RECOMMENDATION:

Staff recommends the Board of Directors adopt, by Resolution, the revised Investment policy, rescind Resolution No. 51-24, and reaffirm the authority delegated to Treasurer and/or designed to deposit and invest District funds.

DISCUSSION:

On January 7, 2025, the Board authorized an agreement with Chandler Asset Management, Inc. (Chandler), a registered investment advisor, to provide investment management and advisory services for the District. At the last Board meeting on March 4, the Board received a presentation from Chandler on the proposed investment management plan and revisions to the Investment policy. The Board was satisfied with the revisions and directed staff to bring the revised policy back for adoption.

The Investment policy was last revised on December 17, 2024, to conform with the requirement of California Government Code Section 53646 for the Board to annually review the Investment policy and Section 53607 to annually renew the authorization for the Treasurer and/or designee to invest District funds, and to add a long-term portion of the portfolio limited to ten percent and seven-year maturity.

The marked-up Investment policy is included as Attachment 1, and the recommended changes include:

- Expanding authorized dealers and institutions
- Expanding municipal securities, United States treasury securities, federal agencies or United States government sponsored enterprise (GSE) obligations, negotiable certificates of deposit, and medium-term notes
- Adding passthrough securities, supranational, banker's acceptances, repurchase agreements, local government investment pools, and commercial paper as approved investments
- Adding due diligence requirements on investment pools
- Adding list of prohibited investments and investment practices
- Adding investment review and performance evaluation requirements
- Adding collateralization requirements

If adopted, the Investment policy would become effective immediately and be scheduled for annual review in 2026.

The purpose of this policy of the Board of Directors of Dublin San Ramon Services District is to invest public funds in a prudent manner in conformance with state and local statutes, specifically California Government Code (CGC) Section 53600 et seq.

1.0 Policy

It is the policy of Dublin San Ramon Services District (hereafter, the "District") to invest public funds in a manner which will provide the maximum security (safety), meet daily cash flow demands of the entity (liquidity), and obtain the highest investment return (yield), while conforming to all state and local statutes governing the investment of public funds, and other legal investment requirements.

2.0 Scope

This ~~investment~~ policy applies to all financial assets of the District under its direct control and authority. It does not cover deferred compensation plan investments, long-term debt proceeds and reserves held by a ~~trustee~~ and invested pursuant to contractual agreement, or retirement investments held by a trustee (such as CalPERS).

3.0 Prudence (Due Diligence)

The District operates its investment portfolio in conformance with governing legislation and other legal requirements, and under the Prudent Investor Standard (CGC Section 53600.3) which states, in essence, that "when investing, reinvesting, purchasing, acquiring, exchanging, selling or managing public funds, a trustee shall act with care, skill, prudence and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated need of the District, that a prudent person in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the District."

Policy No.: ~~P400-24-7~~

Policy Title: Investment

This standard shall be applied in the context of managing the overall portfolio. Investment officers, acting in accordance with written procedures and this investment policy and exercising the above standard of diligence shall be relieved of personal responsibility for an individual security's credit risk, interest rate risk, or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

4.0 Objective

The primary objectives, in priority order, of the District's investment activities shall be:

4.1 Safety: Safety of principal is the foremost objective of the investment program. Investments of the District shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, the District will diversify its investments by investing among a variety of securities offering independent returns and financial institutions.

4.2 Liquidity: The District's investment portfolio will remain sufficiently liquid to enable the District to meet all operating cash flow requirements which might be reasonably anticipated. Securities should mature concurrent with cash need to meet anticipated demands. To eliminate risk of loss resulting from the over-concentration of assets in a specific maturity, issuer, or class of securities, all cash and cash equivalent assets in all District funds shall be diversified by maturity, issuer, and security type. Diversification strategies shall be determined and revised periodically by the Treasurer for all funds except for the employee retirement fund.

In establishing specific diversification strategies, the following general policies and constraints shall apply: Portfolio maturities shall be strategically staggered to avoid undue concentration of assets in a specific maturity sector range. Maturities selected shall provide for stability of income and reasonable liquidity.

4.3 Return on Investments: The District's investment portfolio shall be designed with the objective of attaining a market for best yield rate of return throughout budgetary and economic cycles, shall commensurate with the District's investment risk constraints and the cash flow characteristics of the portfolio, and shall not diminish the objectives of safety and liquidity defined in Section 1.0 of this policy.

5.0 Delegation of Authority

Pursuant to CGC Section 53601, the District's Board of Directors has primary responsibility for the investment of all funds in the District treasury. As authorized under CGC Section 53607, the Board hereby delegates its authority to invest or reinvest the funds of the District, and to sell or exchange securities so purchased, to the Treasurer and/or designee for a one-year period of time and subject to annual renewal who shall assume full responsibility for all such transactions until such time as this delegation of authority may be revoked by the Board.

Policy No.: ~~P400-24-7~~

7.0 Authorized Financial Dealers and Institutions

In addition, a list will also be maintained for approved or security broker/dealers that are authorized to provide investment services in the State of California. These may include "primary" dealers or regional dealers that qualify under United States Securities &and Exchange Commission (SEC) Rule 15C3-1 (uniform net capital rule). No public deposit shall be made except in a qualified public depository as established by state law. All financial institutions and broker/dealers who desire to become qualified bidders for investment transactions must supply the Treasurer with the following: a completed broker/dealer questionnaire, audited financial statements and certification of having read the District's investment policy.

Selection of broker/dealers used by an external investment adviser retained by the District will be at the sole discretion of the adviser. Where possible, investment advisor transactions with broker/dealers shall be selected on a competitive basis and their bid or offering prices shall be recorded. If there is no other readily available competitive offering, best efforts will be made to document quotations for comparable or alternative securities. When purchasing original

The Treasurer shall select an appropriate, readily available index to use as a market benchmark.

Policy Title: Investment	
Policy Description: Authorized investment of public funds	
Approval Date: 3/18/2025	Last Review Date: 2025
Approval Resolution No.:	Next Review Date: 2026
Rescinded Resolution No.: 51-24	Rescinded Resolution Date: 12/17/2024

The purpose of this policy of the Board of Directors of Dublin San Ramon Services District is to invest public funds in a prudent manner in conformance with state and local statutes, specifically California Government Code (CGC) Section 53600 et seq.

1.0 Policy

It is the policy of Dublin San Ramon Services District (hereafter, the "District") to invest public funds in a manner which will provide the maximum security (safety), meet daily cash flow demands of the entity (liquidity), and obtain the highest investment return (yield), while conforming to all state and local statutes governing the investment of public funds, and other legal investment requirements.

2.0 Scope

This Investment policy applies to all financial assets of the District under its direct control and authority. It does not cover deferred compensation plan investments, long-term debt proceeds and reserves held by a trustee and invested pursuant to contractual agreement, or retirement investments held by a trustee (such as CalPERS).

3.0 Prudence (Due Diligence)

The District operates its investment portfolio in conformance with governing legislation and other legal requirements, and under the Prudent Investor Standard (CGC Section 53600.3) which states, in essence, that "when investing, reinvesting, purchasing, acquiring, exchanging, selling or managing public funds, a trustee shall act with care, skill, prudence and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated need of the District, that a prudent person in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the District."

Policy No.:

Policy Title: Investment

This standard shall be applied in the context of managing the overall portfolio. Investment officers, acting in accordance with written procedures and this investment policy and exercising the above standard of diligence shall be relieved of personal responsibility for an individual security's credit risk, interest rate risk, or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

4.0 Objective

The primary objectives, in priority order, of the District's investment activities shall be:

4.1 Safety: Safety of principal is the foremost objective of the investment program. Investments of the District shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, the District will diversify its investments by investing among a variety of securities offering independent returns and financial institutions.

4.2 Liquidity: The District's investment portfolio will remain sufficiently liquid to enable the District to meet all operating cash flow requirements which might be reasonably anticipated. Securities should mature concurrent with cash need to meet anticipated demands. To eliminate risk of loss resulting from the over-concentration of assets in a specific maturity, issuer, or class of securities, all cash and cash equivalent assets in all District funds shall be diversified by maturity, issuer, and security type. Diversification strategies shall be determined and revised periodically by the Treasurer for all funds except for the employee retirement fund.

In establishing specific diversification strategies, the following general policies and constraints shall apply: Portfolio maturities shall be strategically staggered to avoid undue concentration of assets in a specific maturity range. Maturities selected shall provide for stability of income and reasonable liquidity.

4.3 Return on Investments: The District's investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, shall commensurate with the District's investment risk constraints and the cash flow characteristics of the portfolio, and shall not diminish the objectives of safety and liquidity defined in Section 1.0 of this policy.

5.0 Delegation of Authority

Pursuant to CGC Section 53601, the District's Board of Directors has primary responsibility for the investment of all funds in the District treasury. As authorized under CGC Section 53607, the Board hereby delegates its authority to invest or reinvest the funds of the District, and to sell or exchange securities so purchased, to the Treasurer and/or designee for a one-year period of time and subject to annual renewal who shall assume full responsibility for all such transactions until such time as this delegation of authority may be revoked by the Board.

Policy No.:**Policy Title:** Investment**6.0 Ethics and Conflicts of Interest**

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Staff authorized to execute investment transactions shall disclose to the General Manager any material financial interests in financial institutions that conduct business within their jurisdiction, and they shall further disclose any material personal financial and/or investment positions that could be related to the performance of the District.

7.0 Authorized Financial Dealers and Institutions

The Treasurer will maintain an approved list of financial institutions authorized to provide investment services. In addition, a list will also be maintained for approved or security broker/dealers that are authorized to provide investment services in the State of California. These may include "primary" dealers or regional dealers that qualify under United States Securities and Exchange Commission (SEC) Rule 15C3-1 (uniform net capital rule). No public deposit shall be made except in a qualified public depository as established by state law. All financial institutions and broker/dealers who desire to become qualified bidders for investment transactions must supply the Treasurer with the following: a completed broker/dealer questionnaire, audited financial statements and certification of having read the District's investment policy.

In accordance with CGC Section 53601.5, institutions eligible to transact investment business with the District include:

- Institutions that are members of a federally regulated securities exchange.
- Primary government dealers as designated by the Federal Reserve Bank and non-primary government dealers.
- Nationally or state-chartered banks.
- The Federal Reserve Bank.
- Direct issuers of securities eligible for purchase.

To the extent practicable, the Treasurer shall endeavor to complete investment transactions using a competitive bid process whenever possible. Selection of broker/dealers used by an external investment adviser retained by the District will be at the sole discretion of the adviser. Where possible, investment advisor transactions with broker/dealers shall be selected on a competitive basis and their bid or offering prices shall be recorded. If there is no other readily available competitive offering, best efforts will be made to document quotations for comparable or alternative securities. When purchasing original

TITLE: Receive Updates on Per- and Polyfluoroalkyl Substances (PFAS) in Water and Wastewater

RECOMMENDATION:

Staff recommends the Board of Directors receive informational updates on continuing efforts to study and address per- and polyfluoroalkyl substances (PFAS) in water and wastewater.

DISCUSSION:

To support the District's Mission to protect public health and the environment, the District has a Strategic Plan goal to *"Meet or exceed regulatory requirements while preparing for the future regulatory landscape"* with an action item to *"Collaborate with partner agencies to monitor evolving regulatory requirements and explore potential compliance and mitigation strategies."*

In recent years, there has been increased national attention on a group of thousands of synthetic chemicals referred to as perfluoroalkyl and polyfluoroalkyl substances (PFAS), which can be detected in the air, land, and water. PFAS have been in use since the 1940s for their nonstick, heat-resistant, stain-resistant, and waterproof properties. PFAS are found in a wide array of consumer products, including cookware, food packaging, cosmetics, clothing, carpeting, and industrial products such as firefighting foams. PFAS are sometimes referred to as "forever chemicals" because they do not break down easily and persist in the environment. Due to their widespread use and persistence in the environment, most people in the United States have been exposed to PFAS. There is growing evidence that continued exposure above specific levels to certain PFAS may lead to adverse health effects.

The District is actively collaborating with agencies to understand and address public health risks related to PFAS in the environment. At this Board meeting, Zone 7 Water Agency (Zone 7) staff will provide an update to the DSRSD Board on Zone 7's PFAS Management Strategy. The District purchases its drinking water from Zone 7, the Tri-Valley's wholesale water supply agency. Zone 7 has developed a comprehensive PFAS Management Strategy to proactively address PFAS that have been detected in the Livermore Valley Groundwater Basin. Although water agencies do not produce PFAS, they will be responsible for removing it from contaminated water sources and ensuring drinking water meets or exceeds all federal and state drinking water standards.

Following the Zone 7 update, DSRSD staff and consultants will provide two presentations to the Board on efforts to study and understand the presence of PFAS in wastewater. Currently, there are no PFAS discharge requirements for wastewater treatment plants. PFAS are received at wastewater treatment plants each day from residential, commercial, and industrial customers (wastewater treatment plants are referred to as "passive receivers" of these substances). Traditional wastewater treatment methods do not create or eliminate PFAS, and PFAS have been detected in the treated water discharged from wastewater treatment plants.
