TITLE: Adopt Revised Board Minutes Policy and Rescind Resolution No. 14-15

RECOMMENDATION:

Staff recommends the Board of Directors adopt, by Resolution, the revised Board Minutes policy and rescind Resolution No. 14-15.

SUMMARY:

All District policies are reviewed on a rotating four-year cycle to ensure that they remain current and that the Board seated at that time continues to concur with that policy. The Board Minutes policy was originally adopted on March 3, 2015. Staff recently reviewed the Board Minutes policy and believes the policy is working properly. Staff recommends a few minor updates to improve clarity:

- Include applicable California Government Code references
- Point out Board meeting video recording exceptions due to technical issues or when meetings are held at alternate locations
- Include brief reporting of item presentations not in the agenda packet when video recording is unavailable
- Simplify wording and formatting.

For convenience of the Board, a marked-up copy of the current policy is attached.

The purpose of this policy of the Board of Directors of Dublin San Ramon Services District is to establish guidelines for the preparation of Board meeting minutes.

The Board's policy is:

Brown Act (Government Code section 54950 *et seq.*) and conducts the business and other activities of the District in an open and transparent manner; and

WHEREAS, in that spirit of openness and transparency, the Board of Directors' regular meetings are now video recorded and posted to the District website; and

WHEREAS, District business practices have always required that written minutes of meetings of the Board of Directors be maintained as the District's official written record, to record the conduct of the meeting, and to reflect decisions made and actions taken by the Board, and the District's Records Retention Schedule policy stipulates that Board meeting minutes will be kept as a "permanent record," and

TITLE: Accept Regular and Recurring Reports: Warrant List, Outstanding Receivables, and Unexpected Asset Replacement

RECOMMENDATION:

Staff recommends the Board of Directors accept, by Motion, the attached regular and recurring reports.

SUMMARY:

To maximize openness and transparency and to allow the Board to be informed about key aspects of District business, the Board directed that various regular and recurring reports be presented for Board acceptance at regular intervals. This item is routinely presented to the Board at the second meeting of each calendar month.

The reports presented this month for acceptance are noted below and are submitted as part of Attachment 1:

Ref Item A: Warrant List

Ref Item D: Outstanding Receivables

The attached receivable aging report denotes that 98.8% of all receivables are current (less than or equal to 30 days). The District's Utility Billing and Customer Service Division has an excellent collection record with only .004% of customer accounts forwarded to collections as a result of the District's proactive efforts to identify and work with customers on problem accounts.

Ref Item K: Unexpected Asset Replacement

This report reflects three purchases for the wastewater treatment plant which were budgeted in fiscal year ending (FYE) 2019 but were not able to be installed before the end of the fiscal year. The budgeted amount in FYE 2019 went back into the working capital balance and needs to be re-appropriated for FYE 2020. The three pumps have been ordered and will be received in approximately three weeks. They include:

1. Secondary Sedimentation Tanks Drain Pump – replacement purchase due to age for \$10,515;
2. EPS #1 Wet Well Drain Pump – replacement necessary for Bay Area Air Quality Management District (BAAQMD) compliance for \$21,713; and
3. Chlorine Contact Tank Drain Pump – replacement necessary for BAAQMD compliance for \$21,713.

TITLE: Approve Continuation of Emergency Action Procurement by General Manager for Repair of the District Office and Find that the Need for the District Office Flooding Emergency Still Exists

RECOMMENDATION:

Staff recommends the Board of Directors approve, by Motion, a continuation of the Emergency Action as declared in Board Resolution No. 53-18 and find that there exists a need for continuing the District Office flooding emergency which the Board last confirmed on July 2, 2019.

SUMMARY:

On Sunday, November 11, 2018, the District Office flooded due to a leak in the fire service line. The General Manager, as the District's Emergency Manager per the District's Emergency Response Plan policy, immediately proclaimed a District State of Emergency to reduce potential further property damage due to water exposure and to minimize the time to restore core business operations.

The District Office is closed for restoration and repair. Staff is requesting the Board of Directors find that there still exists a need for continuing the State of Emergency reflected by Board Resolution No. 53-18. Expedited action, including the emergency procurement of equipment, furnishings, services, supplies, and repairs, is necessary to bring about re-occupancy of the District Office by staff at the earliest opportunity, in order to restore normal operations and core services. Delay in restoration and repair will have an unacceptable adverse impact on the services provided by the District.

Further detail on the emergency and the current state of restoration is reflected in the attached staff report.

STAFF REPORT

District Board of Directors
July 16, 2019

Approve Continuation of Emergency Action Procurement by General Manager for Repair of the District Office and Find that the Need for the District Office Flooding Emergency Still Exists

BACKGROUND

On Sunday, November 11, 2018, the District Office flooded due to a leak in the fire service line. The General Manager, as the District's Emergency Manager per the District's Emergency Response Plan policy, immediately proclaimed a District State of Emergency to reduce potential further property damage due to water exposure and to minimize the time to restore core business operations. As the Emergency Manager, the General Manager is charged with managing all emergency operations and making decisions to allocate resources and expend funds as necessary to meet the needs of the emergency.

Per the District's Purchasing policy, in case of an emergency and in accordance with Public Contract Code Section 22050, the General Manager may let contracts for any amount without giving notice for bids for repair or replacement of a public facility, take any directly related and immediate action required by that emergency, and procure the necessary equipment, services, and supplies for those purposes. On November 20, 2018, the Board of Directors adopted Resolution No. 53-18 approving emergency action procurement by the General Manager for restoration of the District Office. Per the Public Contract Code, at every regularly scheduled meeting after the initial emergency action, the Board is to review and determine by a four-fifths vote, that there is a need to continue the emergency action.

DISCUSSION

RESTORATION AND RENOVATION UPDATE

Because the District Office is over 27 years old and much of the building systems and furnishing are original, staff recommended completing a building renovation along with the flood restoration work. On February 14, 2019, the Board approved an amendment to the Capital Improvement Program (CIP) to add the District Office Renovation Project (CIP 19-A005). The restoration of the building will be paid for through an insurance claim, and the renovation work will be paid for through the CIP project.

The restoration of the subgrade and the floor slab in the southeast area of the building that was damaged by the flooding was completed by Overaa Construction on April 11, 2019.

Three task orders for the District Office Renovation Project have been issued to date. A task order for ID Architecture, in an amount not to exceed \$124,600 for design services, was executed on March 19, 2019. A second task order for Swinerton Builders, DBA Swinerton Management & Consulting was executed on the same date in an amount not to exceed \$366,178 for construction management including constructability review, design cost estimates, hazardous materials clearance, and project inspection. The city will require full-time project inspection because the building is considered an essential facility. Finally, a third task order for Sausal Corporation, in an amount not to exceed \$126,506 for pre-construction design services, was executed on April 11, 2019.

Through the emergency action procurement, the District is able to complete the work using an expedited design build process. The design drawings were submitted to the City of Dublin and Alameda County Fire Department on June 26, 2019 and July 8, 2019, respectively. Staff is in the process of finalizing contract terms with Sausal Corporation to construct the project. Upon issuance of the building and fire permits from the City of Dublin and Alameda County Fire Department, and the execution of a construction contract with the Sausal Corporation, construction will commence.

The Engineer's estimate for the project, before reimbursements from the insurer, is approximately \$3,500,000. Staff is working closely with the insurance adjuster to segregate the costs between restoration and renovation work. The insurance adjuster is evaluating the final design drawings and will stipulate the scope of work that will be covered by the insurer. The actual reimbursable amount, however, will need additional time to assess, and will be dependent on the final design plans approved by the City and the contractor's final cost estimate.

NEED FOR CONTINUING EMERGENCY

The District Office is closed until further notice. Displaced District Office staff have been assigned to the Regional Wastewater Treatment Facility, the Field Operations Facility, the utility building behind the District Office, and Dublin City Hall. District administrative operations and customer service have been hampered in the following ways:

- The Board's customary meeting place for Board meetings is unavailable for use, inconveniencing the public who might wish to attend Board meetings;
- Customer service functions related to "in-person" bill payment have been suspended, because the Field Operations Facility where the Customer Services & Billing Division has been temporarily relocated to cannot accommodate in-person payment of water and sewer bills. Thus, one form of payment (in-person) is not available to the District's customers;
- There is minimal meeting space for staff for internal meetings, to meet with developer representatives and contractors, and to confer with other agency personnel;
- Natural work efficiencies are degraded with the Engineering Department, the Administrative Services Department, the Executive Services Division, and the Communications Division working in ad hoc work spaces at the Field Operations Facility;
- Many supervisory staff have lost use of their individual offices for confidential meetings pertaining to performance management, coaching, and recruiting; and
- Through relocation of some District staff to the Field Operations Facility Training Room, space for large group training activities has been lost. Moreover, meeting space for regional meetings has been lost (neither the Boardroom nor the Field Operations Facility Training Room are available).

Based on the above consequences of the District Office being closed for restoration and repair, staff is requesting the Board of Directors find that there still exists a need for continuing the State of Emergency reflected by Board Resolution No. 53-18. Expedited action, including the emergency procurement of equipment, furnishings, services, supplies, and repairs, is necessary to bring about re-occupancy of the District Office by staff at the earliest opportunity, in order to restore normal operations and core services. Delay in restoration and repair will have an unacceptable adverse impact on the services provided by the District.

RECOMMENDATION

Staff recommends the Board of Directors approve, by Motion, a continuation of the State of Emergency as declared by Board Resolution No. 53-18 and find that there exists a need for continuing the District Office flooding emergency which the Board confirmed at the previous regularly scheduled meeting on July 2, 2019. A four-fifths vote by the Board of Directors is required to continue the State of Emergency.

TITLE: Approve Continuation of Emergency Action Procurement by General Manager for Repair of the Jeffrey G. Hansen Water Recycling Plant and Find that the Need for the Electrical Power Supply Failure Emergency Still Exists

RECOMMENDATION:

Staff recommends the Board of Directors approve, by Motion, a continuation of the Emergency Action as declared in Board Resolution No. 16-19 and find that there exists a need for continuing the electrical power supply failure emergency at the Jeffrey G. Hansen Water Recycling Plant which the Board last confirmed on July 2, 2019.

SUMMARY:

On Sunday, April 7, 2019, a catastrophic power supply failure occurred at the Jeffrey G. Hansen Water Recycling Plant due to a ground fault in the external electrical bus ducting connecting the main transformer to switchgear in Building M (also known as west cable bus duct). This loss of power primarily affected the Effluent Pumps (EPS2), the Tertiary Influent Pumps (TIPS), the recycled water ballasted flocculation and sand filters, and supervisory control and data acquisition (SCADA) equipment in Building M, reducing production output from the water recycling plant by approximately 80 percent.

At a special Board meeting on April 16, 2019, the DERWA Board of Directors authorized emergency actions and expenditures necessary to make all repairs, up to \$1,000,000.

The Jeffrey G. Hansen Water Recycling Plant continues to produce uninterrupted recycled water to meet the system demands by the use of a rental portable emergency generator from Peterson Power Systems Inc.

The west cable bus duct is back on utility power, repair of the metal siding on Building M is complete, and safety signage has been placed on the new enclosure. The purchase order for repair of the east-side power connections has been issued, and contractor will now begin fabrication of the equipment with actual repair scheduled in November when recycled water demand is less.

To date, District staff has logged 558.5 hours of labor for this emergency. Purchase orders in the amount of \$525,598 (including the repair of the east-side bus) have been issued to date, of which \$325,513 have been spent and a total of \$3,547 have been paid out of existing blanket purchase orders. Attachment 1 provides the cost summary in details.

A four-fifths vote is necessary to extend the emergency.

TITLE: Approve Intention to Levy Assessments in the Dougherty Valley Standby Charge District 2001-1 for Fiscal Year Ending 2020

RECOMMENDATION:

Staff recommends the Board of Directors approve, by Resolution, the intention to levy assessments in the Dougherty Valley Standby Charge District and set a public hearing for August 6, 2019.

SUMMARY:

The Zone 7 Water Agency (Zone 7) assesses parcel owners in its service area for a proportionate share of California Department of Water Resources (DWR) State Water Project (SWP) costs via the Alameda County property tax roll. Since Zone 7 does not have authority to assess Contra Costa County parcel owners, DSRSD established the Dougherty Valley Standby Charge District 2001-1 (DVSCD) to recover their share of SWP costs on Zone 7's behalf. SWP costs assessed to DVSCD parcel owners on the Contra Costa County property tax roll are collected by DSRSD and then remitted directly to Zone 7.

Each year, Zone 7 provides estimated SWP costs specifically tied to providing water service to Dougherty Valley. In fiscal year ending 2019 (FYE 2019), the SWP charges to Zone 7 were \$25.3 million, with Dougherty Valley's share being \$1,817,140. For FYE 2020, Zone 7 budgeted SWP costs to be \$25.7 million, with Dougherty Valley's share to be \$2,024,319. The projected Dougherty Valley Surcharge calculation prepared by Zone 7 for FYE 2020 is provided as Attachment 1.

An Engineer's Report is prepared annually that shows a projection of the costs expected to be incurred in the upcoming fiscal year and the allocation of those costs based upon equivalent dwelling units (EDU) is provided in Attachment 2. Based on this report, the annual assessment for DVSCD for FYE 2020 will remain at the maximum allowed of \$170.75 per EDU, or \$1,584,259.

The maximum allowed assessment is less than the estimated SWP costs. On June 18, 2019, the Board established the Dougherty Valley Incremental State Water Project Charge (DV Incremental SWP Charge) to recover SWP costs above the maximum allowed assessment. A DV Incremental SWP Charge Report will be prepared separately from the Engineer's Report.

The Board first adopts a resolution of intention to levy annual assessments, followed by a public hearing scheduled for August 6, 2019. After the public hearing, the Board adopts the Engineer's Report and directs the levy of the assessment. These assessments are then placed on the Contra Costa County property tax roll.

This action is the first action that must be taken by the Board each year in order to levy assessments.

1. ENGINEER'S LETTER

WHEREAS, on May 1, 2001, the Board of Directors (the "Board") of the Dublin San Ramon Services District (the "District"), County of Contra Costa, State of California, under the Uniform Standby Charge Procedures Act, being Chapter 12.4 (commencing with Section 54984) of Part 1, Division 2 of Title 5 of the California Government Code (the "Act"), adopted its Resolution to Initiate Proceedings to Fix Standby Charges (the "Resolution to Initiate") for the fixing of Standby Charges to pay certain costs of the District incurred or to be incurred by the District as of certain agreements between the District and Alameda County Flood Control and Water Conservation District, Zone 7 to serve California State Water Project to the Dougherty Valley; and

WHEREAS, the Board desires to fix a maximum Standby Charge for each Equivalent Dwelling Unit (EDU) of the Dougherty Valley Service area; and

WHEREAS, the District's cost obligation to Zone 7 includes the annual payments to Zone 7 for 6,080 acre feet of State Water Project water for Zone 7 and annual payments to Zone 7 for 43,000 acre feet of water storage in Semitropic Water Storage Directory ("Semitropic"); and

WHEREAS, the Board desires to collect the money necessary to make required Zone 7 payments under provisions of the Act; and

WHEREAS, the Resolution to Initiate directed the undersigned to make and file a report presenting those materials specified in Section 54984.3 of the Act, to which Resolution to Initiate reference is hereby made for further particulars; and

WHEREAS, the Act provides that any Standby Charges imposed thereunder are deemed to be assessments and this Report presents such Standby Charges as and denominates them as "Assessments";

NOW, THEREFORE, the following Assessment is made to cover the annual costs of the charges and the costs and expenses incidental thereto:

I, the undersigned, do hereby assess and apportion the total assessment of the total cost of the acquisitions, work and improvements upon the several lots, pieces or parcels or portions of lots or subdivisions of land liable therefore and benefited thereby, and hereinafter numbered to correspond with the numbers upon the attached assessment diagram, upon each, severally and respectively, in accordance with the benefits to be received by such subdivisions, respectively, from the Assessments, and more particularly set forth in the list hereto attached and by reference made a part hereof.

The Assessment is made upon the several subdivisions of land within the Dougherty Valley Standby Charge District 2001-1 (the "Standby Charge District") in proportion to the estimated benefits to be received by the subdivisions, respectively, from the Assessments. An Assessment Diagram for the Standby Charge District has been submitted to the District Secretary in the format required under the provisions of the Act. The lines and dimensions shown on maps of the County Assessor of the County of Contra Costa for the current year are incorporated by reference herein and made part of this Report.

Each subdivision of land assessed is described in the Assessment Roll by reference to its parcel number as shown on the Assessor's Maps of the County of Contra Costa for Fiscal Year 2019/20 and includes all of such parcel excepting those portions thereof within existing public roads or right of way to be acquired in these proceedings for public road purposes. For a more particular description of said property, reference is hereby made to the deeds and maps on file and of record in the office of the County Recorder of the County of Contra Costa.

3. ASSESSMENTS

The actual assessment and the amount of the Assessment for Fiscal Year 2019/20 apportioned to each parcel as shown on the latest equalized roll at the County Assessor's office are listed in Section 5 of this Report. The description of each lot or parcel is part of the records of the County Assessor of the County of Contra Costa and such records are, by reference, made part of this Report.

Method of Apportionment

The Assessments are apportioned according to the special benefits received by the lots, pieces, and parcels of land within the Standby Charge District. The proportionate benefit derived by each parcel is determined in relationship to the entirety of the Standby Charges. No assessment has been apportioned on any parcel that exceeds the reasonable cost of the proportional benefit conferred on that parcel.

Under this Report the Assessments for the Standby Charge District are apportioned in accordance with the foregoing and using the following criteria.

The Assessments for each parcel of land were apportioned based on the number of projected EDUs for build-out within that parcel.

For this purpose, a single family detached dwelling unit is equal to 1.0 EDU, a multi-family attached dwelling unit is equal to .40 EDU, and each acre of commercial land is equal to 4.0 EDU.

With respect to Windemere Ranch, the number of EDUs per parcel were originally determined at the time of district formation from the approved tentative subdivision maps for Phase 1, and for future phases, the number of EDUs per parcel were estimated by evenly distributing the remaining approved dwelling units within the project per the Dougherty Valley Specific Plan over the developable acreage within each parcel because the zoning is the same. No EDUs were assigned to parks, schools or open space areas. For this Report, the estimate of EDUs per parcel was updated based on current development for parcels that were subdivided.

With respect to Gale Ranch, the number of EDUs per parcel was originally determined at the time of district formation from the approved tentative subdivision map for Phase 2, and the tentative subdivision map dated May 27, 2001, submitted to the Contra Costa County for review for Phase 3. For the remaining areas of Gale Ranch (Phase 4), the number of EDUs was estimated based on the total approved dwelling units and non-residential land uses per the Dougherty Valley Specific Plan. No EDUs were assigned to parks, schools, or open space areas. For this Report, there have been no subdivisions or changes to the assumptions.

(Note: Phase 1 of Gale Ranch is not included in the Standby Charge District)

4. ASSESSMENT BOUNDARY MAP

An Assessment Diagram for the Standby Charge District has been submitted to the Secretary of the Board in the format required under the provisions of the Act. The lines and dimensions shown on maps of the County Assessor of the County of Contra Costa for the current year are incorporated by reference herein and made part of this Report. TITLE: Receive Presentation on Public Safety Power Shutoffs

RECOMMENDATION:

Staff recommends the Board of Directors receive a presentation on Public Safety Power Shutoffs (PSPS).

SUMMARY:

In early 2018, following significant statewide wildfires in the prior year, the California Public Utilities Commission began developing regulations that would allow investor-owned utilities such as PG&E to preemptively de-energize power lines to prevent wildfires. Later in 2018, the State Legislature enacted Senate Bill 901 which required all electric utilities to prepare wildfire mitigation plans. The utilities, including PG&E, have developed a program called the Public Safety Power Shutoff (PSPS) to proactively turn off power lines under high-risk fire conditions.

A PSPS event is activated in order to avoid ignition of a wildfire when dangerous meteorological conditions exist: low humidity, sustained high winds, high temperatures, and dry vegetation. The District may receive only a few hours' notice of a PSPS event, and depending on the severity of the weather and other factors, a PSPS may last for several hours or days. While customers in high fire-threat areas are more likely to be affected, a PSPS event could impact any PG&E customer. This is because the energy system relies on power lines working together to provide electricity across cities, counties, and regions.

Staff has evaluated the impact of a PSPS on the water and wastewater service and is developing mitigation plans. The District's potable water distribution system has 16 operational pump stations. These facilities have no permanent standby emergency generators and only three portable trailer-mounted emergency generators (one rated 225 kW and two rated 125 kW). Staff is reviewing generator rental and purchase options to determine the best alternatives to expand our emergency power generation capabilities to respond to a PSPS by the end of 2019.

There are no plans at this time to provide emergency power for recycled water treatment and distribution during a PSPS, as DSRSD's priority in a PSPS will be to maintain potable water service, which will likely require the support of all available operations staff. It should be noted that through the DERWA Agreement for the Sale of Recycled Water by DERWA to DSRSD and EBMUD, Article IV Recycled Water Supply Shortage Provisions, the DERWA member agencies acknowledge that DERWA may be unable to supply recycled water demands for reasons including, but not limited to, treatment facility upsets and acts of God.

The Regional Wastewater Treatment Plant currently has backup generators. LAVWMA provides wastewater disposal and staff is supporting LAVWMA in a review of storage and emergency power options.

Other elements of the District's mitigation plan include operational adjustments and outreach. Staff will attempt to maximize potable reservoir storage levels during periods when a PSPS is imminent. Prior to a PSPS event, staff will do the following: develop key messages for customers, the media, and the Board; distribute a letter and PSPS fact sheet to all customers; create a page on the District website about PSPS; and, post information on social media platforms. During a PSPS event, the District will coordinate with PG&E, activate the Emergency Operations Center, and encourage customers to minimize discretionary water use during the PSPS event in order to maintain storage in the distribution reservoirs.
