8. BOARD BUSINESS

- 8.A. Approve Continuation of District's State of Emergency in Response to COVID-19 Pandemic by General Manager and Find that the Need for the District's State of Emergency Still Exists

Assistant General Manager Lee reviewed the item for the Board. She reported that staff continues to monitor county orders and modify operational procedures to conform to evolving requirements. The District's Exposure Control Plan implementation is underway and staff training will be conducted. DSRSD has not had any positive cases, but staff is cognizant the District will eventually be impacted as the virus continues to spread in the region. Staff has been overextended for some time due to position vacancies and continues to be stretched working under the current emergency conditions. The mutual aid agreements between the District and Tri-Valley agencies may not offer relief when needed as all agencies are dealing with overextended staff. Staff continues to closely monitor customer billing and operating revenue – customers continue to pay their bills and operating revenues are also tracking as expected with only slight variations.

Director Halket MOVED to Approve Continuation of District's State of Emergency in Response to COVID-19 Pandemic by General Manager and Find that the Need for the District's State of Emergency Still Exists. Director Vonheeder-Leopold SECONDED the MOTION, which CARRIED with FOUR AYES and ONE ABSENT (Howard) per roll call vote.

- 8.B. Approve Intention to Levy Assessments in the Dougherty Valley Standby Charge District 2001-1 for Fiscal Year Ending 2021

Administrative Services Manager Atwood reviewed the item for the Board.

The Board and staff further discussed the history and purpose of the assessment. The assessment district was created in order for Zone 7 Water Agency (Zone 7) to provide

water service to the Dougherty Valley because East Bay Municipal Utility District declined to do so. DSRSD collects the assessment from its customers in Dougherty Valley on the Contra Costa County property tax roll and passes it through to Zone 7 in Alameda County to cover the State Water Project costs Zone 7 incurs to provide water in that area. General Manager McIntyre stated that Zone 7 assesses this service charge to all its customers via the Alameda County property tax roll, but cannot do so in Contra Costa County, thus the purpose of the assessment district.

Director Vonheeder-Leopold MOVED to Approve Resolution No. 41-20, Intention to Levy Assessments in the Dougherty Valley Standby Charge District 2001-1 for Fiscal Year Ending 2021. Vice President Johnson SECONDED the MOTION, which CARRIED with FOUR AYES and ONE ABSENT (Howard) per roll call vote.

8.C. Adopt Revised Water Recycling Policy and Rescind Resolution No. 37-10

Engineering Services Manager Zavadil reviewed the item for the Board. This item was carried over from the June 16 Board meeting per the Board's request to provide ample time to consider a revised policy.

Director Halket MOVED to Adopt Resolution No. 42-20, Revising the Water Recycling Policy and Rescinding Resolution No. 37-10. Director Vonheeder-Leopold SECONDED the MOTION, which CARRIED with FOUR AYES and ONE ABSENT (Howard) per roll call vote.

8.D. Discussion and Direction on Financial Response to COVID-19 Pandemic

General Manager McIntyre and Engineering Services Manager Zavadil reviewed the item for the Board and referred to slides that illustrated information included in the agenda item.

The Board and staff discussed the District's current financial status and health of the operating and capital funds, planned spending for the operating and capital budgets, and the potential impacts should there be a decline in revenue (residential and commercial account payments, sewer charge payments via property tax roll, sewer service payments from City of Pleasanton, and developer fees). The Board expressed particular concern regarding commercial revenue loss if businesses close, and sewer payment decline if Pleasanton residents slow payments. The Board requested staff provide a monthly financial report to the Board including an outlook on connection fees and Pleasanton revenue, as well as a financial stress test of operating funds, so the District can be proactive and make decisions in the right timing. General McIntyre confirmed that the requested information will be provided in the General Manager's report.

The Board discussed planned spending for maintenance and capital projects, noting that the District is still catching up on maintenance deferred during the 2008–09 recession to avert failures, and moving forward with project design will be to the District's advantage even if construction must be delayed. The Board and staff also discussed the District's reaction to the recession, observing it was caused by a sudden financial crisis that caused the District to quickly shift operational funds to pay debt and implement a reduction in staffing; the current pandemic emergency is more slowly evolving so the District can monitor things and make decisions proactively. The Board and staff also discussed

various potential cost-saving measures that could be considered should future revenue trends call for it, but determined that outside of the recommended purchasing deferrals this evening, that no such actions are necessary at this time.

Vice President Johnson MOVED to Direct Staff to Defer the Purchase of a \$500,000 CCTV Truck and an \$11,000 Maintenance Cart until these Purchases can be Re-evaluated as Part of the FYE 2022 Budget Process, and Direct Staff to Bring an Update on the Financial Condition of the Operating Funds to the Board on a Monthly Basis. Director Halket SECONDED the MOTION, which CARRIED with THREE AYES, ONE NO (Vonheeder-Leopold), and ONE ABSENT (Howard) per roll call vote.

9. BOARDMEMBER ITEMS

- Submittal of Written Reports for Day of Service Events Attended by Directors – None

Director Halket reported he delivered prize checks and lawn signs to three Dublin High School students on Tuesday, June 23 for their first place award in the Alameda County Science and Engineering Fair regarding microplastics removal in the ocean.

TITLE: Approve Revisions to Mid-Cycle Operating Budget Adjustments for Fiscal Years Ending 2020 and 2021

RECOMMENDATION:

Staff recommends the Board of Directors approve, by Resolution, revisions to mid-cycle operating budget adjustments for fiscal years ending (FYE) 2020 and 2021.

SUMMARY:

On June 16, 2020, by Resolution No. 38-20 (Attachment 1), the Board of Directors approved mid-cycle operating budget adjustments for FYE 2020 and FYE 2021. The budget adjustments included consolidation of operating expenses in capital funds into their respective operation funds. The consolidation was intended to provide greater transparency by keeping all operating expenses in operation funds and leaving only capital-related costs in capital funds. Staff inadvertently listed two operating expenses that were either transferred to the wrong fund or duplicative to another adjustment in the original proposed mid-cycle interfund budget adjustments.

In addition, some of the carryforward and new budget adjustments impacted Fund 900 (Administrative Cost Center), which allocates District-wide costs proportionately to other funds. Staff is proposing to revise allocations to reflect the additional expenses charged to Fund 900.

The net result of the proposed budget revisions is \$0 for FYE 2020 and FYE 2021.

TITLE: Approve Continuation of District's State of Emergency in Response to COVID-19 Pandemic by General Manager and Find that the Need for the District's State of Emergency Still Exists

RECOMMENDATION:

Staff recommends the Board of Directors receive a verbal update on the COVID-19 emergency and approve, by Motion, a continuation of the State of Emergency response to the COVID-19 pandemic, as declared by the General Manager and confirmed and ratified by Resolution No. 26-20, and find that there exists a need for continuing the District's COVID-19 emergency which the Board last confirmed on July 7, 2020.

SUMMARY:

On March 4, 2020, Governor Gavin Newsom of California proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19, a coronavirus. On March 13, 2020, President Donald Trump declared a National Emergency as a result of the threat of COVID-19.

On March 16, 2020, the public health officers of Alameda and Contra Costa Counties issued a legal order directing their respective residents to shelter in place (SIP) and limiting activity, travel, and business functions to the most essential needs. The SIP order provided an exception for the operations and maintenance of "Essential Infrastructure," which includes, but is not limited to, water, wastewater, and recycled water service. Since most District facilities are located within Alameda County, emergency response plans have been based on the Alameda County SIP order. The Alameda County public health officer has issued updated SIP orders on March 31, April 29, May 18, June 5, June 18, and July 19 in response to changing conditions. The Alameda County SIP orders require employers to implement physical distancing and other safety measures to limit the spread of COVID-19 in the workplace. The latest SIP order has no specified termination date and will continue to be updated periodically.

On March 16, 2020, the General Manager, as the District's Emergency Manager per the Emergency Response Plan policy (P300-16-2), declared a District State of Emergency to allow for essential operations to continue, and to ensure operational flexibility in meeting the challenges of COVID-19, while providing vital water and sewer services that are needed to protect public health and the environment.

On March 19, 2020, Governor Newsom issued Executive Order N-33-20 ordering all individuals living in California to stay home at their place of residence, with certain exceptions for critical services and other qualifying exceptions. On April 29, Governor Newsom issued a four-stage roadmap for gradually relaxing the stay-at-home order, provided that counties meet certain indicators and implement actions to control the threat of COVID-19. Alameda County is currently in Stage 2, which allows for the gradual reopening of lower risk workplaces with adaptations. Due to recent increases in COVID-19 case and hospitalization rates, Alameda County's reopening plans have been paused since June 29.

On March 25, 2020, the Board of Directors approved Resolution No. 26-20, which confirmed the continuation of the District State of Emergency, and directed the General Manager to report on progress at least at every regularly scheduled meeting until the State of Emergency is terminated.

District emergency planning has been aggressively implemented. In compliance with state and local public health orders, half of the District's staff are working a vast majority of their time from home, but all critical operations needed to protect public health and the environment continue.

The COVID-19 emergency continues in our service area. To assure proper staffing and support of critical operational functions, staff is requesting the Board find that there still exists a need to continue the State of Emergency reflected by Resolution No. 26-20.

TITLE: Public Hearing: Adopt Engineer's Report and Direct Levy of Annual Assessments in the Dublin San Ramon Services District Dougherty Valley Standby Charge District 2001-1 for Fiscal Year Ending 2020-2021

RECOMMENDATION:

Staff recommends the Board of Directors hold a public hearing and adopt, by Resolution, the Engineer's Report and direct the levy of annual assessments in the Dublin San Ramon Services District Dougherty Valley Standby Charge District 2001-1 for fiscal year ending 2020–2021.

SUMMARY:

Each year, the Zone 7 Water Agency provides estimated costs associated with the California Department of Water Resources (DWR) State Water Project (SWP) specifically associated with providing water service to the Dougherty Valley area in the City of San Ramon. An Engineer's Report is prepared annually that determines projected costs to be incurred in the upcoming fiscal year and the allocation of those costs based upon equivalent dwelling units (EDUs). The Board initially adopts a resolution of intention to levy annual assessments, followed by a public hearing at the next Board meeting. After the public hearing, the Board adopts the Engineer's Report and directs the levy of the assessments. These assessments are then placed on the Contra Costa County secured property tax roll.

The annual assessments for fiscal year ending 2020–2021 is \$1,303,941.96 for 7,636.916 EDUs or \$170.75 per EDU.

This action must be taken by the Board in order to levy assessments in the Dougherty Valley Standby Charge District 2001-1 for fiscal year ending 2020–2021. The Board adopted the Resolution of Intention on July 7, 2020, which is required prior to adopting the Engineer's Report and directing the levy. Notices were published in the local newspaper on July 16, 2020 and July 21, 2020.

3. ASSESSMENTS

The actual assessment and the amount of the Assessment for Fiscal Year Ending 2020/21 apportioned to each parcel as shown on the latest equalized roll at the County Assessor's office are listed in Section 5 of this Report. The description of each lot or parcel is part of the records of the County Assessor of the County of Contra Costa and such records are, by reference, made part of this Report.

3.1 Method of Apportionment

The Assessments are apportioned according to the special benefits received by the lots, pieces, and parcels of land within the Standby Charge District. The proportionate benefit derived by each parcel is determined in relationship to the entirety of the Standby Charges. No assessment has been apportioned on any parcel that exceeds the reasonable cost of the proportional benefit conferred on that parcel.

Under this Report the Assessments for the Standby Charge District are apportioned in accordance with the foregoing and using the following criteria.

The Assessments for each parcel of land were apportioned based on the number of projected EDUs for build-out within that parcel.

For this purpose, a single family detached dwelling unit is equal to 1.0 EDU, a multi-family attached dwelling unit is equal to .40 EDU, and each acre of commercial land is equal to 4.0 EDU.

With respect to Windemere Ranch, the number of EDUs per parcel were originally determined at the time of district formation from the approved tentative subdivision maps for Phase 1, and for future phases, the number of EDUs per parcel were estimated by evenly distributing the remaining approved dwelling units within the project per the Dougherty Valley Specific Plan over the developable acreage within each parcel because the zoning is the same. No EDUs were assigned to parks, schools or open space areas. For this Report, the estimate of EDUs per parcel was updated based on current development for parcels that were subdivided.

With respect to Gale Ranch, the number of EDUs per parcel was originally determined at the time of district formation from the approved tentative subdivision map for Phase 2, and the tentative subdivision map dated May 27, 2001, submitted to the Contra Costa County for review for Phase 3. For the remaining areas of Gale Ranch (Phase 4), the number of EDUs was estimated based on the total approved dwelling units and non-residential land uses per the Dougherty Valley Specific Plan. No EDUs were assigned to parks, schools, or open space areas. For this Report, there have been no subdivisions or changes to the assumptions.

(Note: Phase 1 of Gale Ranch is not included in the Standby Charge District)

4. ASSESSMENT BOUNDARY MAP

An Assessment Diagram for the Standby Charge District has been submitted to the Secretary of the Board in the format required under the provisions of the Act. The lines and dimensions shown on maps of the County Assessor of the County of Contra Costa for the current year are incorporated by reference herein and made part of this Report. TITLE: Public Hearing: Adopt Annual Dougherty Valley Incremental State Water Project Charge Report and Direct the Levy of the Dougherty Valley Incremental State Water Project Charge for Non-Governmental Parcels on the Contra Costa County Secured Property Tax Roll and for Government Potable Water Customers on Utility Bills

RECOMMENDATION:

Staff recommends the Board of Directors hold a Public Hearing and adopt, by Resolution, the Annual Dougherty Valley Incremental State Water Project Charge Report (the “DV Report”) and direct the levy of the Dougherty Valley Incremental State Water Project Charge (the “DV Incremental SWP Charge”) for non-governmental parcels on the Contra Costa County secured property tax roll and for government potable water customers on utility bills.

SUMMARY:

On June 18, 2019, the Board of Directors adopted Resolution No. 22-19, establishing the DV Incremental SWP Charge under Section 4.40.010 and 4.40.020 of the District Code. The charge was established to recover the increment costs that exceeds the maximum Standby Charge Assessment Fee that can be recovered from the Dougherty Valley Standby Charge District 2001-1 (“DVSCD”). The Board directed staff to prepare an annual DV Report to determine the amount of the DV Incremental SWP Charge to be charged proportionately to all parcels within DVSCD.

Under the provisions of Section 4.40.120 (*Collection of water charges by use of tax roll*) of the District Code, the District may elect to use the tax roll for the collection of water service charges and fees or charges for other services related to water service, whether delinquent or not, for collection with and at the same time and in the same manner as property taxes, the proceedings shall be those set forth in Section 5473 of the California Health and Safety Code or those set forth in Section 61115(b) of the California Government Code.

Staff contracted with NBS to prepare the DV Report for fiscal year ending 2020–2021 describing each affected parcel of real property and the applicable charges for the forthcoming fiscal year to be collected on the property tax roll. The total annual incremental charge is \$303,798.94 or \$37.22 per equivalent dwelling unit (EDU). This action must be taken by the Board annually if levying the DV Incremental SWP Charge on the secured property tax roll in the County of Contra Costa for fiscal year ending 2020–2021.

On April 16, 2020, a written notice of the incremental charge for fiscal year ending 2020–2021 was mailed to Dougherty Valley parcel owners. The adjusted rates for the forthcoming year are posted on the District website. In addition, notices were also published in the local newspaper on July 16 and 21, 2020.

1. INTRODUCTION

On May 1, 2001, the Board adopted Resolution No. 14-01, a Resolution Initiating Proceedings for the Levy of Standby Charges, and in it directed the preparation and filing of a report in writing (the “Engineer’s Report”) in accordance with and pursuant to Article XIII D of the California Constitution and the Uniform Standby Charge Procedures Act, Sections 54984 et seq., of the California Government Code (together, the “Act”) in and for the District’s Dougherty Valley Standby Charge District 2001-1 (the “Assessment District”).

Resolution No. 14-01 contemplated that the Standby Charges to be established based on the Engineer’s Report would be used to pay certain costs of the State Water Project incurred by the District under certain agreements between the District and Alameda County Flood Control and Water Conservation District, Zone 7 (Zone 7) regarding the provision of potable water service in Dougherty Valley in Contra Costa County.

For all District customers located in Alameda County, the corresponding costs of the State Water Project are collected directly by Zone 7 on the property tax rolls, but because Zone 7 lacks authority to collect these costs on the property tax rolls in Contra Costa County, it was necessary for the District to use another mechanism to collect those costs as a condition of the District being allowed to serve to the Dougherty Valley water delivered to Zone 7 from the State Water Project.

On June 19, 2001, after a duly noticed and held public hearing, by Resolution No. 20-01, the Board approved the establishment of the contemplated Assessment District and approved the Engineer’s Report with respect thereto and authorized the levy of assessments for Standby Charges (the “Assessments”) in the Assessment District to pay for certain costs of the State Water Project in amounts not to exceed those provided in the Engineer’s Report.

The Engineer’s Report calculated a maximum Standby Charge of \$170.75 for each Equivalent Dwelling Unit (EDU) within the Assessment District, which was the amount of the Charge for which notice was provided pursuant to Proposition 218 in connection with the June 19, 2001 hearing.

Beginning in fiscal year 2019/2020, these State Water Project costs, when spread over the EDUs within the Assessment District, are projected to exceed the maximum Standby Charge specified in the notice provided pursuant to Proposition 218 in connection with the June 19, 2001 hearing.

On June 18, 2019, a public hearing was held and the Board established a Dougherty Valley Incremental State Water Project Charge (DV Incremental SWP Charge) to recover State Water Project costs that, when spread over the EDUs within the Assessment District, would exceed the maximum Standby Charge.

Sections 4.40.010 and 4.40.020 of the District Code allows the Board of Directors to establish a water use charge by separate ordinance or resolution.

Section 4.40.120 of the District Code allows the Board of Directors to elect to use the tax roll for the collection of water service charges and fees or charges for other services related to water service, whether delinquent or not, for collection with and at the same time and in the same manner as property taxes.

The Board desires to levy the DV Incremental SWP Charge for non-governmental parcel owners in the Assessment District on the Contra Costa County property tax roll.

The Board desires to charge governmental potable water customers a proportionate share of SWP Charges on their utility bills.

The following is made to cover the annual costs and expenses related to the DV Incremental SWP Charge.

TITLE: Receive Report on Low Income Assistance (LIA) Program and Provide Direction

RECOMMENDATION:

Staff recommends that the Board of Directors receive a report on the District's Low Income Assistance (LIA) Program and provide direction to staff.

SUMMARY:

On October 5, 2010, the Board of Directors adopted Resolution No. 41-10 to provide rate relief to customers experiencing financial hardship in an amount equal to a percentage of the Fixed Meter Fee. The Board determined, at that time, to set the percentage at 100%, and to review and adjust the percentage on an annual basis. The fixed fee is currently \$35.16.

As of June 2020, 251 households were enrolled in the program with an estimated program cost of approximately \$53,000. The program participants have increased over the past two years due to public outreach efforts and the current COVID-19 situation.

The table below provides the LIA expenditures per fiscal year since inception of the program and in total:

Fiscal Year Ending	LIA Expenditures
2011	\$ 3,645.44
2012	\$ 12,525.14
2013	\$ 12,744.63
2014	\$ 16,756.97
2015	\$ 18,536.43
2016	\$ 26,114.60
2017	\$ 34,907.25
2018	\$ 35,522.34
2019	\$ 46,212.99
2020	\$ 52,950.96
Total	\$259,916.75

Staff is recommending no change in the current program. The program has been well received and is at the maximum rate relief provided under the resolution. In addition, it is paid for by "non-rate revenues" received from the lease of the District's cell towers, and thus compliant with the requirements of Proposition 218. It should be noted that the provisions of Proposition 218 (Articles XIIC and XIID of the California Constitution) prohibit explicit subsidies of one class of ratepayers by other classes of ratepayers. Thus, it is not permissible for this program to be funded through water rates.

TITLE: Discussion and Direction on Regional Wastewater Enterprise Finances

RECOMMENDATION:

Staff recommends the Board of Directors receive a presentation on the finances of the Regional Wastewater Enterprise and provide direction.

SUMMARY:

At the July 7, 2020 Board meeting, the Board of Directors requested information on the financial condition of the District's operating and rate stabilization funds, in light of regional economic stress arising from the COVID-19 pandemic. The District operates three separate enterprises: the Local Wastewater Enterprise, the Regional Wastewater Enterprise, and the Water Enterprise. This Board agenda item reviews the status of the Regional Wastewater Enterprise (Fund 300 and Fund 305) in detail.

The attached staff report provides background and updates on the following related major topics:

- Review of District's Financial Reserves policy
- Review of the 10-Year Financial Planning Model for the Regional Wastewater Program (Funds 300 and 305)
- Economic stress test applied to the Regional Wastewater Enterprise
- Potential future budget strategies for economic uncertainties
- Review of the Regional Wastewater Enterprise's expenditures and transfers for fiscal year ending (FYE) 2021.

The results of an economic stress test arising as a result of the COVID-19 pandemic indicate that working capital for the Regional Wastewater Enterprise that is currently well above the target reserve could fall below the target reserve level in FYE 2021, and could decline to below minimum reserve levels after six years. However, there are a number of short-term and long-term business management strategies the District can implement to keep the reserves continuously above the reserve minimum level. Moreover, implementation of these recovery strategies restores reserves to target levels by FYE 2028.

Further information on the Local Wastewater Enterprise and the Water Enterprise will be provided later this year.

Discussion and Direction on Regional Wastewater Enterprise Finances

BACKGROUND

At the July 7, 2020 Board meeting, the Board of Directors requested additional information on the financial condition of the District's operating and rate stabilization funds, in light of regional economic stress arising from the COVID-19 crisis. This report provides background and updates on the following related major topics:

1. Review of District's Financial Reserves policy
2. Review of 10-Year Financial Planning Model for the Regional Wastewater Program (Funds 300 and 305)
3. Economic stress test on the Regional Wastewater Program
4. Potential future budgetary adjustment strategies to manage economic stress
5. Review of the Regional Wastewater Enterprise's expenditures and transfers for fiscal year ending (FYE) 2021

A report on the Local Wastewater Enterprise and the Water Enterprise will be presented at a later time.

DISCUSSION

1. Financial Reserves Policy Overview

In the aftermath of the Great Recession, the Board of Directors adopted a formal Financial Reserves policy on April 19, 2011. The latest 2015 version is attached to this staff report (Attachment 1). The stated purpose of the policy is to designate *"financial reserves in order to protect the District's investment in its various assets, satisfy its commitments under its numerous financial, regulatory and contractual obligations and to stabilize long-term rates for its customers."*

The Financial Reserves policy specifies four types of reserves: operating reserves, rate stabilization fund reserves, capital asset replacement and improvement reserves, and capital expansion reserves. This report focuses on the first two: operating reserves and rate stabilization reserves.

Operating Reserves

By Board policy, the purpose of *"operating reserves is to ensure adequate cash is available when needed to pay the District's normal and recurring operating costs."* The Operating reserve, within the Operations Fund, is meant to address cash flow issues arising from timing issues of revenues and expenditures, and to address typical emergencies where some additional costs might be incurred by the District, or there might be a delay in revenues received. The Financial Reserves policy specifies a target level for reserves, a minimum level for reserves, and a maximum level for reserves, as follows:

- **Minimum Level of Reserves:** Operating Reserves to equal two months of budgeted operating expenses for each operating fund.

- **Target Level of Reserves:** Operating Reserves to equal four months of budgeted operating expenses for each operating fund.
- **Maximum Level of Reserves:** Operating Reserves to equal six months of budgeted operating expenses. Any reserves accumulated above this level are to be transferred to that enterprise's Rate Stabilization Fund.

The following table compares the District's operating reserve policies with some neighboring agencies:

Table 1: Operating Reserve Policy Comparison

	DSRSD	Zone 7	Pleasanton	Livermore
Minimum	2 months	2 months	3 months	N/A
Target	4 months	N/A	N/A	3 months
Maximum	6 months	4 months	5.5 months	N/A

As can be inferred from this table, DSRSD's Operating Reserves are modestly more conservative than some of its sister agencies.

DSRSD's Regional Wastewater Operations fund (Fund 300) has an estimated ending working capital of \$9.12 million for FYE 2020, or 5.37 months of reserves. It should be noted that over the last two fiscal years the Regional Wastewater Operations fund reserve exceeded the policy maximums, and \$3.40 million was transferred to the Rate Stabilization fund to bring the operating reserves down to the approved maximum level.

Rate Stabilization Reserves

The stated policy purpose of the *"Rate Stabilization Fund (RSF) Reserves is to support the Board's Strategic goal to manage public funds to assure financial stability, including stability of revenues and the rates and charges to each enterprise."* The intent is to smooth out rate adjustments from year to year when significant events occur, such as natural disasters, or there is a prolonged major slowdown of development which funds debt service through the various expansion funds. Rather than have sudden dramatic rate increases to address unanticipated major working capital shortfalls (lower revenues, higher expenditures, or coverage of expansion debt), these reserves provide resources to mitigate the impacts of extreme economic events. These reserves serve as both an emergency reserve for the District, as well as a resource for the Board to utilize to reduce or smooth future rate increases. The Financial Reserves policy specifies a target level of RSF reserves, a minimum level for reserves, and a maximum, as follows:

- **Minimum Level of Reserves:** Rate Stabilization Reserves to equal two months of budgeted operating expenses for each rate stabilization fund.
- **Target Level of Reserves:** Rate Stabilization Reserves to equal four months of budgeted operating expenses for each rate stabilization fund.
- **Maximum Level of Reserves:** The maximum balance by policy operates in a slightly more complex way. The balance in the RSF, when added to the balance in the Operating Reserve should not exceed 12 months of operating expenses. If there is a surplus beyond this maximum, staff is required to make a recommendation on how the excess funds are to be used. Thus, depending on the current balance in the Operating Reserves, the Rate Stabilization Fund Reserves could vary from 6 months of budgeted operating expenses to 10 months of budgeted operating expenses (if operating reserves were at a minimum level).

The following table compares the District's rate stabilization policy levels with some neighboring agencies:

Table 2: Rate Stabilization Policy Comparison

	DSRSD	Zone 7	Pleasanton	Livermore
Minimum	2 months	N/A	N/A	N/A
Target	4 months	1.8 months of annual revenues	N/A	N/A
Maximum	12 months combined with Operations Reserve	N/A	N/A	N/A

As can be seen, many agencies do not have an RSF, or if they do, it is less conservative than DSRSD's reserve. Thus, these agencies rely primarily or exclusively on the operating fund reserve to smooth out fluctuations in the fund balance.

DSRSD's Regional Wastewater RSF has \$9.00 million of budgeted reserves at the end of FYE 2020, or 5.39 months of reserves, that when combined with the Operating Reserves places the balance in this RSF near the policy maximum (11.30 months). It should be noted that over the last two fiscal years the Regional Wastewater RSF reserve exceeded the policy maximums, and \$3.4 million was drawn down and used in other areas (pre-payment of long-term obligations and accelerated transfer to the Regional Capital Replacement fund as approved by the Board).

2. Regional Wastewater Enterprise 10 Year Financial Model

One of the 2019-2024 Strategic Plan's action items was to develop long-term (10-year) financial models to guide future operating budgets and rate studies. On November 5, 2019, staff presented to the Board the new 10-Year Financial Planning Model for the Regional Wastewater Enterprise. The 10-Year Financial Planning Model made a number of conservative assumptions, including:

- Full staffing throughout the 10-Year Financial Planning Model horizon (no vacant positions)
- Full spending of the operating budget over 10 years
- Full funding of the District's conservative Asset Management Program over a 20-year period, with an early contribution to capital of \$3.1 million annually rising to \$4.6 million annually by FYE 2027
- Accelerated funding of the District's CalPERS Unfunded Actuarial Liability
- No cost savings recognized from operating efficiencies arising from technological advances, information systems enhancements, streamlining of administrative processes, or energy savings projects
- Future rate increases limited to no more than general inflation (assumed to be 3% for the Bay Area based on long-term average), which is an uncommon assumption for many Bay Area utility agencies. A number of DSRSD's sister agencies are experiencing 5% - 9% annual rate increases to address deferred facility upgrades, long-term liabilities, and new regulatory/permitting requirements.

For illustrative simplicity, the 10-Year Financial Planning Model combined the Operating Reserve and the Rate Stabilization Reserve balances into a single chart. Actual balances for each of these two reserves vary from year to year and are reviewed each year by the Board of Directors. The model shows the combined minimum reserve and target reserve for the Operations fund and the RSF and shows the estimated ending working capital for the Regional Wastewater Enterprise over a 10-year period.

Figure 1: Regional Wastewater Enterprise 10-Year Financial Planning Model

As can be seen from this first edition of the 10-Year Financial Planning Model, the working capital exceeds target level in the early years and falls between the target level and the minimum level after 10 years. There is a current structural imbalance between resources and expenditures of approximately \$750,000/year. Staff noted last year that this imbalance could be addressed through a number of factors, including:

- Refinement of the model to reflect historical operating cost savings and vacancy rate savings
- Cost containment with the Asset Management Program to reduce projected capital transfers
- Reduction of operating costs as a result of anticipated energy savings projects
- Refinancing of LAVWMA debt in 2022 to reduce payment obligation (\$1.46 million annually currently)

This first edition of the model will be updated and presented as part of a FYE 2020 year-end review this fall, with further refinement as part of the FYE 2022/FYE 2023 operating budget in early 2021.

3. Economic Impacts of COVID-19 Crisis on Regional Enterprise and “Stress Test”

The COVID-19 crisis will have unknown effects on the regional economy. Even prior to the COVID-19 pandemic, the District was experiencing a slowdown of new development activity, which will slow the growth in the District’s customer base, and likely will only worsen as the crisis continues. This will have the effect of reducing revenue growth, which will adversely affect Regional Wastewater Enterprise fund working capital balances throughout the 10-Year Financial Planning Model. Moreover, staff anticipates reductions in commercial revenues due to both temporary and permanent business closings. There may also be some delays in the payments of utility bills, with some ratepayers ultimately defaulting on payment. Fortunately, as of mid-July, no signs that systematic widespread delay in payments of wastewater bills has materialized. Staff have noticed for Dublin and San Ramon customers, however, that the commercial revenue is down from April through June by more than 10%. Staff will continue to closely monitor the situation and report to the Board any changes in status.

Stress Test

Given the lack of precedent, it is difficult to estimate the impact of the COVID-19 pandemic on the economy and development. At the July 7 Board meeting, staff presented “stress tests” on the District’s six capital funds to assess the potential impact of an economic crisis on those funds. To determine the sensitivity of the Regional Wastewater Operations fund (Fund 300) and the Regional Wastewater Rate Stabilization fund (Fund 305), to an economic crisis, staff developed a similar “stress test” for these funds which examines the effects of economic slowdown over the balance of the 10-Year Financial Planning Model.

As with the earlier stress test on the capital funds, this Regional Wastewater Enterprise stress test assumes that only 25% of the new development growth anticipated in the latest adopted operating budget and 10-Year Capital Improvement Plan occurs over the next 3 years. This has the effect of reducing the growth of the District’s customer base, which reduces anticipated rate revenue. For comparison, in the Great Recession from 2008 to 2010 the District experienced only 30% of the projected level of growth.

This stress test assumes that development that does not occur in FYE 2021, FYE 2022, and FYE 2023 will materialize in the subsequent six years. This assumption increases the structural annual imbalance that accumulates over time. As the results of this assumption demonstrate, the District is reliant upon development to provide additional resources to help mitigate the effect of Asset Management Program costs at the Regional Wastewater Treatment Facility.

Additionally, the stress test assumes that commercial revenue will be reduced by 25% initially, and ramping down to a reduction of 5% over a four-year period (FYE 2020 – FYE 2023), and that there will be late payments (of one to two years) on some revenues from commercial and residential development. Nearly 40% of the District’s total revenue is from DSRSD non-single family residential (commercial, industrial, and multi-family residential) and is directly billed bimonthly by DSRSD. In contrast, 100% of the revenue, both residential and non-residential, from the City of Pleasanton is billed bimonthly on DSRSD’s behalf. This revenue is very sensitive to an economic downturn, and the District is now starting to see a decline of more than 10% in commercial revenues materializing. Residential development in Pleasanton is billed bimonthly by the City of Pleasanton on DSRSD’s behalf and may be somewhat sensitive to a prolonged economic downturn. Residential development in San Ramon and Dublin is collected on the Alameda County and Contra Costa tax roll, and as a result is a more stable revenue source. The combined effect of slowdown in development, these payment deferrals, defaults, and account closures will reduce the net reserve balance by a total of \$8 million within four years, but does not create an ongoing structural problem as the economy is assumed to recover in subsequent years.

The effects of these stress test assumptions have been added to the existing 10-Year Financial Planning Model, and are reflected in Figure 2:

Figure 2: Regional Wastewater Enterprise COVID-19 Stress Test (10-Year Model)

As can be seen, in the absence of any corrective action, this stress test will lead to the combined reserve level dropping to reserve policy minimums after just two years and declining below reserve policy minimums later in the 10-Year Financial Planning Model planning horizon, if no corrective actions are taken by the District.

However, there are a number of actions the Board could direct to address a severe economic scenario. Some of the steps that could be taken include:

1. Adjust the assumptions for labor costs to reflect a 5% position vacancy and other cost savings factors. As noted previously, the existing 10-Year Financial Planning Model assumes that all positions will be filled at the highest level (journey level) throughout the period of the plan. As a practical matter, there will be vacancies, reorganizations, and the opportunity for personnel cost savings throughout the term of the 10-Year Financial Planning Model. Moreover, the 10-Year Financial Planning Model assumes no cost savings as the impacts of pension reform mandated by California's 2013 Public Employees' Pension Reform Act (PEPRA) begin to have a cost control impact on pension costs. The estimated savings would be \$400,000 per year, with a total savings of \$3.6 million over the next nine years.
2. Negotiate an amendment to the 5th Amendment to the Pleasanton Agreement to eliminate the "avoided costs" transfer from the Regional Wastewater fund to DSRSD's and Pleasanton's recycled water programs. If the Board made this future decision, savings of \$500,000/year could begin as early as FYE 2023, resulting in savings over the following eight years of \$4 million.
3. Make a strategic investment in energy production and technology projects at the Regional Wastewater Treatment Facility. Early steps in this process would be developing a District energy policy and District energy master plan as envisioned in the FYE 2019-2024 Strategic Plan. Projects might not be in place until early FYE 2026, with an assumed savings of \$500,000/year over the remaining four years of the 10-Year Financial Planning Model, for a cumulative savings of \$2 million.
4. Adjust Regional Wastewater Rates at a level higher than inflation (assumed at 3% in the model). The next five-year Regional Rate Study is scheduled for 2022. If the Board approved a five-year program of rate increases of CPI (Consumer Price Index) plus a 0.5% "economic recovery surcharge" for each of the five years (five 0.5% escalations compounding), this could generate an additional \$100,000 each year in the first five years (rising to \$500,000 per year total), and a cumulative additional revenue of \$2.5 million.

over the last seven years of the 10-Year Financial Planning Model (\$100,000 + \$200,000 + \$300,000 + \$400,000 + \$500,000 + \$500,000 + \$500,000 = \$2.5 million).

5. Refinance LAVWMA debt in 2022, with an unknown annual cost savings.
6. Refine the Asset Management Program over the next few years through more effective integration of operating and replacement strategies; this could reduce the need for replacement transfers in later years. These potential cost savings are unknown.

Thus, through a series of comparatively moderate adjustments approved by the Board, the financial condition of the Regional Wastewater fund could be improved by approximately \$12 million, bringing the reserves above the minimum level and approaching the target level. Moreover, there would be positive net cash flow into the Regional Wastewater Enterprise. A revised stress test recovery reflecting the effects of the first four adjustments in the list above is graphically shown in Figure 3:

Figure 3: Regional Wastewater Enterprise Stress Recovery (10-Year Model)

4. Strategies to Restore and Sustain Financial Balance During Economic Crisis

The District operates under a biennial operating budget. In the spring of each odd-numbered year immediately following a Board election, the Board approves an update to the Five-Year Strategic Plan and adopts a two-year operating budget. The operating budget includes maximum expenditure limits for each of the District's operating funds, and approval for a staffing level. The General Manager implements the approved biennial budget, while also monitoring to see that applicable Board policies are followed. These policies include Guidelines for Conducting District Business, Financial Reserves, and Budget Accountability.

To address imbalances that were not anticipated in the approved budget (emergency expenses and revenue losses), the Senior Management Team takes managerial action, and recommends to the Board if necessary, a number of action items to mitigate the imbalances. A menu of actions is developed, which are triggered based on the severity of fiscal stress on the District. Examples of actions that the Senior Management Team takes, or recommends that the Board takes, are illustrated in a one-page chart attached to this staff report. In general, different categories of strategies are triggered in response to broad categories of financial stress. The trigger points are broadly classified as follows:

1. Working capital is above target reserve level, but revenues are expected to decline unexpectedly due to economic indicators;
2. Working capital projections are declining below target reserve levels, but remain above minimum reserve levels;
3. Working capital projections for an operating fund are falling below minimum reserve levels;
4. Working capital projections are falling below minimum reserve levels and is not self-correcting within two to three years in accordance with the 10-Year Financial Planning Model.

A simplified chart showing these four fiscal stress trigger points as well as associated strategies to consider at each trigger point is included as Attachment 2 to this staff report.

5. Regional Fund Overview

The Regional Wastewater Enterprise is formed to fund and operate the Regional Wastewater Treatment Facility (RWTF) as well as the LAVWMA facilities under a maintenance contract with LAVWMA (Pleasanton, Livermore, and DSRSD). The District holds a variety of permits to operate the RWTF from the San Francisco Regional Water Quality Control Board, and failure to continuously operate the RWTF (and LAVWMA facilities) in accordance with all the numerous provisions of the permit triggers financial penalties and other sanctions. The RWTF treats wastewater from southern San Ramon, Dublin, and Pleasanton. Pleasanton, although not part of DSRSD, is served by contract under a 1992 agreement that has since been formally amended on six occasions. DSRSD is required to meet the provisions of the Pleasanton Agreement, and this agreement constrains certain policy actions that DSRSD might be interested in pursuing.

The Regional Wastewater Enterprise bears the costs of capital replacements, and indirect expenses fairly allocated to the Enterprise. Under the provisions of the Board's Rate Policies and Guidelines policy, the District reviews the need for operating and capital costs at least once every five years and prepares a cost of service study to recommend future rates to fund operations and capital. Under State law, the District is prohibited from imposing rates that exceed the cost of providing service. Moreover, the District is prohibited from using Regional Wastewater Rates for expenditures not associated with the maintenance, operation, and capital replacement of the RWTF and LAVWMA facilities. For example, Regional Wastewater funds cannot be used for collections systems costs, nor for water systems costs.

Following is a pie chart summarizing major expenditures and transfers planned in FYE 2021 (Figure 4). A number of the major expenditures are non-discretionary because the District is required by contract or by provisions of the Regional Water Quality Control Board's permits to make the necessary expenditures. For example, the District must make required debt service payments by contract and operate the LAVWMA facilities per the LAVWMA operations agreement. Moreover, it is not possible to treat wastewater without using certain chemicals and using energy for pumping.

Figure 4: Regional Wastewater Enterprise Expenditure/Transfers Summary for FYE 2021

As can be inferred from the pie chart, over \$6 million of expenditures are mandated by contract or by permit, representing over 25% of total costs and transfers. It is also interesting to note that total labor costs (direct and indirect) represent less than half of overall costs and transfers, which is typical in the wastewater industry. The balance of Regional Wastewater Enterprise expenditures is theoretically discretionary for the District. However, as a practical matter maintaining Operations Department staffing is critical to operate and properly operate the RWTF and LAVWMA facilities. The Regional Water Quality Control Board typically grants no latitude or leniency for not meeting hundreds of Plant permit requirements.

It is worth noting that the vast bulk of Regional Wastewater Enterprise costs are fixed costs. Although total flows might vary slightly at the RWTF, a pre-determined level of effort is needed to operate and maintain the plant, make payroll, collect charges, and complete rehabilitation projects.

For an interesting comparison with the District's other enterprises, more than 50% of the Water Enterprise's expenditures and transfers are non-discretionary (over \$19 million in non-discretionary expenditures). Virtually all the Local Wastewater Enterprise's expenditures are discretionary, so long as permit requirements are met.

6. Next Steps/Opportunities for Board to Review Finances/Process Going Forward

Staff proposes to bring back a full report on the District's operating and rate stabilization funds (including the Local Wastewater and Water Enterprise) once all final revenues, expenditures, cost allocations and transfers are

finalized for FYE 2020 ending June 30. This report is anticipated in October or November. Waiting until the fall offers the additional advantage of gathering more revenue trend information as the COVID-19 emergency and resulting economic crisis deepens. Concurrently, staff will present updated 10-Year Financial Planning Models for the Regional Wastewater, Water, and Local Wastewater Enterprises based on latest revenue trends and FYE 2020 fund balances. As with this report on the Regional Wastewater Enterprise, the effects of an economic stress test will be presented on the other two enterprises.

Per the Board's direction at the July 7 Board meeting, staff will be providing periodic information on the District's revenues including:

- Monthly reports on capacity reserve fee revenues collected (as compared to budget)
- Monthly reports on enterprise revenue collected through direct billing

The Board will have further opportunities to review the District's progress in implementing its approved budget and in addressing any economic challenges that materialize. The following Board agenda items are planned over the next year:

- Detailed review of FYE 2021 First Quarter revenues/expenditures – November
- Detailed review of FYE 2021 Second Quarter revenues/expenditures – February
- Strategic Plan Workshop – February/March
- Detailed review of FYE 2021 Third Quarter revenues/expenditures – May
- FYE 2022-2023 Operating Budget and 10-Year CIP presentation – May
- Board study sessions on District finances – As needed

RECOMMENDATION

Staff recommends that the Board receive a presentation on the current financial status of the Regional Wastewater Enterprise and the impacts of an economic stress test on the Enterprise and provide direction.

Policy

Policy No.: P400-15-1	Type of Policy: Finance
Policy Title: Financial Reserves	
Policy Description: Provides guidance for the prudent accumulation and management of designated reserves.	
Approval Date: 6/2/2015	Last Review Date: 2015
Approval Resolution No.: 40-15	Next Review Date: 2019
Rescinded Resolution No.: 73-14	Rescinded Resolution Date: 11/18/2014

It is the policy of the Board of Directors of Dublin San Ramon Services District:

To designate financial reserves in order to protect the District's investment in its various assets, satisfy its commitments under its numerous financial, regulatory and contractual obligations and to stabilize long-term rates for its customers.

Designated reserves are earmarked by the Board of Directors for purposes such as funding new capital facilities, construction, repair, replacement or refurbishment of existing facilities, rate stabilization, emergency and operating reserves. These funds can be utilized at the discretion of the District. The Board can change fund designations at any time. Designated reserves are different than restricted funds, which are used strictly to meet requirements established by creditors, grant agencies or law. Reserves held by a third-party as bond reserves or for pension obligations are examples of restricted reserves; the District has no discretion as to the use of these funds.

If the District is contractually obligated to hold additional reserves, the more stringent requirement takes precedence. In addition, if there is a declared emergency, the General Manager may utilize any unrestricted funds in accordance with the emergency purchasing policy.

To accomplish these objectives, the District shall adhere to the following:

Operating Reserves

Purpose: The purpose of Operating reserves (referred to as working capital) is to ensure adequate cash is available when needed to pay the District's normal and recurring operating costs.

Use of Funds: Funds are utilized throughout the year in order to meet the District's operating obligations.

Policy No.: P400-15-1

Policy Title: Financial Reserves

- Target:** Working capital equal to four months of budgeted operating expenses in each Operating Fund.
- Minimum:** Two months of budgeted operating expenses in each operating Fund. If reserves fall below this level, the District's Rate Policies and Guidelines outline additional steps that shall be followed.
- Maximum:** Six months of budgeted operating expenses in each Operating Fund. If reserves are above this level at fiscal year end, the excess funds shall be moved into the Enterprise's Rate Stabilization Fund.
- Reporting:** Working capital for each of the Enterprise's Operating Funds shall be reported in the District's monthly financial reports.

Rate Stabilization Fund Reserves

- Purpose:** The purpose of Rate Stabilization Fund (RSF) Reserves is to support the Board's strategic goal to manage public funds to assure financial stability, including stability of revenues and the rates and charges related to each Enterprise.

Over the course of time, the District will have years where there is a financial surplus above the working capital target for one or more of the District's Enterprises, and years when unexpected events may cause reserves to decrease below the target. The Rate Stabilization Fund allows the District to manage these different sets of circumstances.

- Use of Funds:** Each Enterprise's Rate Stabilization Reserves are assessed at fiscal year-end.
- If the Reserves in any Operating Fund has decreased below the working capital target, a transfer from the Rate Stabilization Fund to the corresponding Operating Fund of no more than one-quarter of the Rate Stabilization Fund's balance shall be made in an effort to bring the Operating Fund back to its working capital target.
 - If any Enterprise Fund has exceeded its working capital target by an amount equal to an additional two months of working capital, the General Manager shall direct the Treasurer to transfer the excess working capital from the Enterprise Fund to the Rate Stabilization Fund for that Enterprise.
 - The Board may also budget use of these funds for other purposes.

- Target:** Four months of the related Enterprise Fund's budgeted operating expenses.
- Minimum:** Two months of the related Enterprise Fund's budgeted operating expenses.

Policy No.: P400-15-1**Policy Title:** Financial Reserves

Maximum: If the combined total of the Operating and the corresponding RSF exceeds 12 months working capital, the General Manager will make a recommendation to the Board of Directors as to how the funds should be used.

Reporting: The General Manager shall report annually to the Board of Directors on the results of the assessment.

Capital Asset Replacement & Improvement Reserves

Purpose: The purpose of Capital Asset Replacement & Improvement Reserves is to ensure that adequate funds are available to purchase new capital assets that benefit current ratepayers, to fund replacements, improvements and major refurbishments to existing capital assets and to provide two year's debt service for debt which the Board has allocated to this fund.

Use of Funds: Funds are utilized in accordance with the budget adopted by the Board of Directors.

Minimum: The minimum replacement reserve shall consist of the sum of the following components:

- 1) An amount based on the 15-year cost projections included in the District's Replacement Planning Model and the District's 10-year Capital Improvement Plan which is equal to two times the average annual expense; and
- 2) A debt reserve of two year's average debt service (or for any debt that has less than two years remaining, the entire remaining amount).

Revisions: It is the intent of the Board that this the Capital Asset and Replacement & Improvement reserve section of this policy be a "bridge policy" and that asset-management driven changes be made to the policy as the condition assessment of District assets and strategies for managing those assets become better understood.

Reporting: The General Manager shall report annually to the Board of Directors on the results of the assessment.

Capital Expansion Reserves

Purpose: The purpose of Capital Expansion Reserves is to minimize the need for ratepayers to pay for expansion debt by having sufficient reserves on hand to pay annual debt service on District bonds or loans for a two-year period.

Use of Funds: Funds are utilized in accordance with the budget adopted by the Board of Directors and applicable laws related to use of Capacity Reserve Fees.

Policy No.: P400-15-1**Policy Title:** Financial Reserves

- Target:** Two years of average debt service (or for any debt that has less than two years remaining, the entire remaining amount) charged to the Expansion Fund, plus two years of expansion project spending as projected in the District's most current two-year Capital Improvement budget.
- Minimum:** A minimum reserve consists the greater of the reserve for the debt service or the next two years of planned expansion projects.
- Maximum:** There is no maximum reserve in this fund; Capacity Reserve Fees may be accumulated and used for their intended purpose with no maximum reserve limitation.
- Reporting:** The General Manager shall report annually to the Board of Directors on the results of the assessment.
