# KEY MILESTONES FOR WDR COMPLIANCE

The screenshot shows the California State Water Resources Control Board website. The header includes the California logo, a share button, and links for Board, Programs, Drinking Water, and Water Quality. The main navigation bar has links for Home, Water Issues, Programs, and Sanitary Sewer Systems General Order. The page title is "Sanitary Sewer Systems General Order". The content area defines sewage and discusses the General Order's purpose to provide a consistent, statewide regulatory approach to address sanitary sewer spills. It notes the order's adoption on December 6, 2022, and its effective date of June 5, 2023.

**Sanitary Sewer Systems General Order**

Sewage is untreated or partially treated domestic, municipal, commercial and/or industrial waste (including sewage sludge), and any mixture of these wastes with inflow or infiltration of stormwater or groundwater, conveyed in a sanitary sewer system. A spill is a discharge of sewage from any portion of a sanitary sewer system due to a sanitary sewer system spill, operational failure, and/or infrastructure failure. Sewage and its associated wastewater spilled from a sanitary sewer system may threaten public health, beneficial uses of waters of the State, and the environment.

**General Order Information**

To provide a consistent, statewide regulatory approach to address sanitary sewer spills, the State Water Board adopted Statewide General Waste Discharge Requirements for Sanitary Sewer Systems, Water Quality Order No. 2022-0103-DWQ (Sanitary Sewer Systems General Order) on December 6, 2022. The Sanitary Sewer Systems General Order requires public agencies that own or operate sanitary sewer systems to develop and implement sewer system management plans and report all sanitary sewer spills to the State Water Board's online California Integrated Water Quality System (CIWQS) Sanitary Sewer System Database.

- Statewide Sanitary Sewer Systems General Order – Effective June 5, 2023

- May of 2023- Legally Responsible Official Certifies for Continuation of Regulatory Coverage.
- July 2023- Updated the Sewer Spill Emergency Response Plan and uploaded it to the State Database. (DKF Solutions)
- January 2025- Completed SSMP Audit for Audit Period 2021-2024. (Causey Consulting)
- Due August 2, 2025- SSMP Update with changes to comply with the updated General Order. (Causey Consulting)

# Element 1 - SSMP Goal and Introduction

The goal of the SSMP is to provide a plan and schedule to:

1. Properly manage, operate, and maintain all parts of the Enrollee's sanitary sewer system(s).
2. Reduce and prevent spills.
3. Contain and mitigate spills that do occur.

Sewer System Management Plan  
July 2025**

WDID 2SSO10128

Originally Prepared: March 2007  
Updated 2007, 2012, 2018, and 2025

# Element 1 - SSMP Goal and Introduction

The updated goals of the DSRSD SSMP are as follows:

1. Properly manage, operate, and maintain all portions of the District's wastewater collection system to ensure we provide our customers the most reliable collection system possible.
2. Minimize the frequency of Sanitary Sewer Spills.
3. Mitigate the impacts associated with Spills.

SSMP goals support District's Mission and Goals, as stated in the current five-year Strategic Plan:

Strategic Plan FY 2026-FY2030 - <https://www.dsrsd.com/about-us/strategic-plan>

# Element 1 - SSMP Goal and Introduction

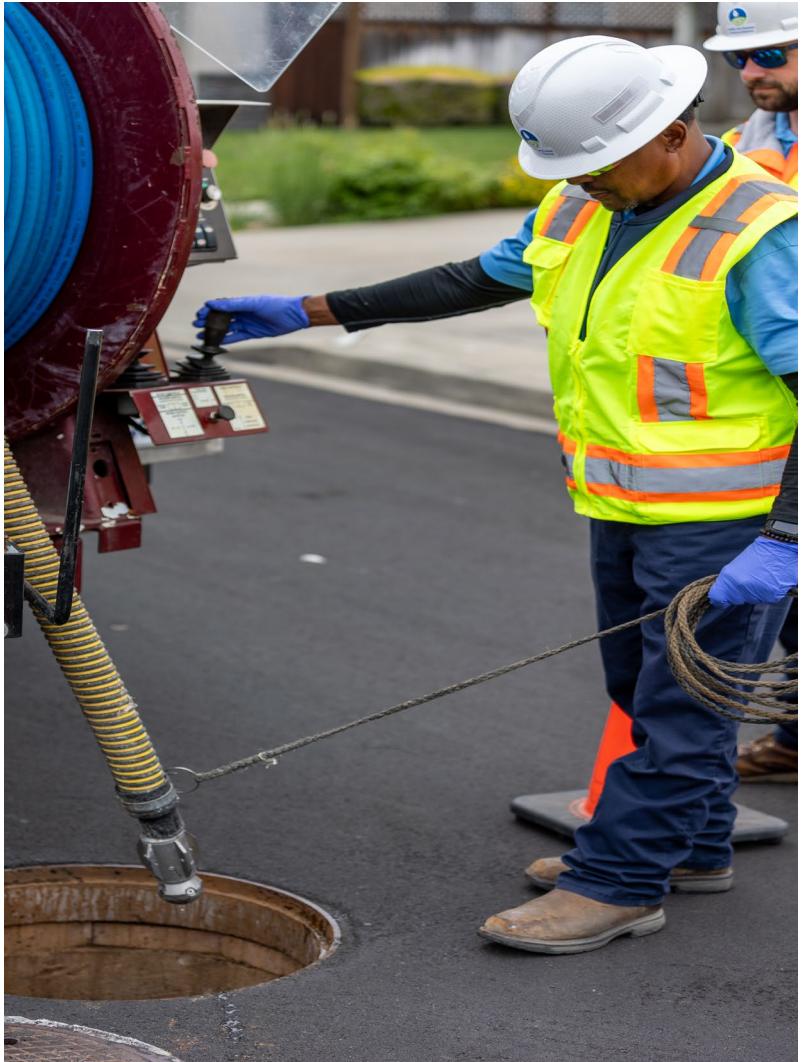

- 1.3- Removed Lift Station 2, the Regional Pipeline, the Regional (EALS) Lift Station from the Collection System.
- Updated asset information tables for pipelines, force mains and our pump station.

Lift Station #2  
Decommissioned on  
March 7, 2025

# Element 4: Operations and Maintenance

## Pipeline Cleaning Interval

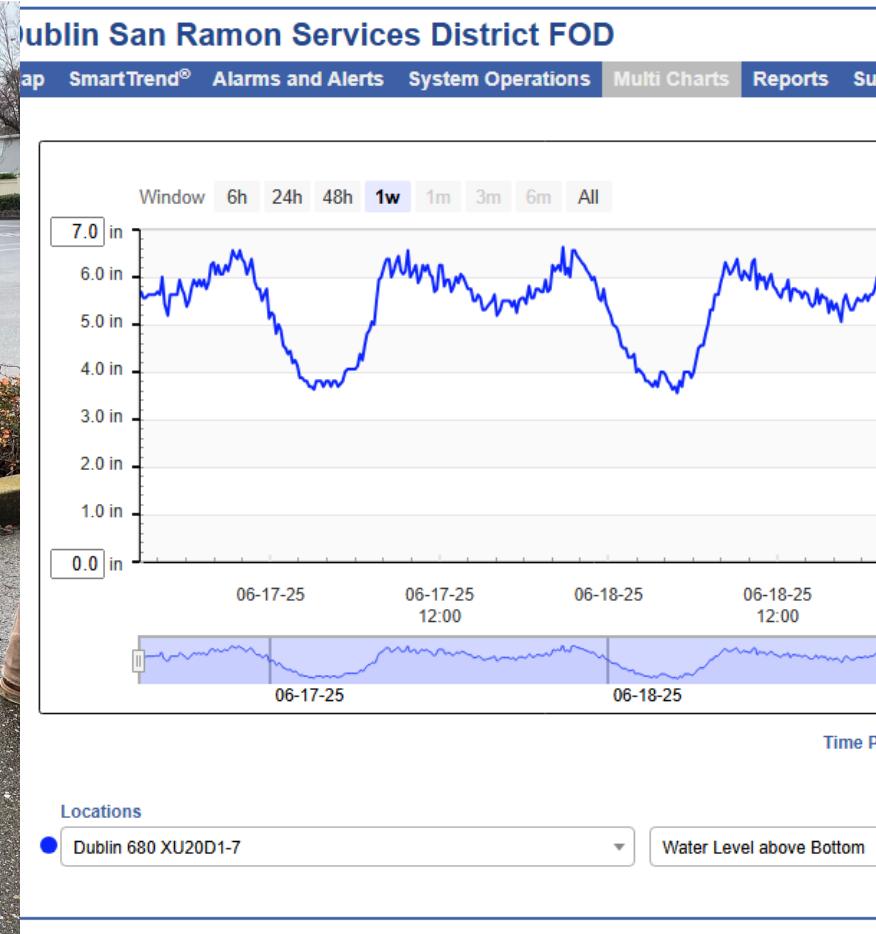

Asset	Frequency
Pipes 15" and Smaller (District Staff)	5 - 7 years (Approx 221.1 miles)
Pipes 18" and Larger (District Staff & Contractor)	5-7 Years (Approx.11.4 miles)
Siphons	Monthly - Quarterly (0.13 miles)
Force Mains	Annually (0.01 miles)

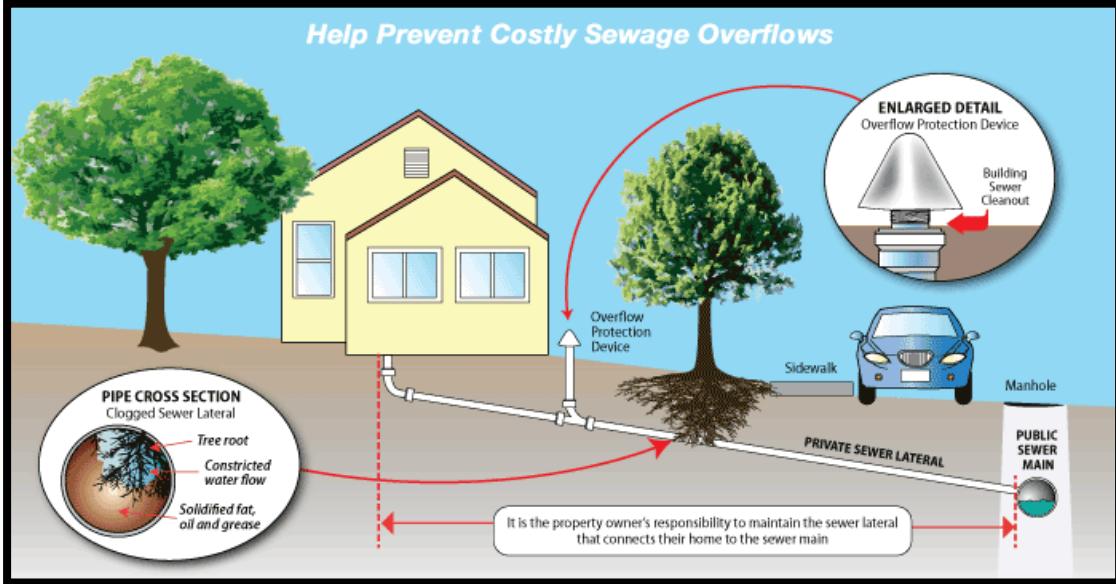

## Element 4: Operations and Maintenance- Pipeline Cleaning

# Element 4: Operations and Maintenance- Manhole Remote Monitoring

# ELEMENT 4: OPERATIONS AND MAINTENANCE- PRIVATE SEWER LATERALS

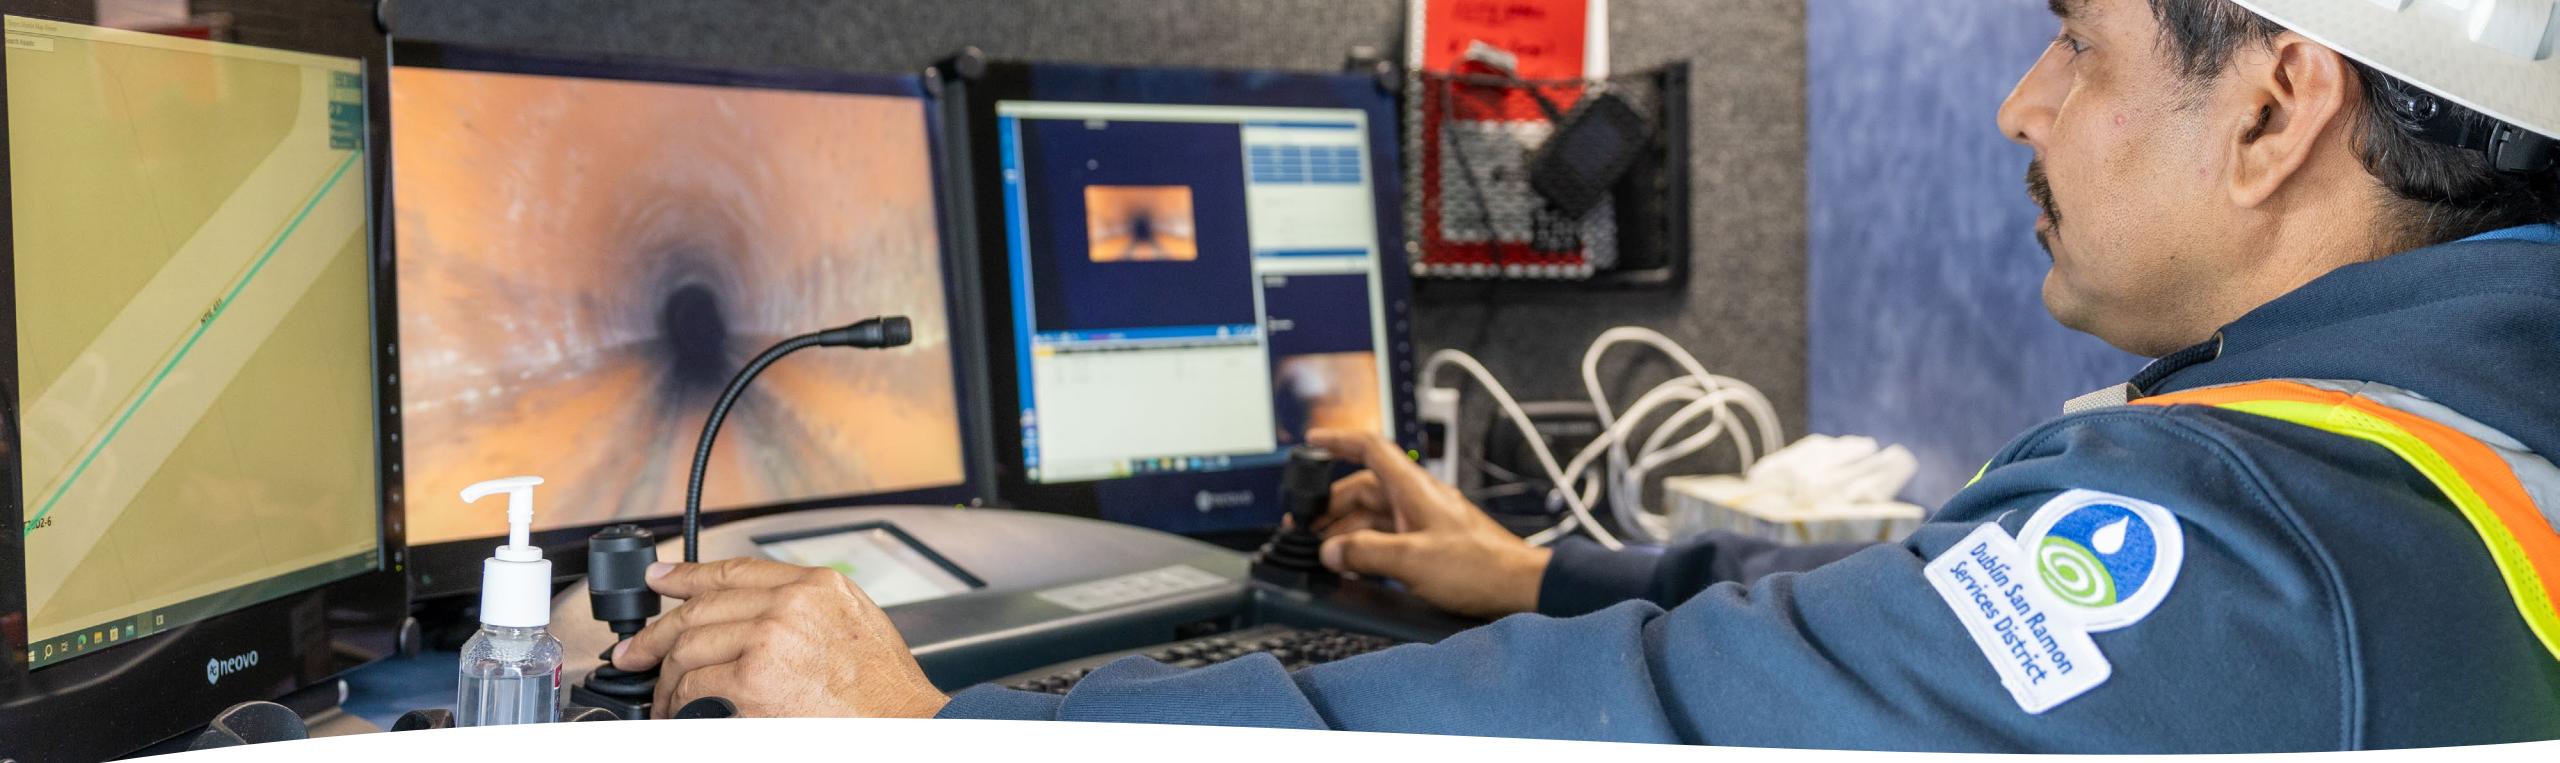

## Private Sewer Laterals:

- Clarified the Private Property Owners responsibilities for maintenance, repair and replacement per Title 5 of the District Code.

## Private Lateral Spills:

- Clarified the Private Property Owners and the Governing Cities responsibilities for clean up and mitigation.

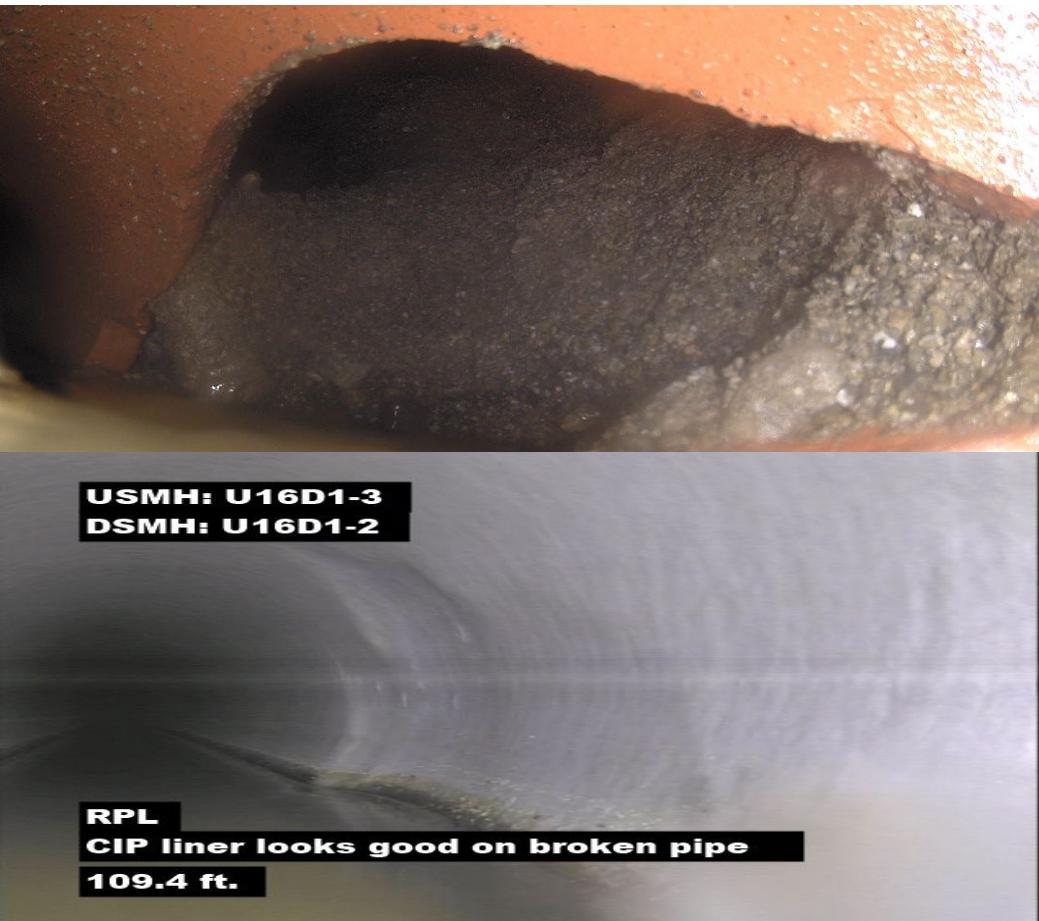

## Element 4: Operations and Maintenance- CCTV PROGRAM

- Sewer Lines 15" and Smaller: 10-year schedule. Approx. 120,000 linear feet per year.
- Sewer Lines 18" and Larger: 10 years or as necessary under a CIP project by a Contractor. Next Assessment is scheduled for summer of this year 2034.
- Trouble Spots: 5-7 Years
- Force Mains and Siphons: 10 Years

# Element 4: Operations and Maintenance- CCTV PROGRAM

Pipeline Structural Condition Assessment

Pipeline O&M Assessment

# Element 6: Spill Emergency Response Plan

## Dublin San Ramon Services District

### Sewer Spill Emergency Response Plan

Effective Date: June 5, 2023

Revised Date: July 16, 2023

Approved by: Clint Byrum

# Element 10 - Internal Audits and Updates

Sewer System Management Plan & Subsequent Update Due Dates					
System Name	WDID Number	Original Plan Required Due Date	Required Plan Update Due Date	Required Plan Update Due Date	Required Plan Update Due Date*
Dublin San Ramon Serv Dst CS	2SSO10128	8/2/2009	8/2/2014	8/2/2019	8/2/2025

Audit Due Dates								
System Name	WDID Number	Original Required Plan Audit Due Date	End of Required 3-Year Audit Period**					
Dublin San Ramon Serv Dst CS	2SSO10128	8/2/2011	8/2/2013	8/2/2015	8/2/2017	8/2/2019	8/2/2021	8/2/2024

\* Per Section 5.5 and Attachment E1, Section 3.11 of the General Order, Plan updates are due within six years after the required due date of the Enrollee's last Plan Update.

\*\* Per Section 5.4 and Attachment E1, Section 3.10 of the General Order, the Audit Report is due within six months after the end of the required 3-year audit period.

- SSMP Audits change from every 2 years to every 3 years and must be certified within 6 months of the required 3-year audit period.  
(Next audit due February 2, 2028)
- SSMP Updates have changed from every 5 years to now due every 6 years. (Next update due August 2, 2031)
- SSMP Updates must be publicly considered and adopted by the Governing Body.
