

# Conservation and Recycled Water Update

DSRSD/City of Dublin Liaison Committee Meeting  
May 16, 2023

**Dublin San Ramon  
Services District**  
*Water, wastewater, recycled water*

# LONG-TERM CONSERVATION FRAMEWORK

# Residential Indoor Budget

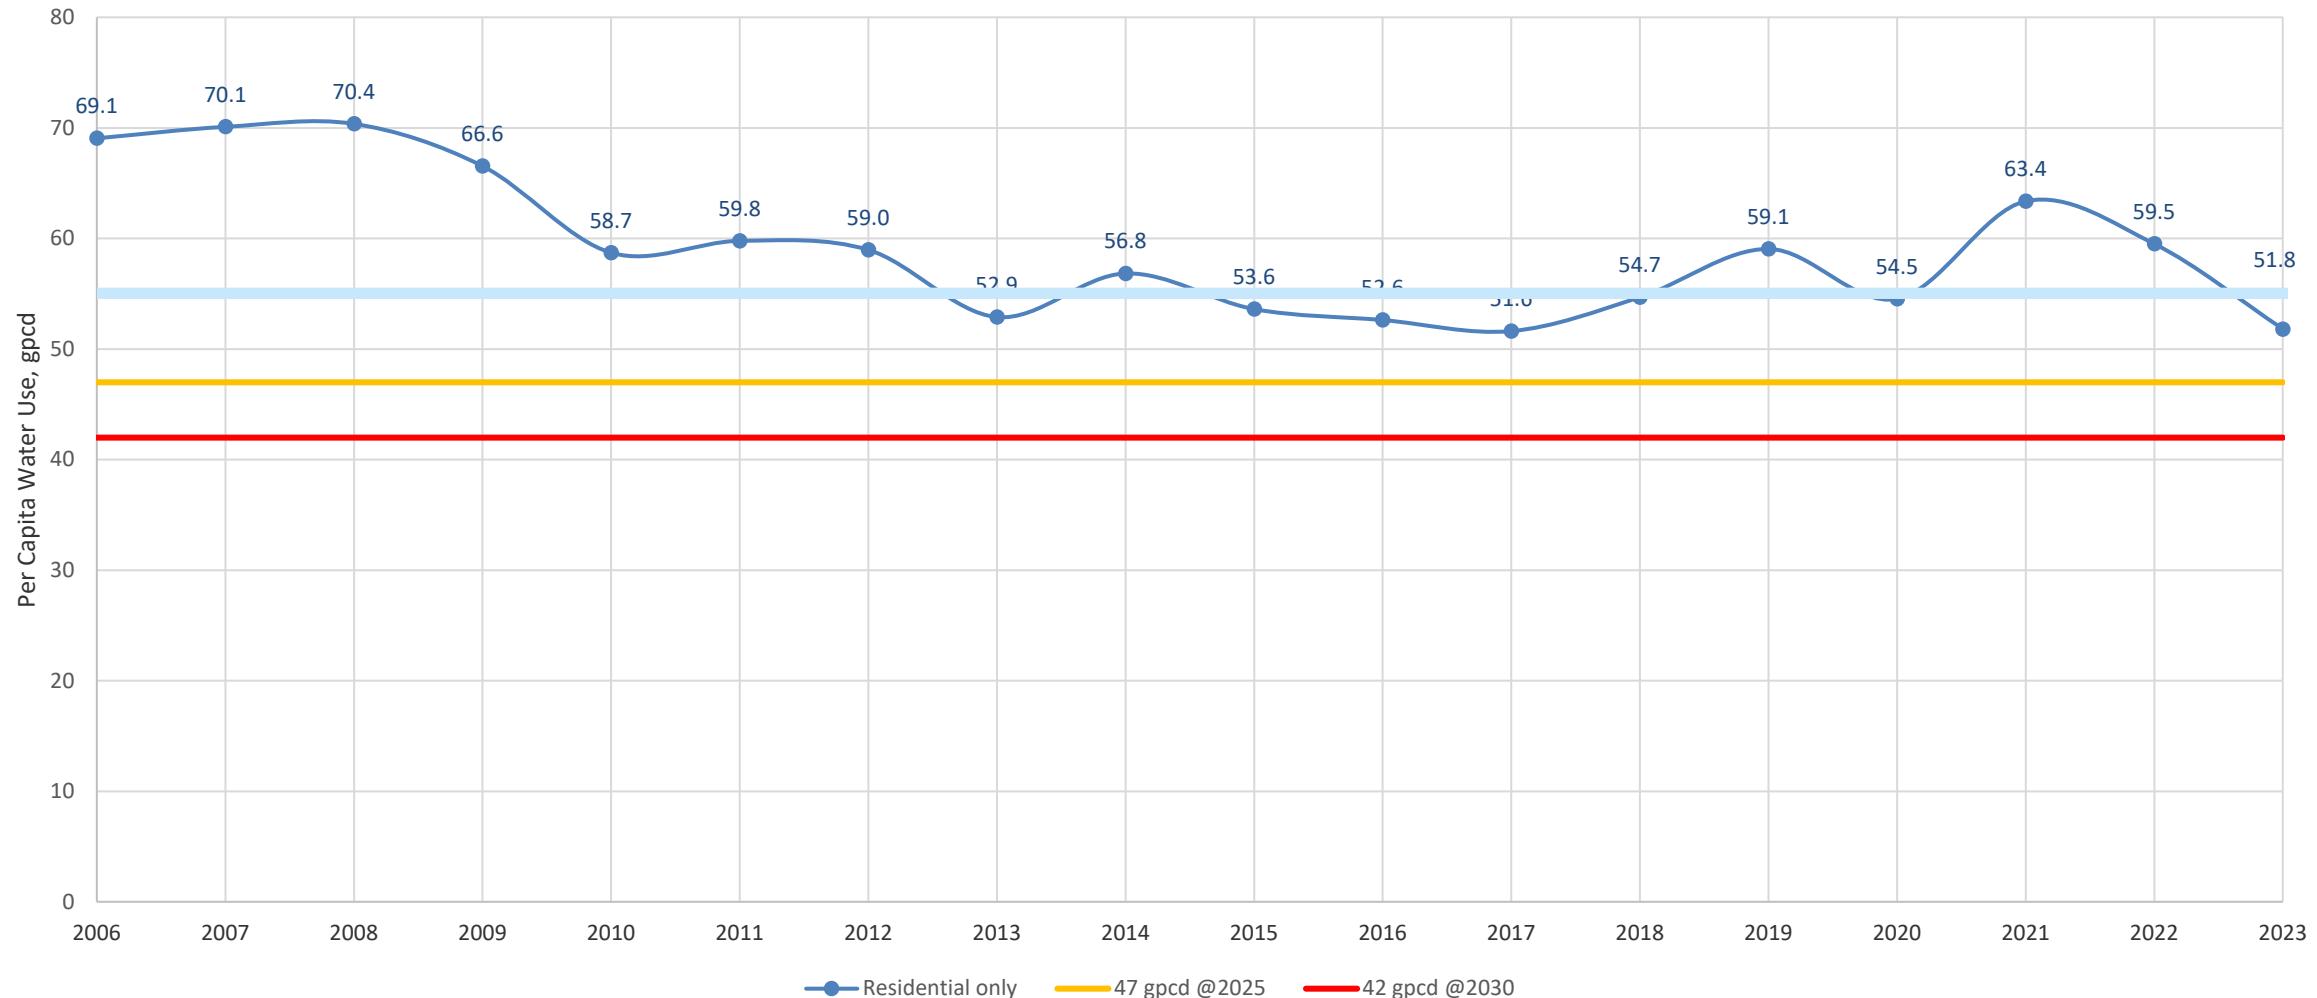

Efficient Residential Indoor Standard as defined in  
Water Code Section 10609.4

Timeline	Residential Indoor Standard (gallon per person per day)
Now to 2024	55
2025 to 2029	47
2030	42

Residential Indoor Budget = 55 x Population x 365 days

# Residential Indoor Water Use - Based on Winter Month

# Water Conservation Master Plan (FY24/FY25)

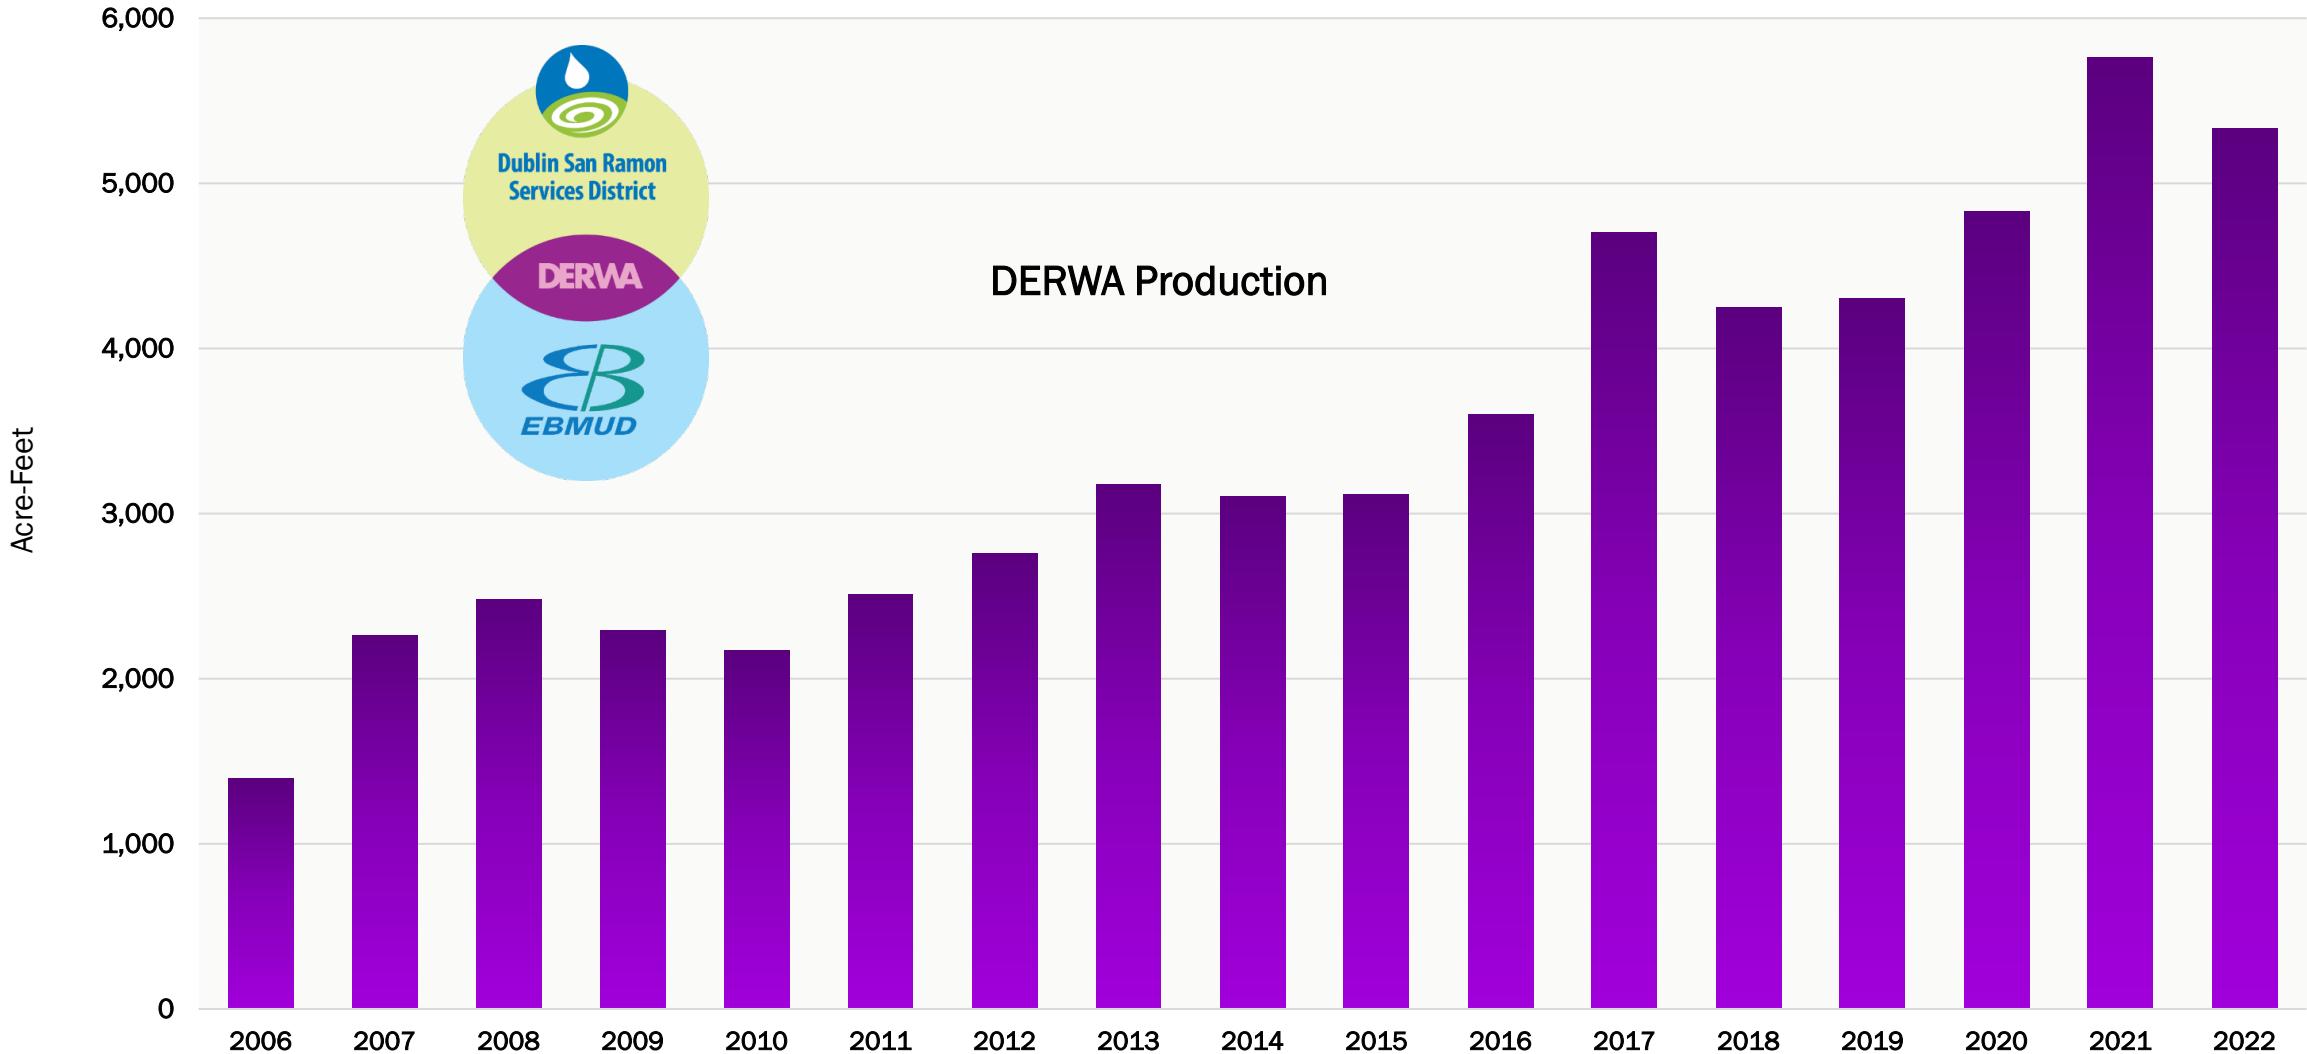

- » Identify future conservation programs to meet water use objectives by 2030
- » Review existing conservation programs (rebates, leak notification through AMI)

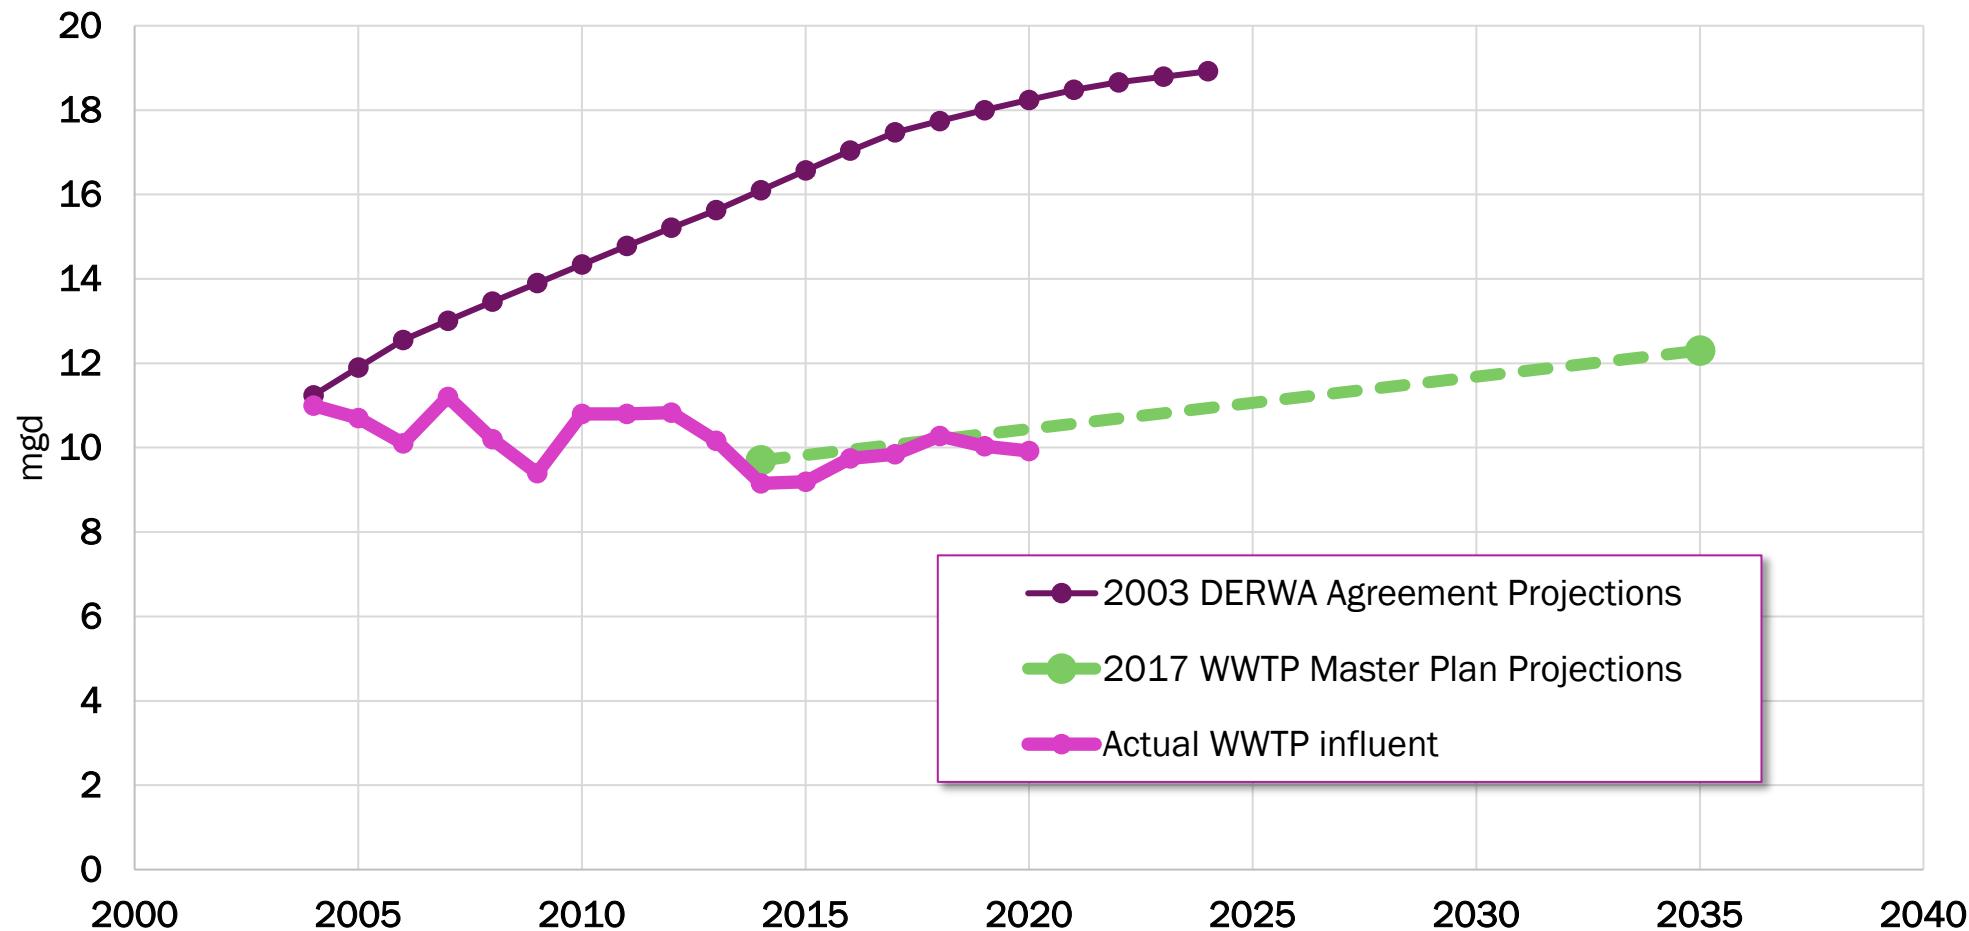

# RECYCLED WATER UPDATE

# Growth in Recycled Water Program

# Wastewater Supply Projections

WWTP Influent – Average Dry Weather Flow

## Supplemental Supply Efforts

- ▶ DERWA Recycled Water Supply and Operations Plan Update
- ▶ EBMUD and Central Contra Costa Sanitary District (Central San) Feasibility Evaluation of Recycled Water Concepts

Studies anticipated to be completed by end of 2023

DERWA-Central San Diversion Project
