRSDC 3.20.120, 3.60.090, Priority for certain governmental connections, on or before December 31, 2013, selling certificates of capacity rights, otherwise in full compliance with this code, that do not expire three years after the date of issuance or upon expiration of project entitlements conferred by the city or county of jurisdiction. [Ord. 69, 1969; Ord. 118, 1975; Ord. 157, 1980; Ord. 159, 1980; Ord. 190, 1984; Ord. 216, 1988; Ord. 273, 1997; Ord. 327, 2010; Ord. , 2013.]

3.60.030 Limitations on vesting of certificate of capacity rights Reserved.

If the Board has determined, consistent with DSRSDC 3.20.030, Requirement of capacity – Priorities for capacity allocation, DSRSDC 3.20.120, Priority for affordable or low income housing developments, or DSRSDC 3.20.120, 3.60.090, Priority for certain governmental connections, that capacity is not available for the use sought by a holder of a certificate of capacity right, the certificate of capacity rights and rights associated therewith will vest, if at all, only in accordance with subsections (A) and (B) of this Section.

A. If the Board has determined that sufficient capacity is not available in its water system, its wastewater system, or both, to meet anticipated demands, or that such capacity will not be available at the time of

vesting of capacity rights in accordance with Section 3.60.020, it may specify such criteria that, in its discretion, best serve the public health, welfare, safety, necessity and convenience, for determining the sequence in which connections will be allowed. If no criteria are specified, the certificates shall vest, if at all, only upon connection to District facilities as specified in DSRSDC 3.60.020, Vesting of certificate of capacity rights.

B. Notwithstanding the foregoing, the District may decline to issue a certificate of water capacity rights and may deny a connection to its water system based on its determination that it lacks available capacity in its wastewater system. [Ord. 327, 2010; Ord. _____, 2013.]

3.60.090 Priority for certain governmental connections.

Upon finding that: (A) the public health, welfare, safety, necessity and convenience require the allocation of water or wastewater connections and the related capacity rights to a governmental or quasi-governmental agency or other public institution in order to perform necessary governmental functions or services under its jurisdiction; (B) the functions or services do not include the granting of entitlements for the development or use of privately or publicly owned property for private use; (C) the agency or institution requires not less than 0.025 MGD flow capacity rights; and (D) sufficient treatment capacity exists in the District's treatment works for allocation to the agency or institution in the amount specified by the Board without impairing the rights of others under certificate of capacity rights or agreements previously issued or entered; the Board may enter into an agreement with the governing body of the agency or institution allocating certificate of capacity rights and the related capacity rights, having priority over all other pending applications and future demand in the amount as the Board, in its discretion, determines. Such an agreement shall be the exclusive method by which certificate of capacity rights and corresponding capacity rights may be allocated under this section. It shall include, but not be limited to: provisions for payment of all applicable fees and charges specified in this chapter for connection to and use of the District's wastewater facilities; that the certificates shall vest as specified in DSRSDC 3.60.020, Vesting of certificate of capacity rights, and, if DSRSDC 3.60.030, Limitations on vesting of certificate of capacity rights, is applicable, the certificates shall vest as specified therein unless otherwise specified in the agreement; the term of the certificates (which term shall expire three years from the date of the agreement unless otherwise specified in the agreement); the governmental use to be served by the connection(s) to the District's water and/or wastewater facilities permitted thereunder; and other terms and conditions as the District deems necessary or appropriate. Except as provided to the contrary in the agreement, all provisions of this code governing connection to and use of the District's water and wastewater facilities shall govern permits and certificates issued under the agreement. [Ord. 201, 1985; Ord. 273, 1997; Ord. 327, 2010; Ord. _____, 2013.]

Chapter 3.70 Fees and Charges

3.70.010 Capacity reserve fee.

A capacity reserve fee shall be assessed for each new system user, or for an existing system user who is expanding use of services, for the right to connect to and receive new or expanded service from the

District's water and wastewater facilities. Said fee shall consist of the amounts determined by the District to be necessary to recover the estimated reasonable cost of providing the services taking into account an equitable portion of the costs of improvements, replacements, and expansions of the District facilities used to provide the service(s). Upon payment of capacity reserve fees, the applicant/user may obtain a certificate of capacity rights in accordance with Chapter [3.60](#) DSRSDC, Service Capacity Allocation. Modifications to capacity rights obtained herein shall be in accordance with DSRSDC [3.60.050](#), Additional capacity – Intensification or modification of use, and 3.60.060, Adjustment to allocated capacity – Modification of certificate of capacity rights.

A. Potable Water. The capacity reserve fee for connection of property to the District's potable water supply facilities shall be as established by separate ordinance or resolution duly adopted from time to time by the Board, based on the size and capacity of the water meter and the pressure zone and the county in which the water meter is to be installed; provided, that said fee for a residential unit, including but not limited to a single-family dwelling, requiring a one-inch water meter or smaller water meter, at the discretion of the District Engineer, for fire sprinkler systems shall be that established for a 5/8-inch water meter, as determined by the Board from time to time.

1. The District's capacity reserve fee shall be a multiple representing the approximate ratio between the maximum rate of continuous flow operation of the water meter being installed and the maximum rate of continuous flow through a 5/8-inch water meter.
2. In addition to the fee described in subsection (A)(1) of this section, for the District's water service area, the capacity reserve fee for potable water shall also include an amount established by Zone 7 for water supply connections pursuant to Zone 7 Resolution No. 00-2206, or any future amendment or restatement thereof, as may from time to time be adopted by Zone 7.
3. In addition to the fees described in subsections (A)(1) and (A)(2) of this section, an additional one percent of the Zone 7 fees shall be assessed on new connections within Contra Costa County to collect the costs incurred by the District to administer the collection of fees for Zone 7.
4. The District, at the discretion of the District Engineer, may add an additional amount or amounts when the incremental costs of providing water service to the property for which application for connection is made exceed the revenues that would be derived from the minimum capacity reserve fee. Such additional amount or amounts shall be determined by the District Engineer, using standard marginal cost-pricing techniques.

B. Recycled Water. The capacity reserve fee for connection of property to the District's recycled water supply facilities shall be as established by separate ordinance or resolution duly adopted from time to time by the Board, based on the size and capacity of the water meter. This capacity reserve fee shall be a multiple representing the approximate ratio between the maximum rate of continuous flow operation of the water meter being installed and the maximum rate of continuous flow through a 5/8-inch water meter.

The capacity reserve fee for a recycled water connection shall not include the Zone 7 fees or the one percent surcharge thereon, as described in subsections (A)(2) and (A)(3) of this section.

C. Wastewater. The capacity reserve fees for connection of property to the District's wastewater facilities shall be as established by separate ordinance or resolution duly adopted from time to time by the Board. The applicant/user shall pay both the regional and local wastewater reserve fees as follows:

1. Regional wastewater capacity reserve fees for service from and use of the District's regional wastewater treatment plant, as determined by the District Engineer, based on the average daily flow, BOD and SS proposed to be discharged to the wastewater system within the area served by the District or a specified portion thereof as estimated by the District Engineer.

a. Residential Users. A standard regional wastewater capacity reserve fee shall be charged for each single-family dwelling unit equivalent based upon the average daily flow, BOD and SS discharged to the wastewater system by all single-family dwelling units within the area served by the District or a specified portion thereof, as determined from time to time by the District Engineer.

Regional wastewater capacity reserve fees for second dwelling units and each class of residences (other than single-family dwellings) shall be a fraction representing the approximate ratio between the average daily flow, BOD and SS from said class of residences within the area served by the District or a specified portion thereof, as estimated by the District Engineer, and a single-family dwelling unit equivalent within the area served by the District or a specified portion thereof.

b. Nonresidential Users. Except as the District Engineer may otherwise determine, the regional wastewater capacity reserve fee for nonresidential users shall be calculated based on the average daily flow, BOD and SS discharged into the wastewater system by all uses of the same category or use classification as the proposed use, each of which shall be estimated by the District Engineer.

2. Local wastewater capacity reserve fees for service from and use of the District's wastewater collection system, based on average daily flow proposed to be discharged to the wastewater system, within the area served by the District or a specified portion thereof, as estimated by the District Engineer.

a. Residential. A local wastewater capacity reserve fee shall be charged for each single-family dwelling unit equivalent based upon the average daily flow discharged by all single-family residential units within the area served by the District or a specified portion thereof, as determined from time to time by the District Engineer.

Local wastewater capacity reserve fees for second dwelling units and each class of residences (other than single-family dwellings) shall be based on a fraction representing the

approximate ratio between the average daily flow from said class of residences within the area served by the District or a specified portion thereof to the flow from one standard single-family dwelling unit within the area served by the District or a specified portion thereof, as estimated by the District Engineer.

b. Nonresidential Users. A local wastewater capacity reserve fee shall be charged to all nonresidential users based on average daily flow proposed to be discharged to the wastewater system, which shall be estimated by the District Engineer.

D. Connections After Failure to Obtain Building Permit or Expiration of Initial Building Permits. If building permits for the building structure(s) associated with a certificate of capacity rights are not obtained within 30 calendar days after payment of the capacity reserve fees pursuant to Section 3.70.080, or the building permits for the building structure(s) associated with a certificate of capacity rights expire before conditions for vesting of the certificate of capacity rights and rights associated therewith as described in DSRSDC 3.60.020.A are met, additional capacity reserve fees comprised of the difference between the capacity reserve fees paid at issuance of the lapsed certificate of capacity rights and the capacity reserve fees in effect within 30 calendar days prior to either the actual issuance of the building permit, or the issuance of the new building permits to replace the expired building permit, whichever is applicable, shall be paid in full to perfect the certificate of capacity rights and as a condition precedent to connecting to District facilities.

E. Special Arrangements. In addition to the applicable fee specified in this section:

1. A special capacity reserve fee shall be paid for improvements, as defined in DSRSDC 2.50.040, Definitions, subject to a reimbursement agreement entered into under Chapter 2.50 DSRSDC, Reimbursement Agreements. The amount of the special capacity reserve fee shall be determined in accordance with the terms and conditions of the reimbursement agreement.
2. Notwithstanding any provision of this code to the contrary, the District may, by special contract, ordinance, or resolution, require an additional payment to reimburse the District for an equitable portion of the costs of existing capital facilities and equipment that will be used to provide water and/or wastewater services to the new system user, or existing system user who is expanding its use of services, which costs will not, due to unusual or extraordinary circumstances as determined by the District Engineer, be fully reimbursed through the applicable capacity reserve fees. [Ord. 69, 1969; Ord. 118, 1975; Ord. 133, 1978; Ord. 136, 1978; Ord. 137, 1978; Ord. 142, 1978; Ord. 146, 1979; Ord. 147, 1979; Ord. 153, 1980; Ord. 159, 1980; Ord. 165, 1981; Ord. 171, 1982; Ord. 172, 1982; Ord. 174, 1982; Ord. 175, 1982; Ord. 182, 1983; Ord. 184, 1983; Ord. 185, 1983; Ord. 188, 1984; Ord. 190, 1984; Ord. 191, 1984; Ord. 192, 1984; Ord. 197, 1985; Ord. 200, 1985; Ord. 203, 1986; Ord. 216, 1988; Ord. 218, 1988; Ord. 223, 1989; Ord. 226, 1989; Ord. 232, 1990; Ord. 233, 1990; Ord. 234, 1990; Ord. 240, 1991; Ord. 241, 1991; Ord. 250, 1992; Ord. 270, 1996; Ord. 273,

1997; Ord. 274, 1997; Ord. 278, 1997; Ord. 291, 2003; Ord. 301, 2004; Ord. 327, 2010; Ord. _____, 2013.]

3.70.050 Partial refund of capacity reserve fees.

Except as noted to the contrary in this section, capacity reserve fees paid under this chapter are nonrefundable. ~~The fee shall be forfeited in its entirety upon expiration of certificate of capacity rights per DSRSDC 3.60.020, Expiration of certificate of capacity rights.~~ A partial refund may be issued upon reduction in capacity rights only if, following the process set forth in accordance with DSRSDC 3.60.060, Adjustment to allocated capacity – Modification of certificate of capacity rights, the District determines that the capacity used is less than the capacity granted in the certificate of capacity rights. [Ord. 69, 1969; Ord. 118, 1975; Ord. 159, 1980; Ord. 190, 1984; Ord. 273, 1997; Ord. 327, 2010; Ord. _____, 2013.]

3.70.080 Time of payment.

~~At the earliest, the District may accept an applicant's payment of District fees and charges upon submittal of application form pursuant to Chapter 3.50 DSRSDC, Construction Permit, and such other evidence or plans satisfactory to the District Engineer, from which District fees may be reasonably calculated; at the latest, the District may accept an applicant's payment of District fees and charges prior to approval of the applicant's plans, if no construction permit is required, or prior to issuance of construction permit if construction permit is required. Construction permits shall not be issued until all District fees have been paid, except for capacity reserve fees pursuant to Sections 3.70.010 through 3.70.030, to be paid later in accordance with Section 3.70.080. and e~~Certificates of capacity rights shall not be issued until all District fees associated therewith ~~each document~~ have been paid in full except for payment of the portion of the regional wastewater capacity reserve fee eligible for installment payments pursuant to an agreement duly executed by the applicant and the District as provided in DSRSDC 3.70.040, Installment payment of regional wastewater capacity reserve fees. Zone 7 wholesale fees shall be collected at the time the water meter is set pursuant to the agreement between Zone 7 and the District.

A. Capacity Reserve Fee. No connection to the facilities of the District shall be made, certificate of capacity rights issued, ~~or construction building~~ permit issued, ~~nor water meter installed~~ until the capacity reserve fees are paid except as otherwise provided in DSRSDC 3.70.040, Installment payment of regional wastewater capacity reserve fees. ~~At the latest, T- the capacity reserve fees shall be paid within thirty (30) calendar days prior to approval of the applicant's plans water meter installation, if no construction building permit is required by the City or County of jurisdiction, or within 30 calendar days prior to issuance of construction building permit if a construction building permit is required by the City or County of jurisdiction, or if neither a building permit nor a water meter is required, within 30 calendar days prior to an application for service submitted pursuant to Section 3.40.030. At the earliest, capacity reserve fees may be paid after the following conditions are satisfied:~~

- ~~1. Submission of evidence that the local agency having planning jurisdiction over the property has made a determination of the final use of the property. Such evidence may be a tentative subdivision map, parcel map or master final map, or similar entitlement satisfactory to the District Engineer, or~~

~~proof that the local agency having land use jurisdiction over the property has issued a final permit for the expansion, alteration or change of use; and~~

~~2. Such evidence or plans satisfactory to the District Engineer which indicate the water or wastewater capacity needs of the project.~~

B. Project Planning and Review Fees. Project planning and review fees pursuant to DSRSDC [3.70.070](#), Inspection and project review fees – Miscellaneous fees, shall be due and payable upon the initial submittal of plans for review. Project planning and review fees assume review of two iterations of improvement plans for which the fees are charged; review of additional iterations is beyond typical services and will require additional payments. Payment for additional plan review services shall be made prior to approval of plans if no construction permit is required, and prior to issuance of a construction permit if a construction permit is required.

C. Inspection Fees. Inspection fees pursuant to DSRSDC [3.70.070](#), Inspection and project review fees – Miscellaneous fees, shall be due and payable prior to issuance of a construction permit. In the event that the construction permit expires per DSRSDC [3.50.040](#), Expiration of construction permit, and an extension is not granted per DSRSDC [3.50.050](#), Extension of construction permit, inspection fees paid in advance under this section may be refunded, prorata, based upon services rendered by the District.

D. Miscellaneous Fees and Charges. Other fees and charges established by the Board from time to time shall be due and payable as specified in the ordinance or resolution establishing such fees or charges.

E. Failure to Timely Pay Fees and Charges. Failure to pay for fees or charges incurred during construction and prior to project acceptance may result in halt in construction inspection, or provision of services that the District provides until such fees or charges are paid in full. [Ord. 69, 1969; Ord. 107, 1974; Ord. 118, 1975; Ord. 133, 1978; Ord. 142, 1978; Ord. 146, 1979; Ord. 170, 1981; Ord. 190, 1984; Ord. 216, 1988; Ord. 247, 1992; Ord. 249, 1992; Ord. 270, 1996; Ord. 273, 1997; Ord. 327, 2010.]
